Portland Pipeline Expedited Wetlands Permit:

A discussion was had relative to the scope of work required to add additional cover on to a section of pipe located adjacent to the Rail Trail and Moose River. There were concerns voiced on accessing the site by way of the snowmobile bridge. The Chair will notify the Pipeline through the wetlands scientist that this is not an appropriate use for the bridge. There were no other concerns with regard to this application. A motion was made by Steve Malespini and seconded by Doug Gralenski to approve this project for expedited approval to the DES.
