

Fremont Cable Committee Meeting

June 27, 2017

MINUTES

In Attendance:

Bruce White, Chair

Leo Danjou-Committee Member

Bill Millios, Committee Member

Felicia Augevich-Committee Member

Chairman opened meeting at 5:30 p.m.

This meeting was a one item agenda concerning the Coordinator's suggestion to possibly help the library with additional costs due to so many meetings being held there during renovations of the town hall basement.

Chairman's Report:

Bill gave a short update on Vimeo vs. Win T.V. Both are not working but Bill is still able to upload to Vimeo by a more time-consuming process. The Chair and Bruce agreed with our control room no longer in use the equipment needing replacement will be worked on once the basement renovations are done.

Bruce White began the Coordinator's report by explaining that after discussions with a couple of town officials and upon further observation of how many town organizations were also making use of the library community room that he came to understand his suggestion of reimbursing the library at this time may not be a good idea. All board members agreed so the idea was dropped for now.

Bruce White mentioned before the meeting was adjourned about his frustration with the lack of any positive discussions on bringing the School Board live due to the fact the SAU Office was being moved to Ellis School this summer and it would be some time to get some dedicated space for the school board at Ellis, if at all.

Felicia expressed some concern that she, as camera operator, was being pushed to the corners of the meeting room making it more and more difficult to pick up the audio.

The Coordinator mentioned once the school board and SAU got resettled we would re-discuss how to set up a better arrangement for video recording the school board meetings.

As there was no further discussion, Bruce White made a motion to adjourn, Bill Millios seconded, and all members voted to end the meeting at approximately 6:10 p.m.
