

Today's Featured Business - Photo Images!

Photo Images was founded in 1988 and is a unique, customer-focused digital photo lab, camera store, and portrait studio located in the Town Center Plaza, 19 Glenridge Road in Glenville.

Celebrating our 25th year in business, we cater to the needs of the novice, the professional photographer,

and everyone in between! We are a full service digital lab. Our imaging technicians take the time to quality-inspect every image that passes through our lab, from wallet size prints up to 24" wide. We offer online photofinishing, so you can conveniently send us your images via any high-speed internet connection.

Our storefront features camera equipment, accessories, frames, and mats. Our knowledgeable staff are always here to answer any of your camera or photography questions. We offer many different photography classes and workshops right in our store, for any skill level! Our photo lounge is designed with multiple kiosks for you to come in and order your pictures, while relaxing and enjoying a nice cup of coffee at the same time.

Let our experienced portrait photographers capture your special family moments. We welcome pets in our studio too; they are part of the family!

Visit us online at www.photoimageslab.com and be sure to like us on Facebook to receive coupons and stay up to date on our latest sales!
