

Fremont Cable Committee Meeting

September 5, 2017

MINUTES

In Attendance:

Bill Millios, Chair

Bruce White, Coordinator

Leo Danjou, Committee Member

Neal Janvrin, Committee Member

Chairman opened the meeting at 5:35 pm.

No Chairman's Report.

Coordinator's Report:

Bruce began report by talking about an upcoming event (a car show) that was taking place at Poplin Nursing Home on September 10th. Leo said he's try and get to that, get some pictures and make a slide presentation.

Bruce talked about having notified Heidi that since the completion of renovations is up in the air, beginning in September, Board and Committee meetings would be video recorded and broadcast on Ch. 22 within 24 hours. He also talked about the likelihood that we may not see any money until at least February 2018. He said a meeting with Comcast was set for November with Neal, himself and Jay Somers and we'll get some answers.

Neal said he wants to meet with Comcast directly and is anxious to get some answers to what is taking so long to get together.

For Discussion:

Bill asked about equipment purchase needs. Bruce said other than getting the meeting room and control room back in order no additional equipment purchases can be considered since we have yet to start receiving payments.

Bruce expressed frustration with Comcast dragging its feet and might like to possibly collect the subscriber fee retroactively. Neal said he didn't think the public would be pleased with that. Bruce agreed as we were fortunate to get residents to support Fremont Community Television in the March elections, hitting the public retroactively would not be a good idea.

Bruce asked if there were any additional issues. Until we get feedback from Comcast the members agreed there was nothing more to talk about. Bruce also mentioned unless the Committee does get additional information from Comcast he may poll the committee at some point to decide whether the October meeting should be cancelled and that he would be in touch by email.

With no additional business, Neal made a motion to adjourn; seconded by Bill and passed by unanimous vote.

Meeting adjourned at approximately 5:55 pm.
