

Meeting of March 19, 2014

Present: John Katz
Bruce Firger
Christopher Lamarre, Principal Assessor

Meeting called to order by Chris Lamarre.

Minutes of prior meeting approved on a motion by Bruce seconded by John. All in favor.

Old Business: None

New Business: Chris informed the other Board members there are two sites that are being looked at by a private enterprise for solar installation. One is off of Van Deusenville Road & the other is south of the former Rising Paper Co. The state encourages projects of this nature, along with tax credits, because most of them are in a brownfield site or are capped. There may be a warrant at town meeting for the town to enter into a PILOT agreement. Chris would like town counsel or a consultant on this.

Chris would like to have some money in the budget to hire outside help in inspections of properties. Only talking about \$4,600.

Received a letter from Paul Kleinwald stating that he feels the assessors do not have the authority to solicit the information requested on the income & expense forms.

Chris brought the Board up to date on the pending ATB cases.

With no further business,

Board voted to close the meeting & go into executive session to discuss real estate, personal property & CPA abatements.

Respectfully submitted, Carol Strommer
