

Present: Vice Chair Jack Karcz, Roger Barham, Andy Kohlhofer, alternate member Leanne Miner, alternate member Mike Wason, Building Inspector Greg Arvanitis, Land Use Administrative Assistant Casey Wolfe

Also Present: Consulting Engineer Dan Tatem, property owner Mike Rislove, surveyor Tim Lavelle, project engineer Bill Gregsak, and Altaeros Energies employee Peter Eliopoulos

Site walk at the Altaeros Energies site at 662 Main Street (Map 2 Lot 151-2) concerning the temporary stabilization of the ongoing construction site

The site walk began at 2:02 pm. The group walked around the area in question. Mr. Rislove stated that there is no erosion. Mr. Tatem stated that the hydro-seeding was not sprayed thick enough. Mr. Gregsak did not feel there is any need to spread hay and that the current state of the site meets all requirements for winter stabilization. The Board tabled this discussion to their February 20th meeting. The site walk ended at 2:25 pm.

Respectfully Submitted,

Casey Wolfe
Land Use Administrative Assistant
