

**You are Invited**  
**to a Public Information Meeting about DEC's Oak Wilt**  
**Response in Glenville**

NYS Department of Environmental Conservation will remove trees and destroy the wood to eradicate this deadly tree disease in Glenville.

Please attend for more information.

When: 1/31/2018

Time: 7 pm – 8pm

Where: Board Room of Glenville Municipal Center, 18 Glenridge Rd.

**Your Attendance is Important**

- Get information about oak wilt, one of the most important tree diseases in the eastern United States rapidly killing thousands of trees per year.
- Talk to forestry staff responding in your region.
- Discuss your thoughts about the proposed response.
- Provide comments on the proposed response.
- Learn about opportunities to reduce human assisted spread of the disease.

Questions are encouraged throughout the meeting. Time will also be set aside at the end of the meeting to answer any remaining questions.
