The meeting was called to order at 7:00PM by Judy Wilson.

1. Vandalism Update

Officer Veno updated the Committee on the investigation into the recent vandalism on the Bridge and discussed several different options to enhance security. We agreed to the following immediate steps:

- voted unanimously to approve up to \$100 for Wayne to install brighter LED lights
- James will investigate dummy cameras
- Judy will investigate a neighbor's security cameras that are tamper-proof
- Fran will request house checks from the Hampton Falls PD and she and Sophia will look into "Bridge Under Surveillance" signage

2. Maintenance Update

Steve raised concerns about the potential for tree damage to the Bridge from the Hampton side. Removal of the trees along the Taylor River was discussed. Steve Hurd will be contacted again for his permission for access to the river bank.

- Judy will draft a statement for Steve Hurd to sign granting us this permission, which Steve will present to him
- Larry will find out more about our insurance coverage under the Town's policy and provide Steve with that information for follow-up
