12. PV Chapter 8
Discussion
 - *Dave Pyers – Aecon Project Manager – Contact person for this project.*
 - *Commission is going over the items on the Order of Conditions that must be met.*

- #1 Mr. Pyers has been in contact with the EPA and has tried to get the forms for NPDES and SWPPP online is having a problem getting the NPDES and will do his best to have the matter resolved as soon as possible..
- Aecon has hired Tighe and Bond to get SWPPP plans and should have them available for our next meeting. Mr. Pyers provided the commission with a copy of the fax from the EPA regarding the NPDES (Permit Status indicates that Modified Needing Certification.
- Mr. Pyers doesn't expect that there will be anymore work done on site for the next month.
- Commission want to continue this until the next meeting on Feb. 10, 2009. Mr. Pyers will call Cathy tomorrow and put him on the next agenda and give him a specific time.
- #2 signage will be put up by the end of Feb.. Bluebird boxes will be put up within the next month.
- #4 will make sure there is an adequate supply of straw bales
- #6 Mr. Pyers is the Erosion Control Monitor.
- Denis received a call from Wesley Hill/Hills Construction regarding a possible change on the stormceptor.
- Stormceptor on original plans may be changed because it's going to take too long to get and is more expensive than anticipated.
- Motion to leave project according to plans and not change the stormceptor per recommendation of Mr Pyers - (Project Manager - Aecon), 1st RS, 2nd DH, All in favor – by majority

JWH

8:45 13. Request for Certificate of Compliance

91 Kendall Street

- James Gallagher – owner
- COC popped up on refinancing that it's not a clear title.
- The scope of work was a septic system.
