

**Notice of Public Meeting**  
**Towns of Glenville**  
**Hazard Mitigation Plan Update**  
**Monday, September 28, 2015**  
**6:00 PM**  
**Glenville Branch County Library**  
**20 Glenridge Rd.**  
**Glenville, NY**

The Schenectady County Department of Economic Development and Planning and Office of Emergency Management is working with all of our local government bodies to update the current County Hazard Mitigation Plan. The plan was developed to evaluate the probability and types of disasters likely to occur in our county and coordinate actions taken throughout the County to reduce the occurrence of injury, death, property damage, economic losses, and loss/damage to our natural resources.

The purpose of the meeting will be to review the draft plan and the hazards that are most likely to impact the Town of Glenville. In addition, we will examine the Draft Goals, Objectives and Strategies that have been formulated in the plan to reduce the impacts of hazards in a cost effective manner.

A draft of the plan is available on line at: [www.schenectadycounty.com/HMP](http://www.schenectadycounty.com/HMP).

The focus of strategies is to improve our ability to deal with Natural Hazards which include, but is not limited to; flooding, severe storms (wind, tropical storms, hail, tornados), ice storms, winter storm events, etc.

We would like your input on the proposed strategies/mitigation projects and are soliciting input on how we can prevent or lessen the impact of disasters, improve our ability to predict storm events, and how to prepare and recover from disasters in the future.
