

Harvard Sewer Commission
November 7, 2012

9:00 AM

Commissioners: Cindy Russo, Kyle Hedrick, Rick Maiore

Others: Tim Bragan TA, Lorraine Leonard ; Pat Walrath Holy Trinity Parish

Tim Bragan presented status of system construction. Connections cannot begin for at least 45 days after the determination of how the sand filter failure issue is corrected. This would assume a fast DEP review of the fix.

No drain layers have applied to date.

Malcolm Carley postponed at applicant's request to a later date.

Pat Walrath inquired into the commissions basis for establishing the betterments for Holy Trinity.

She is representing the Parish Finance Committee and they are questioning the multiple betterments for the church building. The commission took her comments under advisement and agreed to review the betterments. One source would be to contact the BOA consultant to see what towns in situations similar to Harvard did. Rick Maiore agreed to follow up with the BOA. .

Reviewed draft of connection information package. Comments were received and Kyle will incorporate those comments and several of his own and present an updated draft at our next meeting.

Approved 3-0 the final matrix for commercial properties

Open action item

- /approved drainlayer
- /meeting with Malcolm Carley
- /Establish time lines for connections.
- /review of church betterments
- /approval of rinal connection info package.
