**YOU HAVE
EXPERIENCED LOW PRESSURE
FOR A PERIOD OF TIME
BETWEEN 8:00 A.M. AND 4:00 P.M
DUE TO A WATER MAIN REPAIR**

The water is back to full pressure, there may be air in your water lines, and the water may look cloudy. Running all your faucets for a short period of time should allow the water to run clear again. Please run all your faucets whether your water looks cloudy or not.

The water is safe to drink, there is NO Boil Water Order by

The Schenectady County Health Department

Thank you!!! ☺
