

**2009**  
**TOWN WARRANT**

**Town of Greenfield**  
**State of New Hampshire**

To the inhabitants of the Town of Greenfield, in the County of Hillsborough and State of New Hampshire, qualified to vote in Town affairs:

You are hereby notified to meet at the Meeting House in said Greenfield on **Tuesday, the 10<sup>th</sup> day of March 2009** next, to act on the following subjects. The polls will be open at the Town Meeting House from 10:00 am – 7:00 pm. The meeting will reconvene on **Saturday, the 14<sup>th</sup> of March 2009** at 9:00 am at the Town Meeting House.

**Article 1:** To choose all necessary town officers for the year ensuing.

**Article 1(a):** To hear the reports of agents, standing committees, or other officers heretofore, and chosen and to pass any vote relative thereto.

**Article 1 (b):** To vote by ballot on the following proposed amendments to the Greenfield Zoning Ordinance.

Amendment #1: Amend the Greenfield Zoning Ordinance as proposed by the Planning Board by adding the following **Small Wind Energy Systems Ordinance** as Section X, and renumbering the following sections accordingly.

**SECTION X. SMALL WIND ENERGY SYSTEMS ORDINANCE**

A. Purpose:

This small wind energy systems ordinance is enacted in accordance with RSA 674:62-66, and the purposes outlined in RSA 672:1-III-a. The purpose of this ordinance is to accommodate small wind energy systems as an accessory use in appropriate locations, while protecting the public's health, safety and welfare. In addition, this ordinance provides a permitting process for small wind energy systems to ensure compliance with the provisions of the requirements and standards established herein.

B. Definitions

1. "Meteorological Tower (Met Tower) means the tower, base plate, anchors, guy wires and hardware, anemometers (wind speed indicators), wind direction vanes, booms to hold equipment for anemometers and vanes, data loggers, instrument wiring and any telemetry devices that are used to monitor or transmit wind speed and wind flow characteristics over a period of time for either instantaneous wind information or to characterize the wind resources at a given location. For the purposes of this ordinance, met towers shall refer only to those whose purpose are to analyze the environmental factors needed to assess the potential to install, construct or erect a small wind energy system.

2. "Modification" means any change to the small wind energy system that materially alters the size, type or location of the small wind energy system. Like-kind replacements shall not be construed to be a modification.
3. "Net metering" means the difference between the electricity supplied to a customer over the electric distribution system and the electricity generated by the customer's small wind energy system that is fed back into the electric distribution system over a billing period.
4. "Power Grid" means the transmission system managed by ISO New England, created to balance the supply and demand of electricity for consumers in New England.
5. "Shadow flicker" means the visible flicker effect when rotating blades of the wind generator cast shadows on the ground and nearby structures causing a repeating pattern of light and shadow.
6. "Small wind energy system" means a wind energy conversion system consisting of a wind generator, a tower, associated control or conversion electronics, which has a rated capacity of 100 kilowatts or less and will be used primarily for onsite consumption.
7. "System height" means the vertical distance from ground level to the tip of the wind generator blade when it is at its highest point.
8. "Tower" means the monopole, guyed monopole or lattice structure that supports a wind generator.
9. "Tower height" means the height above grade of the fixed portion of the tower, excluding the wind generator.
10. "Wind generator" means the blades and associated mechanical and electrical conversion components mounted on top of the tower whose purpose is to convert kinetic energy of the wind into rotational energy used to generate electricity.

#### C. Procedure for Review

1. Applications For: Small wind energy systems, their towers and associated equipment shall be subject to site plan review and approval. An application with designs for towers, additional support features and all associated facilities and accessories shall be submitted to the Planning Board who will establish a schedule for processing the application.
2. Permitted Areas: The installation and operation of small wind energy system facilities are permitted in the Rural/Agricultural District. They are also permitted in the General Residence District but only as a special exception granted by the Board of Adjustment. When considering applications for the construction and

operation of small wind energy systems, the Planning Board and the Board of Adjustment will consider such factors as proximity to residential building, the impact on the value of surrounding properties, its affect on the character and natural features of the site, the frequency of maintenance personnel visiting the site, nuisances it may create such as interference with neighborhood television, telephone or radio reception plus any comments from abutters.

3. Additional Systems: The combination of all small wind energy systems on a lot cannot exceed a total output capacity of 100 kW.
4. Application: Applications submitted to the Planning Board shall also contain a site plan with the following information:
  - a. Property lines and physical dimensions of the applicant's property.
  - b. Location, dimensions and types of existing major structures on the property.
  - c. Location of the proposed small wind energy system, foundations, guy anchors and associated equipment.
  - d. Tower foundation blueprints or drawings.
  - e. Tower blueprints or drawing.
  - f. Setback requirements as outlined in this ordinance.
  - g. The right-of-way of any public road that is contiguous with the property.
  - h. Any overhead utility lines.
  - i. Small wind energy system specifications including manufacturer, model, rotor diameter, tower height, tower type, nameplate generation capacity.
  - j. Small wind energy systems that will be connected to the power grid shall include a copy of the application for interconnection with their electric utility provider.
  - k. Sound level analysis prepared by the wind generator manufacturer or qualified engineer.
  - l. Electrical components in sufficient detail to allow for a determination that the manner of installation conforms to the NH State Building Code.
  - m. Evidence of compliance of non-applicability with Federal Aviation Administration requirements.
  - n. List of abutters to the applicant's property.

5. Abutter and Regional Notification: Public notification will be in accordance with the Site Plan Review Process.
6. Bond Posting: The Planning Board can require that an applicant, for the construction of a small wind energy system, post a bond to cover the cost of removal if it should ever be abandoned.

D. Standards:

1. The Planning Board shall evaluate the application for compliance with the following standards;
  - a) Setbacks:
    1. The setback shall be calculated by multiplying the minimum setback requirement number by the system height and measured from the center of the tower base to the property line, public roads, or nearest point on the foundation of an occupied building.

Minimum Setback Requirements			
Occupied Buildings on Participating Landowner Property	Occupied Buildings on Abutting Property	Property Lines of Abutting Property and Utility Lines	Public Roads
0	1.5	1.1	1.5

2. Small wind energy systems must meet all setbacks for principal structures for the zoning district in which the system is located.
  - b) System Height: The maximum system height shall be restricted to 35 feet above the tree canopy within 300 feet of the small wind energy system. In no situation shall the system height exceed 150 feet.
  - c) Sound Level: The small wind energy system shall not exceed 60 decibels using the A scale (DBA), as measured at the site property line, except during short-term events such as severe wind storms and utility outages.
  - d) Shadow Flicker: Small wind energy systems shall be sited in a manner that does not result in significant shadow flicker impacts. Significant shadow flicker is defined as more than 30 hours per year on abutting occupied buildings. The applicant has the burden of proving that the shadow flicker will not have significant adverse impact on neighboring or adjacent uses. Potential shadow flicker will be addressed either through siting or mitigation measures.
  - e) Signs: All signs including flags, streamers and decorative items, both temporary and permanent, are prohibited on the small wind energy system, except for manufacturer identification or appropriate warning signs.

- f) Code Compliance: The small wind energy system shall comply with all applicable sections of the New Hampshire State Building Code.
- g) Aviation: The small wind energy system shall be built to comply with all applicable Federal Aviation Administration regulations including but not limited to 14 C.F.R. part 77, subpart B regarding installations close to airports, and the New Hampshire Aviation regulations, including but not limited to RSA 422-b and RSA 424.
- h) Visual Impacts: It is inherent that small wind energy systems may pose some visual impacts due to the tower height needed to access wind resources. The purpose of this section is to reduce the visual impacts, without restricting the owner's access to the optimal wind resources on the property.
  - i) The applicant shall demonstrate through project site planning and proposed mitigation that the small wind energy system's visual impacts will be minimized for surrounding neighbors and the community. This may include, but not be limited to information regarding site selection, wind generator design or appearance, buffering, and screening of ground mounted electrical and control equipment. All electrical conduits shall be underground, except when the financial costs are prohibitive.
  - ii) The color of the small wind energy system shall either be the stock color from the manufacturer or painted with a non-reflective, unobtrusive color that blends in with the surrounding environment. Approved colors include but are not limited to white, off-white or gray.
  - iii) A small wind energy system shall not be artificially lit unless such lighting is required by the Federal Aviation Administration (FAA). If lighting is required, the applicant shall provide a copy of the FAA determination to establish the required markings and/or lights for the small wind energy system.
- i) Approved Wind Generators: The manufacturer and model of the wind generator to be used in the proposed small wind energy system must have been approved by the California Energy Commission or the New York State Energy Research and Development Authority, or a similar list approved by the state of New Hampshire, if applicable.
- j) Utility Connection: If the proposed small wind energy system is to be connected to the power grid through net metering, it shall adhere to RSA 362-A:9.
- k) Access: The tower shall be designed and installed so as to not provide step bolts or a ladder readily accessible to the public for a minimum height of 8 feet above the ground. All ground-mounted electrical and control equipment shall be labeled and secured to prevent unauthorized access.
- l) Clearing: Clearing of natural vegetation shall be limited to that which is necessary for the construction, operation and maintenance of the small wind

energy system and as otherwise prescribed by applicable laws, regulations and ordinances.

E. Abandonment:

1. At such time that a small wind energy system is scheduled to be abandoned or discontinued, the applicant will notify the building inspector by certified U.S. mail of the proposed date of abandonment of discontinuation of operations.
2. Upon abandonment or discontinuation of use, the owner shall physically remove the small wind energy system within 90 days from the date of abandonment or discontinuation of use. This period may be extended at the request of the owner and at the discretion of the building inspector. "Physically remove" shall include, but not be limited to:
  - a) Removal of the wind generator and tower and related above-grade structures.
  - b) Restoration of the location of the small wind energy system to its natural condition, except that any landscaping, grading or below-grade foundation may remain in its same condition at initiation of abandonment.
3. In the event that an applicant fails to give such notice, the system shall be considered abandoned or discontinued if the system is out-of-service for a continuous 12-month period. After 12 months of inoperability, the building inspector may issue a Notice of Abandonment to the owner of the small wind energy system. The owner shall have the right to respond to the Notice of Abandonment within 30 days from the Notice receipt date. After review of the information provided by the owner, the building inspector shall determine if the small wind energy system has been abandoned. If it is determined that the small wind energy system has not been abandoned, the building inspector shall withdraw the Notice of Abandonment and notify the owner of the withdrawal.
4. If the owner fails to respond to the Notice of Abandonment or if, after review by the building inspector, it is determined that the small wind energy system has been abandoned or discontinued, the owner of the small wind energy system shall remove the wind generator and tower at the owner's sole expense within 3 months of receipt of the Notice of Abandonment. If the owner fails to physically remove the small wind energy system after the Notice of Abandonment procedure, the building inspector may pursue legal action to have the small wind energy system removed at the owner's expense.

F. Violation:

It is unlawful for any person to construct, install or operate a small wind energy system that is not in compliance with this ordinance. Small wind energy systems installed prior to the adoption of this ordinance are exempt from this ordinance except when modifications are proposed to the small wind energy system.

G. Penalties:

Any person who fails to comply with any provision of this ordinance or a building permit issued pursuant to this ordinance shall be subject to enforcement and penalties as allowed by NH Revised Statutes Annotated Chapter 676:L17.”

Amendment #2: Amend the Greenfield Zoning Ordinance as proposed by the Planning Board by adding the following **Outdoor Wood-Fired Hydronic Heaters Ordinance** as Section XI, and renumbering the following sections accordingly.

**SECTION XI. OUTDOOR WOOD-FIRED HYDRONIC HEATERS ORDINANCE**

All outdoor wood-fired hydronic heaters shall adhere to the requirements set forth in RSA 125-R titled Outdoor Wood-Fired Hydronic Heaters.

Amendment #3: Amend the Greenfield Zoning Ordinance as proposed by the Planning Board by adding the following **Building Construction** as Section XV, and renumbering the following sections accordingly.

**SECTION XV. BUILDING CONSTRUCTION**

A. Adoption – Title

Pursuant to RSA 674:51, the town of Greenfield adopts the enforcement of the State Building Code as set forth in RSA 155-A; continues the appointed position of Building Inspector, hereinafter known as the Code Enforcement Officer to enforce the State Building Code; authorizes the Code Enforcement Officer to review and determine compliance of building plans, issue building permits, inspect the work authorized by the building permits, issue appropriate use occupancy certificates, permit the Board of Selectmen to charge reasonable fees for such service, and exercise other enforcement action as authorized by RSA Chapter 676. These regulations shall be known and cited as the “Building Ordinance of the town of Greenfield,, New Hampshire,” and referred to herein as the “Code”. The Code shall be construed to provide minimum requirements for the health, safety and general welfare insofar as they are dependent upon building construction.

B. Declaration of Purpose.

The purpose of this code is to establish uniform rules and regulations for the construction of buildings and structures within the corporate limits of the Town of Greenfield. This Code is not intended, nor shall it be construed, to create a duty on the part of the Town of Greenfield or its officials, employees or agents, to protect the health, safety, or economic interest of any person or entity, and no person or entity shall have the right to rely on this Code, or any action taken on not taken hereunder, as a basis to assert any claim for any loss, damage or expense against the Town, its officials, employees or agents.

C. Effect on other legislation

No provisions of the Town Zoning Ordinance or any other legal statute pertaining to the location, use or construction of buildings shall be nullified by the provisions of this Code.

#### D. Administration

The provisions of this Code and its requirements will be enforced by the Code Enforcement Officer. In the absence of the Code Enforcement Officer, the Board of Selectmen shall perform his/her duties. The applicant for a permit shall be responsible for meeting the minimum requirements of the State Building Code and the Town of Greenfield shall not be held liable for any failure on the part of the Contractor or Applicant to comply with the provisions of the State Building Code as provided for in RSA 155-A:2.

#### E. Term of permit

A permit under which no work is started within six (6) months after issuance will expire by limitation. If an Excavation has been wholly or partially completed or the foundation walls have been erected and the project is terminated, the parties granted the permit would be required to bring the excavation back to grade within six (6) months after the date of the permit. Failure to carry construction beyond first-floor flooring within six (6) months or to complete exterior structural details as specified in filed plans and specifications within twelve (12) months after the start of work will be considered evidence of termination of the project for which the permit was issued. A building permit for a new structure or for alterations to an existing structure shall expire two (2) years after the date issued. If any work has not been completed which is covered by the original permit, a new permit shall be required unless the Code Enforcement Officer has previously approved a schedule for construction which runs past the expiration date of the original permit but in no instance will a permit term exceed two (2) years and six (6) months.

#### F. Standards

It is required by this Code that all buildings and structures, including manufactured homes that are erected, enlarged, altered, repaired substantially, moved, demolished, or change the occupancy of a building or structure shall comply with the following requirements:

1. State Building Code, as set forth in RSA 155-A.
2. Certificate of Occupancy: The Code Enforcement Officer shall not issue a certificate of occupancy until the applicant has satisfied the Code Officer that all of the work has been completed in compliance with the Code, the septic system meets the requirements of the New Hampshire Department of Environmental Services Subsurface Bureau and local regulations, and the driveway ordinance has been met.

**Article 1 (c):** To vote by ballot on the following proposed amendments to the Greenfield Floodplain Development Ordinance.

Amendment #1:

Amend Item I, Definition of Terms as proposed by the Planning Board for the town Floodplain Development Ordinance definitions as follows:

Existing Definition:

“Regulatory floodway” means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than a designated height. These areas are designated as floodways on the Flood Boundary and Floodway Map.

Proposed Definition:

“Regulatory Floodway” means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than a designated height.

Amendment #2: Amend the town Floodplain Development Ordinance as proposed by the Planning Board as follows:

- A. Create a new Item II and renumber existing Item II and all following accordingly.

Item II

All proposed development in any special flood hazard area shall require a permit.

- B. In Item VI.1 change reference from RSA 48s-A:3 to RSA482-A:3

- C. Insert at the beginning of Item VII, the following before Items VII a-c

1. In special flood hazard areas, the Building Inspector shall determine the 100 year flood elevation in the following order of precedence according to the data available.

- D. Remove existing Item VII.C which reads:

In Zone AO, the flood elevation is determined by adding the elevation of the highest adjacent grade to the depth number specified on the FIRM of if no depth number is specified on the FIRM at least 2 feet.

**Article 2:** To see if the Municipality will vote to raise and appropriate the sum of **Six Hundred Two Thousand, Three hundred Seventy Dollars (\$602,370.00)** to support the operation and maintenance of town property. Allocation as follows: (Majority vote required)

Ambulance	\$23,801
Building Inspector/Code Enf.	5,730
Cemeteries	12,025
Conservation	3,635
Elections/Registration	27,690
Executive	119,409

Insurance	29,948
Interest of Bonds	40,147
Interest on TAN	6,000
Legal Expenses	20,000
Other Debt Service	7,035
Other General Government	38,525
Patriotic Purposes	900
Payroll Expenses	38,922
Planning Board	17,255
Principal of Bonds	65,000
Regional Association Dues	3,165
Street Lighting	4,500
Welfare Administration	22,500
Zoning Board of Adjustment	<u>4,300</u>
	\$602,370

**Article 3:** To see if the Municipality will vote to raise and appropriate the amount of **Ten Thousand Dollars (\$10,000.00)**, in accordance with RSA Chapter 35, to create a Town Buildings Maintenance Capital Reserve Fund for the purpose of maintaining all town buildings and to further name the Board of Selectmen as the agents to expend these funds. (Majority vote required) – *Selectmen support this article.*

**Article 4:** To see if the Municipality will vote to raise and appropriate the amount of **Ten Thousand Dollars (\$10,000.00)**, and place said amount in the existing Town Office Building Energy Efficiency Capital Reserve Fund for the purpose of designing, purchasing and installing energy equipment and renovations. (Majority vote required) – *Selectmen support this article.*

**Article 5:** To see if the Municipality will vote to discontinue the existing 200<sup>th</sup> Anniversary Savings Account. (Majority vote required) – *Selectmen support this article.*

**Article 6:** If Article 5 passes, to see if the Municipality will vote to raise and appropriate the amount of **Six Hundred Eighty One Dollars and One Cent (\$681.01)**, from surplus and to further establish an expendable trust fund, known as the Fire Department's 100<sup>th</sup> Anniversary Fund and to further name the Board of Selectmen as the agents to expend these funds. (Majority vote required) *Selectmen support this article.*

**Article 7:** To see if the Municipality will vote to discontinue the existing Forest Fire Fighters Savings Account. (Majority vote required) *Selectmen support this article.*

**Article 8:** If Article 7 passes, to see if the Municipality will vote to raise and appropriate the amount of **Five Thousand, One Hundred Sixty Three Dollars (\$5,163.00)** from surplus and place the funds into to the existing Fire Truck Capital Reserve Fund. (Majority vote required) *Selectmen support this article.*

**Article 9:** To see if the Municipality will vote to change the purpose of the existing Fire Truck Capital Reserve Fund to be the Fire/Rescue Apparatus Capital Reserve Fund and to further name the Board of Selectmen as the agents to expend these funds. (2/3 Vote required). *Selectmen support this article*

**Article 10:** If Article 9 passes, to see if the Municipality will vote to raise and appropriate the amount of **Fourteen Thousand, Eight Hundred Thirty Seven Dollars (\$14,837.00)** to place the funds in the newly established Fire/Rescue Apparatus Capital Reserve Fund and to further name the Board of Selectmen as the agents to expend these funds. (Majority vote required) *Selectmen support this article*

**Article 11:** If Article 9 fails to pass, to see if the Municipality will vote to raise and appropriate the amount of **Fourteen Thousand, Eight Hundred Thirty Seven Dollars (\$14,837.00)** and to further place the funds in the already established Fire Truck Capital Reserve Fund and to further name the Board of Selectmen as the agents to expend these funds. (Majority vote required) *Selectmen support this article.*

**Article 12:** To see if the Municipality will vote to raise and appropriate the amount of **Twenty Five Thousand Dollars (\$25,000.00)** for the purpose of purchasing Portable Generator(s) and all associated equipment and installation associated with the generator(s) for the Town of Greenfield, housed at the Fire Station; **\$12,500.00 (50%)** to be derived from a Federal Grant, **\$12,500.00 (50%)** to be derived from taxation. This is contingent upon acceptance of the grant, without funding through the grant there will be no expenditure. (Majority vote required) *Selectmen support this article.*

**Article 13:** To see if the Municipality will vote to change the one-year Fire Chief elected position to a two year elected position. (Majority vote required) *Selectmen support this article.*

**Article 14:** To see if the Municipality will vote to authorize the payment of hourly wages to the emergency volunteer firefighters/rescue personnel, they will only be paid a wage in the event the President of the United States declares a state of emergency in the State of New Hampshire, wages will be paid through federal disaster funding. (Majority vote required) *Selectmen support this article.*

**Article 15:** To see if the Municipality will vote to raise and appropriate the amount of **Seventy Eight Thousand, Seven Hundred Ninety Seven Dollars (\$78,797.00)** to support the Fire Department. Allocation as follows: (Majority vote required) *Selectmen support this article.*
