1	Zoning Board of Appeals - 5/22/2008
2	
3	CHAIRMAN MURPHY: Good
4	evening, everyone. We are here for the
5	May 22, 2008 zoning board of appeals
6	meeting. We have three cases on our
7	agenda tonight. First case will be the
8	case of Jacqueline and Joseph Nyemchek, 15
9	Wilson Place for a second story addition.
LO	Our second case will be Robert
L1	Barsky, 34 Elm Place for reconstruction of
L2	a garage. And our third case will be
L3	Gwenael and Annie Goulet for a view
L4	preservation on a proposed addition on 155
L5	Southside Avenue. Mr. Sharma, are all the
L6	mailings in order for tonight's cases?
L7	MR. SHARMA: That's what
L8	I've been informed by my office.
L9	CHAIRMAN MURPHY: The first
20	case will be for the Nyemcheks, 15 Wilson
21	Place.
22	MR. TWYNE: Good afternoon.
23	Good evening. I'm Julius Twyne

representing the Nyemcheks who have to be

out of town this week. This started back

24

- Zoning Board of Appeals 5/22/2008
- 2 in March, and every expectation was it
- 3 would have been completed by now. And as
- 4 it turned out, it isn't. So they have
- 5 already made the plans.
- 6 CHAIRMAN MURPHY:
- 7 Mr. Twyne, only because I'm not familiar
- 8 with a little bit of the history, if you
- 9 could recite from March forward. I think
- 10 some of the board members including myself
- 11 may not understand what has happened with
- 12 the property between March and now.
- MR. TWYNE: Okay. This
- 14 project is trying to legalize an existing
- 15 condition. I have some photographs of the
- 16 property. This includes how the property
- 17 now looks. The essence of the property is
- that the Nyemcheks own a Dutch colonial
- 19 and is a two-story Dutch colonial. And
- 20 back in the '80s, they had a family and
- 21 all and precious space and all. So
- 22 basically what was once the scope of the
- 23 project was to extend the second level out
- 24 to increase the size of the two upper
- 25 bedrooms and gave them more living space.

```
Zoning Board of Appeals - 5/22/2008
```

- The lower level wasn't affected,
- 3 because it was an enclosed porch, and it
- 4 was just left as it was. Now, in
- 5 extending the second level, they extended
- 6 that level a foot and a half beyond the
- 7 existing condition of that porch.
- 8 CHAIRMAN MURPHY: When did
- 9 that happen?
- 10 MR. TWYNE: Back in '80 --
- 11 I've got it -- I don't have the actual
- 12 file with me, but this happened during the
- 13 '80s.
- 14 CHAIRMAN MURPHY: Okay. So
- 15 20 something years ago.
- MR. TWYNE: Yes, yes. I
- 17 remember it being done. I don't guite --
- 18 I don't have the file with me. But it was
- 19 during the '80s. I remember it being done
- 20 by Mike Kerpchar was the builder, and
- 21 apparently what happened was Mike never
- 22 got a building permit. He never closed it
- 23 out.
- 24 MR. SHARMA: Was it for the
- 25 addition --

```
Zoning Board of Appeals - 5/22/2008
```

- 2 MR. TWYNE: I don't think
- 3 so, no.
- 4 MR. SHARMA: That was
- 5 probably not closed up.
- 6 MR. TWYNE: I'm saying that
- 7 I don't know if in the beginning they
- 8 might have tried to start with getting a
- 9 permit or something and not completed it
- 10 or just how it worked. However, there is
- 11 no permit for this work. That's the
- 12 problem. It's not shown on the current
- 13 CO.
- MR. SHARMA: There is no
- 15 permit for this construction?
- MR. TWYNE: No. So what we
- 17 are doing simply was to show what had been
- 18 accomplished, and as I say, it is an
- 19 extension of the second floor which adds
- 20 space to two bedrooms which were existing
- 21 at that time, and it is simply made
- 22 larger. But in doing so additionally they
- 23 extended the front of the house 1 foot 6
- 24 into what was already an inappropriate
- 25 front yard. And the side yards will also

- Zoning Board of Appeals 5/22/2008
- become a problem in that they simply
- 3 extended the sidewalls. And the summation
- 4 of the two sidewalls, the distance from
- 5 the property lines do not add up to -- do
- 6 not meet current requirements.
- 7 CHAIRMAN MURPHY: 20 feet
- 8 is required.
- 9 MR. TWYNE: Yes. They would
- 10 have had to have setback, and they did not
- 11 do this. They simply continued it along
- 12 the existing sidewalls and out the
- 13 addition a foot and a half. And that was
- 14 the extent of what their project was. And
- we are trying to justify getting the
- 16 approval for that existing condition.
- 17 I have drawings for what these
- 18 extensions were and by -- if anyone needs
- 19 to look at them any further. On the top
- 20 you see the second floor with that
- 21 extended two bedrooms. And on the bottom
- 22 part it simply shows what is there -- what
- 23 was there. And --
- 24 CHAIRMAN MURPHY: Yes. So
- there is basically a three bedroom

```
Zoning Board of Appeals - 5/22/2008
```

- 2 house --
- 3 MR. TWYNE: Yes.
- 4 CHAIRMAN MURPHY:
- 5 -- currently. Do you know anything,
- 6 Mr. Twyne, about when it was expanded, how
- 7 many bedrooms there were?
- 8 MR. TWYNE: No. It was
- 9 always a three bedroom. They simply --
- 10 the fact is this is simply an extension of
- 11 the side of these bedrooms.
- 12 CHAIRMAN MURPHY: For
- 13 example, if I look at this drawing that
- 14 you have handed us, which is the second
- 15 floor addition, am I understanding
- 16 correctly they expanded the front of the
- 17 house by 7 feet 6 inches?
- 18 MR. TWYNE: That's correct.
- 19 CHAIRMAN MURPHY: They made
- 20 an incursion in the front yard setback at
- 21 that time of 7 feet 6 inches?
- MR. TWYNE: No, 1 foot 6.
- 23 CHAIRMAN MURPHY: From the
- 24 preexisting condition?
- MR. TWYNE: A Dutch

- Zoning Board of Appeals 5/22/2008
- 2 colonial, it was the second level ended at
- 3 the beginning of the first floor porch
- 4 roof which extended an additional sum of,
- 5 well, 6 foot 6 -- 6 foot, rather.
- 6 CHAIRMAN MURPHY: So on
- 7 this photograph are you telling me that
- 8 the extension during the addition was the
- 9 distance of this overhang?
- 10 MS. STECICH: Look at the
- 11 third drawing. You can see. See the roof
- 12 line. That's the extension, what is in
- 13 front of the Dutch colonial.
- 14 CHAIRMAN MURPHY: No. I
- understand, but that is 7 feet 6 inches.
- 16 But it only made an incursion, an
- 17 additional incursion, of a foot and a
- 18 half.
- 19 MR. TWYNE: Yes. And only
- 20 on the second level. The first level is
- 21 as it existed.
- 22 CHAIRMAN MURPHY: Is the
- 23 same.
- MR. TWYNE: Yeah.
- MS. STECICH: Yes, but it

```
Zoning Board of Appeals - 5/22/2008
```

- 2 would have required a 7 foot variance.
- 3 CHAIRMAN MURPHY: Sure.
- 4 MS. STECICH: How did it
- 5 come to the board's attention?
- 6 CHAIRMAN MURPHY: Are they
- 7 trying to sell it?
- 8 MR. TWYNE: They were trying
- 9 to sell the house. They are -- they live
- 10 in the area. They were retiring, and they
- 11 wanted to get rid of the house.
- 12 CHAIRMAN MURPHY: The one
- thing that confused me is in the request
- 14 for a variance, I mean, in the front it is
- 15 really the front yard setback that I think
- is the big issue here for me. 25 feet is
- 17 required.
- MR. TWYNE: Right.
- 19 CHAIRMAN MURPHY: They are
- 20 proposing 13.2 feet which is almost 50
- 21 percent of an incursion. But I guess what
- 22 you are trying to tell me is that, and I
- 23 need to be clear, I need to be sure, that
- 24 before they made this addition, there was
- 25 already an incursion, a preexisting

- Zoning Board of Appeals 5/22/2008
- 2 incursion, that was an incursion into the
- 3 front yard setback.
- 4 MR. TWYNE: That's correct.
- 5 CHAIRMAN MURPHY: Even
- 6 though they made this addition 25 or 30
- 7 years ago, they only incurred an
- 8 additional foot and a half. Are you sure
- 9 of that?
- 10 MR. TWYNE: Yes. As a
- 11 matter of fact, this picture drawing
- 12 showing the elevation, this is the line of
- 13 the roof. And what happened was it went
- 14 thusly -- went down here and the porch
- 15 came up. They simply took the roof of the
- 16 porch off, put in floor beams and extended
- them an additional 1 foot 6 out and put in
- 18 a new roof.
- 19 MS. STECICH: They also to
- 20 legalize it, don't they also need a
- 21 variance for the -- oh, I guess it was
- 22 covered -- the ground floor too, if the
- porch was open before?
- 24 MR. TWYNE: It was a closed
- 25 porch.

- Zoning Board of Appeals 5/22/2008
- 2 MS. STECICH: Oh, it was a
- 3 closed porch. Okay. That's not an issue.
- 4 CHAIRMAN MURPHY: And as
- 5 far as you can tell, the side yards were
- 6 never extended.
- 7 MR. TWYNE: No. They simply
- 8 extended the walls perpendicular in line
- 9 with the side yards. And in doing so you
- 10 were already in conflict with the side
- 11 yard setbacks, the two of them. The one
- is okay but the two of them did not meet
- 13 requirements.
- 14 CHAIRMAN MURPHY: What they
- did is effectively extended an existing
- 16 nonconformity of the side yards.
- 17 MR. TWYNE: The side and the
- 18 front, right.
- 19 CHAIRMAN MURPHY: Okay. But
- 20 they made no further incursion into the
- 21 side yard setbacks.
- MR. TWYNE: No.
- 23 CHAIRMAN MURPHY: And the
- 24 dimensions of these bedrooms, I guess, as
- 25 they stand now, the master bedroom is --

- Zoning Board of Appeals 5/22/2008
- 2 I'm trying to put a dimension on the two
- 3 front bedrooms that were expanded. What
- 4 are the dimensions now?
- 5 MR. TWYNE: I didn't bring
- 6 my scale, but probably the one on the left
- 7 is the top of the sheet, probably about 14
- 8 feet and the width is something less than
- 9 8, slightly less than 8. And the other is
- 10 probably 20 feet, and in this case it is
- 11 about a little less than 9 foot wide. So
- they are narrow rooms but by pushing them
- out it made it a little more comfortable,
- 14 if you will. It was really a minimal kind
- of addition. Someone thought it was a
- 16 good idea to get this overhang which was
- 17 done.
- 18 MR. SHARMA: Can I ask him a
- 19 couple questions, if I may?
- 20 CHAIRMAN MURPHY: Go ahead,
- 21 Mr. Sharma, please.
- MR. SHARMA: Did you speak
- 23 to the property owners -- how and why were
- 24 they able to do this work without a permit
- 25 at that time? They did issue permits at

```
Zoning Board of Appeals - 5/22/2008
```

- 2 that time?
- 3 MR. TWYNE: Yes, they did.
- 4 That's why I did say I'm not sure if Mike,
- 5 Mike Kerpchar, I don't know if Mike went
- 6 to the building department and started the
- 7 process and not completed or if he simply
- 8 didn't go at all.
- 9 MR. SHARMA: You are saying
- 10 the Nyemcheks were not the property owners
- 11 at that time?
- MR. TWYNE: Oh, they were --
- MR. SHARMA: The contractor
- 14 you are referring to is Mike Kerpchar, who
- 15 had built this addition --
- MR. TWYNE: Right.
- MR. SHARMA: -- in the '80s,
- and he didn't advise the Nyemcheks that
- 19 they would need a permit to do this or the
- 20 variances and such at that time?
- 21 MR. TWYNE: I can't say. I
- 22 can't properly answer that. I did not
- 23 really -- I don't quite know the
- 24 circumstances of why. There are other
- instances, of course, around where things

- Zoning Board of Appeals 5/22/2008
- 2 have gotten built and that didn't get
- 3 followed through. And I'm not sure that
- 4 there might not have been an attempt to
- 5 start this process and not completed it.
- 6 I don't know that.
- 7 MS. STECICH: But you would
- 8 have had a variance. I mean, there is --
- 9 it seems to me there is no way they would
- 10 have come into the building department and
- 11 not known they needed a variance. The
- 12 files would have variances from the '80s.
- I mean, older files may not, but I would
- 14 think it would be in the '80s.
- MR. SHARMA: Not only that,
- they had no building permit for it either.
- 17 MS. STECICH: I understand
- 18 at some times with older things it is not
- in the files. But from the '80s on the
- 20 files are pretty -- well, it may be a date
- 21 earlier than that, but the '80s files are
- 22 pretty good. It would have been in the
- 23 files.
- MR. SHARMA: That's what
- 25 surprises me, that this oversight by Mike

- Zoning Board of Appeals 5/22/2008
- 2 Kerpchar, I think he is quite familiar
- 3 with the process. In the '80s he must
- 4 have been quite familiar. If the building
- 5 department nobody noticed and it never got
- 6 brought to our attention when this thing
- 7 happened, it is truly amazing.
- 8 CHAIRMAN MURPHY: Well, I
- 9 mean, it is what it is. Nobody really
- 10 knows. It sounds like they didn't follow
- 11 the right process. I guess for this board
- the question is given what has happened
- 13 and the nature of the variances and
- 14 basically is it in keeping with the
- 15 neighborhood or not, because I think the
- 16 penalty for not approving the variances is
- 17 going to be severe on the homeowner. So
- 18 the question is, that's what the board has
- 19 to grapple with.
- 20 MR. FORBES-WATKINS: I have
- 21 a question as to whether we have the
- 22 authority to grant a variance after the
- 23 fact.
- MS. STECICH: You do. It's
- 25 been done.

```
Zoning Board of Appeals - 5/22/2008
```

- 2 MR. TWYNE: I've been
- 3 through this process before on other
- 4 buildings. It is not a known -- an
- 5 unknown situation. As a matter of fact,
- 6 happenstance is the house across the
- 7 street from this very house had the same
- 8 process done for it.
- 9 MR. FORBES-WATKINS: The
- 10 same builder?
- 11 MR. TWYNE: I don't know.
- MS. STECICH: I would say
- it's probably a good 15 years ago. The
- zoning board because they were getting
- 15 really a whole lot of applications after
- 16 the fact, and so at that time they
- 17 imposed -- they recommended that a higher
- 18 fine -- not a higher fine, a higher
- 19 application fee be charged to people who
- 20 went ahead without a variance. I don't
- 21 know if that is being followed through on.
- 22 But I mean, in recognition of the fact
- 23 that it was happening quite a bit --
- MR. TWYNE: One of the
- 25 things that does happen, I think you will

- Zoning Board of Appeals 5/22/2008
- 2 find quite a bit, is that there are decks
- 3 in the village which also they require
- 4 building permits and all of that as well.
- 5 And there are a number of those. And I'm
- 6 surprised that they don't come up more
- 7 often. Because when sales are being made,
- 8 you have to, you know, correct this. I've
- 9 done this all over. I've done it from
- 10 Tarrytown all through. It is not an
- 11 unusual situation. I mean, well, it is
- 12 unusual but it is not an unknown
- 13 situation.
- 14 MR. SHARMA: It usually
- 15 happens they come up to us for a building
- 16 permit or whatever.
- 17 CHAIRMAN MURPHY: It
- doesn't help to redebate the process that
- 19 nobody knows anything about. So let's
- 20 just talk about whether the board is
- 21 willing to grant a variance. It comes
- down to the same factors we would have to
- 23 consider anyway.
- MR. FORBES-WATKINS: I have
- 25 to ask another question. What if we

- Zoning Board of Appeals 5/22/2008
- 2 refuse? What is the next step? I'm
- 3 asking our attorney.
- 4 MS. STECICH: You mean what
- 5 would the applicant do?
- 6 MR. FORBES-WATKINS: If the
- 7 board votes negatively, what does the
- 8 applicant do?
- 9 MS. STECICH: They would
- 10 have to appeal to the Supreme Court. They
- 11 would have to bring an Article 78
- 12 proceeding. From the village perspective
- 13 you are at the end. They would have to go
- 14 to court to challenge the decision. Then
- 15 the Supreme Court standard on review is
- 16 was your decision arbitrary and
- 17 capricious.
- 18 MR. TWYNE: One other
- 19 comment I would like to make possibly
- 20 about this is that if you look at the
- 21 photograph that you have, I think if you
- look at the houses, you know, either side
- of this, this is not a very pronounced
- 24 kind of setback violation. In the time of
- 25 these houses that were built, they

- Zoning Board of Appeals 5/22/2008
- 2 initially were built, the setbacks were a
- 3 lot less than they are now. And no --
- 4 almost -- I don't believe any house on the
- 5 block would have been possibly rebuilt on
- 6 the current standards.
- 7 CHAIRMAN MURPHY: I think
- 8 you are right. In that neighborhood,
- 9 first of all, this is an R 7.5 zone and
- 10 almost all the lots are under sized. So
- 11 most of the houses are narrow and built
- 12 closer than the 25 foot setback
- 13 requirement. And this house in terms of
- 14 the actual setback which is now 13.2 feet
- is not unusual for the neighborhood. The
- 16 size of the house is not in any way
- 17 unusual for the neighborhood.
- MR. TWYNE: No.
- 19 CHAIRMAN MURPHY: What is
- 20 unusual is the fact that the proper
- 21 process wasn't followed for what was a
- 22 significant addition to the house. It's
- just not right. But I guess my view is it
- 24 is what it is. If there was a reason why
- 25 the house as it currently exists given the

- Zoning Board of Appeals 5/22/2008
- 2 encroachment on the front yard in
- 3 comparison to the other homes in the
- 4 neighborhood, if the board feels strongly
- 5 that there is something unusual or that
- 6 negatively impacts the character of the
- 7 neighborhood, then that's something to
- 8 discuss.
- 9 If the board feels, and my own view
- is I don't see any negative impact or
- anything unusual in the size or the scale.
- 12 And I guess my attitude is it's a pretty
- hard penalty on the homeowner even if it's
- 14 ultimately their fault and their
- 15 responsibility for not having gone through
- 16 the process. So I guess it really comes
- down to each board member.
- 18 But, David, I do think if any board
- 19 member feels strongly about perhaps not
- 20 granting a variance, it is important to
- 21 articulate the reasons, the standards that
- 22 we have to meet.
- MR. FORBES-WATKINS: What I
- 24 would like to know is, in fact, a higher
- 25 fee being charged for this application?

- Zoning Board of Appeals 5/22/2008
- 2 MR. SHARMA: Currently, no.
- 3 We don't have any higher fees for any
- 4 legalization of previously built.
- 5 MS. STECICH: It should be,
- 6 because I remember voting on it.
- 7 MR. SHARMA: We don't have
- 8 in our fee schedule any such fee yet. And
- 9 I have seen the fee schedule myself.
- 10 CHAIRMAN MURPHY:
- 11 Mr. Twyne, I have another question. The
- 12 drawings you provided to us that I
- 13 appreciate that show the extent of the
- 14 addition, how are you able to determine
- 15 how much of an addition there was?
- MR. TWYNE: By examination,
- 17 I went there and went through the house
- 18 and measured what was there, and there is
- 19 a property file which all properties have
- 20 that exists of previous conditions. For
- 21 instance, these properties have such a
- 22 sheet which actually indicates what is on
- 23 the various properties.
- 24 CHAIRMAN MURPHY: And
- 25 Mr. Twyne is referring to a page he has

```
Zoning Board of Appeals - 5/22/2008
```

- 2 handed me which is a page from the
- 3 assessment record of the Town of
- 4 Greenburgh for the Nyemcheks' property.
- 5 MR. FORBES-WATKINS: Is that
- 6 the assessment record at this point?
- 7 MR. TWYNE: It is a copy of
- 8 what the town has, which isn't necessarily
- 9 current.
- 10 MR. FORBES-WATKINS: All
- 11 right. For 25 years roughly the town has
- 12 been short on its assessment on the
- 13 building also, is that correct?
- 14 MR. TWYNE: That's probably
- 15 an accurate statement of fact. Yes.
- MR. FORBES-WATKINS: And we
- 17 have no extra charge. You get to go
- 18 without taxes at the right level for 25
- 19 years and walk away scot free if we vote
- 20 for it. Boy, does that encourage people
- 21 to violate the rules.
- MR. TWYNE: I would say that
- 23 in defense of things, there had been a
- 24 time previously that the building process
- 25 was a lot more lax than it is now. I

```
Zoning Board of Appeals - 5/22/2008
```

- 2 would dare say that there would be few
- 3 situations nowadays where this would
- 4 occur. And I think it is just that the
- 5 process has gradually tightened up. I
- 6 think all the villages have a similar kind
- 7 of history of that. They are more and
- 8 more restrictive now than they were
- 9 previously.
- 10 CHAIRMAN MURPHY: David, I
- 11 share your feelings. I think the
- 12 difficulty is given what we have --
- MR. FORBES-WATKINS: Given
- 14 the house and the change, I have no
- problem, no problem at all. But the
- 16 process and all of the things around it
- 17 stink. And I am declaring myself a
- 18 negative on this one.
- 19 CHAIRMAN MURPHY: We didn't
- 20 vote yet but --
- 21 MR. FORBES-WATKINS: All
- 22 right.
- 23 CHAIRMAN MURPHY: I just
- 24 wanted to be clear. That's why. That's
- 25 why. I would encourage the other board

- Zoning Board of Appeals 5/22/2008
- 2 members to express themselves because,
- 3 Mr. Twyne, we have four members. We
- 4 usually have five, but Mr. Deitz had to
- 5 recuse himself. A positive vote requires
- 6 a minimum of three.
- 7 MR. TWYNE: Right.
- 8 CHAIRMAN MURPHY: And, you
- 9 know, I think you at least ought to hear
- 10 from each of us and then decide whether
- 11 you may want to adjourn this application
- 12 until we have a full board which may or
- may not help you but we're inclined, I
- 14 should say.
- MR. TWYNE: Okay. Further,
- 16 I'm wondering if you might think there is
- anything that I could further do for you
- in that interim time that might very well
- 19 impact upon your decision. In other
- 20 words, as I say, this is not a totally
- 21 unique situation. I'm not saying it is a
- 22 usual situation, but there are other
- 23 instances of this kind of thing. I don't
- 24 know that advice, sir, if I could help you
- in any way by giving some information

```
Zoning Board of Appeals - 5/22/2008
```

- 2 about, you know -- I surely --
- 3 MR. FORBES-WATKINS: The
- 4 builder knew the rules. He chose not to
- 5 come in to the building department. As of
- 6 right now I could ask the building
- 7 department is this in code. Was this
- 8 built in code? Was it inspected? I don't
- 9 believe it was inspected, so we don't know
- 10 if it is in code, whether it is safe. I
- 11 am sorry. But I think this is truly
- 12 something that should not be allowed to
- just go off into the dust.
- 14 MR. TWYNE: I don't disagree
- 15 with you.
- 16 CHAIRMAN MURPHY: I
- 17 understand that. But the board and,
- David, I want you to think about it too,
- 19 the board is required to articulate the
- 20 reasons why any variance is not
- 21 appropriate. And those reasons are in
- 22 295-146 (C)(2).
- MR. FORBES-WATKINS: That's
- 24 why I asked whether we have the right to
- 25 bring this, whether we have the authority

```
Zoning Board of Appeals - 5/22/2008
```

- 2 to deal with this because --
- 3 CHAIRMAN MURPHY: Well, I
- 4 think the answer is --
- 5 MS. STECICH: That is a
- 6 different question.
- 7 MR. FORBES-WATKINS: It all
- 8 relates.
- 9 CHAIRMAN MURPHY: I'm not
- 10 disagreeing with you. I'm saying if you
- 11 want to make a negative vote, you need to
- 12 understand that the consequence is an
- 13 Article 78 proceeding, and it is what it
- 14 is. In order to satisfy what is required
- under that kind of a legal proceeding, you
- owe it to the board and to yourself to
- 17 make a record under the code of the
- 18 reasons why this -- these two variances
- 19 are not appropriate. That's not only for
- 20 our own benefit.
- 21 And so what I'm suggesting is that
- 22 we take a look at that code and that each
- of the board members think about it,
- 24 because, for example, one of the key
- 25 factors is whether the variance is

```
Zoning Board of Appeals - 5/22/2008
```

- 2 substantial. I think there is no question
- 3 that it is a substantial variance. The
- 4 other factors that usually bear on our
- 5 decision is whether there is a negative
- 6 impact of the variance on the neighboring
- 7 properties, whether it impacts negatively
- 8 on the character of the neighborhood,
- 9 whether it was self created.
- 10 MR. FORBES-WATKINS: I would
- 11 say we have found reason. This was a self
- 12 created problem to come before us, in this
- 13 light.
- 14 MR. TWYNE: Well, almost
- 15 every problem does have some sort of
- 16 solution which while it doesn't correct
- 17 what has been done, there might be
- 18 something that you would consider as an
- 19 appropriate kind of response to this
- 20 situation.
- 21 MR. FORBES-WATKINS: This is
- 22 why I was asking about higher application
- 23 fees. And if we don't have those, I think
- there is just no response here.
- 25 CHAIRMAN MURPHY: There has

- Zoning Board of Appeals 5/22/2008
- 2 to be a response. We have to articulate.
- MR. FORBES-WATKINS: I have
- 4 a response at this point. Yes. I think
- 5 they should go to court.
- 6 CHAIRMAN MURPHY: Okay. Why
- 7 don't we take a break and get the advice
- 8 of our counsel so we can have, I think, a
- 9 better discussion of the case.
- 10 (Recess taken.)
- 11 CHAIRMAN MURPHY: We are
- 12 back from a session with our counsel.
- 13 Board members, any other questions of
- 14 Mr. Twyne before we proceed? All right.
- 15 Mr. Twyne, we appreciate the information
- 16 you have provided to us. I think what the
- 17 board would like to do is further this
- 18 application, and we would like to have
- 19 Mr. Sharma and the building department
- 20 conduct an inspection of the premises and
- 21 give us a report on whether it is in
- 22 compliance with the appropriate building
- 23 codes and the fire code.
- 24 And we will also make a request of
- 25 the tax assessor to advise us of what the

- Zoning Board of Appeals 5/22/2008
- 2 difference, if any, in the back taxes
- 3 would have been in the structure before
- 4 and after the proposed addition which is a
- 5 significant addition. And we will wait
- 6 until we get that information, and we will
- 7 take up the application again at that
- 8 time.
- 9 MR. TWYNE: All right.
- 10 MR. SHARMA: Procedurally
- 11 whenever cases like this where they are
- 12 legalizing something that was constructed
- 13 previously, we treat it like a new project
- 14 all together. As a matter of fact, after
- 15 getting the variance I will issue a
- 16 building permit and do the inspection and
- give the property a CO after everything.
- 18 CHAIRMAN MURPHY: That's
- 19 right. They need to pay the appropriate
- 20 fee for that activity.
- MR. SHARMA: But the house
- 22 has to comply with the building codes.
- 23 That happens in the process when you issue
- the permit and go and do the inspection.
- 25 Nothing happens all at one time.

```
Zoning Board of Appeals - 5/22/2008
```

- 2 MS. STECICH: This is not
- 3 an unusual situation.
- 4 CHAIRMAN MURPHY: They have
- 5 already built the structure. They don't
- 6 need a permit, but the board wants your
- 7 report, having conducted an inspection to
- 8 make sure that whatever has been built is
- 9 in compliance with the appropriate
- 10 building code or, if not, advise us what
- 11 the problems there might be.
- MR. SHARMA: All right.
- 13 CHAIRMAN MURPHY: Thank
- 14 you, Mr. Twyne. Thank you. Okay. Our
- 15 next case is Robert Barsky for
- 16 reconstruction of a garage at 134 Elm
- 17 Place.
- MR. BARSKY: Okay,
- 19 gentlemen, I see you have the paperwork
- 20 that I submitted.
- 21 CHAIRMAN MURPHY: State
- 22 your name, please.
- MR. BARSKY: Yes, Robert
- 24 Barsky.
- 25 CHAIRMAN MURPHY: Good

- Zoning Board of Appeals 5/22/2008
- evening, Mr. Barsky.
- 3 MR. BARSKY: Good evening.
- 4 CHAIRMAN MURPHY: The
- 5 protocol here is you just tell us kind of
- 6 what you are doing and what the plans are
- 7 for the garage, why you had to take it
- 8 down, what you are going to do to replace
- 9 it.
- 10 MR. BARSKY: Right. So we
- 11 purchased the home 13 years ago, and it is
- 12 a 1908 colonial. It has a garage, a frame
- 13 garage, nothing fancy, but that was built
- in 1957. And the home borders on the
- 15 aqueduct, so there is a stone wall. And
- then on the other side of the stone wall
- on our property is the garage -- was the
- 18 garage. So that was okay.
- 19 The garage had some historical
- 20 issues before we -- legacy issues of some
- 21 infestations of termites and carpenter
- 22 ants and things that we tried to correct
- over the years. And then last summer
- there was a tremendous amount of rain, and
- 25 apparently there was an enormous quantity

```
Zoning Board of Appeals - 5/22/2008
```

- of water that collected on the aqueduct
- 3 right behind the garage structure. And I
- 4 didn't know it at the time, but at some
- 5 point my wall had washed out and so --
- 6 CHAIRMAN MURPHY: The wall
- 7 of the garage?
- 8 MR. BARSKY: No, the rock
- 9 wall had washed out. And I couldn't see
- 10 it because it was behind the garage. And
- 11 so the garage received a fair amount of
- 12 water, not standing water that I observed,
- 13 but enough to -- so you can see the water
- line on the outside of the garage. And so
- 15 the structure was rotting in the back.
- 16 And on the side and the garage door itself
- 17 also was rotting that was on the other
- 18 side.
- 19 So it got to the point where I felt
- 20 I needed to make substantial repairs. As
- 21 we were beginning to make those repairs, I
- 22 felt that the building was unsafe and so I
- 23 had it dismantled, not realizing if I had
- 24 left one wall standing that I could have
- 25 not had to go through a process. But

- Zoning Board of Appeals 5/22/2008
- 2 there was a whole foundation and footings
- 3 and all that which I left exactly the
- 4 same, so I didn't realize it.
- In any case, I took it down and now
- 6 I would like to just reconstruct the exact
- 7 building with the same exact appearance,
- 8 because it really is a part of the
- 9 neighborhood. And I think it went well
- 10 with the home and it was useful. It is
- 11 along the aqueduct. Okay.
- 12 So it happened that the structure
- 13 when it was built was not too far from the
- 14 property line, but it is in the corner of
- 15 the property. It is 100 by 100 property.
- 16 So on -- the garage had been on the
- 17 southeast corner, and the south side
- 18 borders on the backyard of another home
- 19 that is on Villard. And the east side
- 20 borders right on the aqueduct. Needless
- 21 to say, I have repaired the rock wall
- 22 already.
- 23 CHAIRMAN MURPHY: All
- 24 right. On the plans that you proposed, it
- looks like the dimensions are roughly 20

- Zoning Board of Appeals 5/22/2008
- 2 feet 3 inches by 16 feet. That's the area
- 3 of the --
- 4 MR. BARSKY: That sounds
- 5 right. It is identical to the previous
- 6 structure.
- 7 CHAIRMAN MURPHY: Identical
- 8 in size, identical in location.
- 9 MR. BARSKY: Exactly. It is
- on the same -- the whole foundation is
- 11 still intact, the original foundation. So
- 12 all I did, I didn't change that at all.
- 13 What I did was I replaced some of the
- 14 cinder blocks that had become saturated,
- 15 and then I added some cinder blocks so
- 16 that the next time that this water
- 17 wouldn't happen.
- 18 CHAIRMAN MURPHY: You are
- 19 not altering the height of the garage?
- 20 MR. BARSKY: No. Exactly
- 21 the same.
- 22 CHAIRMAN MURPHY: The only
- 23 thing I was looking for was a height
- 24 dimension, just so we have it in the
- 25 record.

```
Zoning Board of Appeals - 5/22/2008
```

- 2 MR. LEAF: We probably have
- 3 it in here.
- 4 MR. DOVELL: 12.10 and a
- 5 half.
- 6 MR. BARSKY: I'm sure that
- 7 is in compliance.
- 8 CHAIRMAN MURPHY: For the
- 9 record, the drawings provided in drawing
- 10 A-4, the proposed height of the
- 11 replacement garage will be 12 feet 10 and
- 12 a half inches, to the peak of the roof.
- MR. BARSKY: That's correct,
- 14 which should be identical to the one that
- was there before.
- 16 CHAIRMAN MURPHY: Okay.
- 17 Essentially this is to replace a 15 plus
- 18 year old garage and put it back into a
- 19 safe and appropriate condition for storing
- 20 the cars.
- 21 MR. BARSKY: Exactly. Still
- 22 matching the house. The asbestos shingles
- are no longer available, but the exact
- 24 same shingles without the asbestos are
- 25 available, the same color, same structure,

- Zoning Board of Appeals 5/22/2008
- 2 just a lot of money to put into it to
- 3 preserve the look and feel. But I feel
- 4 that it was worth it because it was an
- 5 attractive structure before. I have a
- 6 picture there.
- 7 CHAIRMAN MURPHY: Yes, we
- 8 have that. You intend to continue using
- 9 it to store your cars and other stuff?
- 10 MR. BARSKY: Yes, it is
- 11 large enough for one car. I probably
- 12 won't store as many things as I had in it
- 13 before, but at least a bicycle and some
- 14 garden tools.
- 15 CHAIRMAN MURPHY: All
- 16 right. Do any of the board members have
- any other questions for Mr. Barsky?
- 18 MR. LEAF: Have there been
- 19 any comments from your neighbor to the
- 20 south?
- 21 MR. BARSKY: No comments
- 22 from my neighbor to the south. I -- the
- 23 neighborhood is represented by Arthur
- Lowenstein who is a close friend and
- 25 resident on the street. And one of my

```
Zoning Board of Appeals - 5/22/2008
```

- 2 neighbors expressed his support and said
- 3 he might have been able to come tonight.
- 4 But I have not spoken with my neighbor to
- 5 the south, but we have a friendly
- 6 relationship. And no, not had any
- 7 feedback from her.
- 8 MR. LEAF: Thank you.
- 9 CHAIRMAN MURPHY: All
- 10 right. I note on the application that the
- 11 lot area coverage is increasing from 17
- 12 percent to 20 percent. 30 percent is
- 13 permitted in that district so that is not
- 14 an issue. I would say, Mr. Barsky -- you
- 15 can do this perhaps with Mr. Sharma
- 16 afterwards -- your application actually
- wasn't signed properly or it wasn't signed
- 18 at all, at least the copy I got. So if
- 19 you could attend to that detail, I would
- 20 appreciate it.
- MR. BARSKY: Of course. I
- 22 did have the applications, were notarized
- 23 here in the building department. But I
- 24 apologize if I missed something.
- 25 CHAIRMAN MURPHY: At least

```
Zoning Board of Appeals - 5/22/2008
```

- on my copy, Mr. Sharma, I have a blank
- 3 page.
- 4 MR. SHARMA: I guess we
- 5 missed that.
- 6 MR. BARSKY: I'm sure I have
- 7 a signed version.
- 8 MR. SHARMA: Yes.
- 9 MR. BARSKY: All the ones
- 10 you have are unsigned?
- 11 MR. SHARMA: Yes. This one
- is also unsigned. Obviously we all missed
- 13 it. My office is supposed to check all
- 14 these things. I will get it signed and a
- 15 notarized copy from him later.
- MR. BARSKY: Let me check.
- 17 I'm positive that I signed a copy.
- 18 CHAIRMAN MURPHY: All
- 19 right. Take your time. While you are
- 20 looking for that, are we -- is the board
- 21 prepared to vote?
- MR. FORBES-WATKINS: I move
- 23 to approve the side yard for accessory
- 24 structure previously --
- 25 CHAIRMAN MURPHY: Let me

```
Zoning Board of Appeals - 5/22/2008
```

- 2 interrupt you. Any comments from the
- 3 audience or the neighbors?
- 4 MR. LOWENSTEIN: Thanks for
- 5 taking this tonight. My name is Art
- 6 Lowenstein. I've been a resident on Elm
- 7 Place for 15 years. The garage as you
- 8 drive up the block is not even visible.
- 9 The footprint of the house essentially
- 10 blocks out the view of the garage. It is
- 11 something that is -- you know, I doubt
- 12 that there are very many people in
- 13 Hastings who going up and down the
- 14 aqueduct would not have noticed it as, you
- 15 know, being as much a part of the
- 16 environment as the trees surrounding it.
- 17 So you know, I certainly have absolutely
- 18 no objection, and I would be very happy to
- 19 see a proper structure put back in its
- 20 place.
- 21 CHAIRMAN MURPHY: Thank
- 22 you, Mr. Lowenstein. I appreciate it.
- MR. DEITZ: Mr. Lowenstein,
- 24 what is your address?
- MR. LOWENSTEIN: 11 Elm.

```
Zoning Board of Appeals - 5/22/2008
```

- 2 MR. SHARMA: Mr. Chairman,
- 3 Mr. Barsky can sign and Marianne can
- 4 notarize it.
- 5 CHAIRMAN MURPHY: Sure.
- 6 MR. BARSKY: Thank you.
- 7 CHAIRMAN MURPHY: Any other
- 8 comments from the audience on the Barsky
- 9 application? Let's try again.
- 10 MR. FORBES-WATKINS: With
- 11 respect to case 12-8, I move for approval
- 12 of reconstruction of a garage on its
- 13 previous lawful existing but nonconforming
- 14 footprint, a side yard for an accessory
- 15 structure previously an existing --
- 16 previously existing and proposed 1.7 feet
- 17 required 8 feet, and rear yard for
- 18 accessory structure previously existing
- and proposed 2.1 feet, required 8 feet.
- 20 CHAIRMAN MURPHY: Do I have
- 21 a second for that motion?
- MR. DEITZ: I'll second.
- 23 CHAIRMAN MURPHY: All in
- 24 favor. Aye.
- MR. DEITZ: Aye.

```
Zoning Board of Appeals - 5/22/2008
```

- 2 MR. DOVELL: Aye.
- 3 MR. LEAF: Aye.
- 4 CHAIRMAN MURPHY: Vote is
- 5 unanimous. Thank you, Mr. Barsky.
- 6 Appreciate it.
- 7 CHAIRMAN MURPHY: All
- 8 right. Our third and final case tonight
- 9 is the application of the Goulets for
- 10 approval of an addition at 155 Southside.
- 11 Miss Griffin will be presenting for the
- 12 applicant.
- MS. STECICH: On this
- 14 application it was before the planning
- 15 board, and they recommended view
- 16 preservation be approved.
- 17 CHAIRMAN MURPHY: Thank
- 18 you, Marianne.
- MS. GRIFFIN: Good evening.
- 20 I'm Christine Griffin, the architect
- 21 representing Annie and Gwenael Goulet. We
- 22 are planning to extend the front of the
- 23 restaurant, and this is necessary because
- 24 the restaurant is actually downscaling.
- 25 They are going to be eliminating the

- Zoning Board of Appeals 5/22/2008
- 2 room -- their lease will be terminated
- 3 for the room that they were renting
- 4 next-door. And the restaurant will now be
- 5 a small bistro.
- 6 Because the toilets were in that
- 7 other building, we need to build new
- 8 toilets in the small bistro, and we have
- 9 found that the only way to provide a
- 10 handicapped toilet which is required by
- 11 New York State code is to build this
- 12 little toilet area in the front. We
- 13 started the project by meeting with Erica
- 14 Krieger.
- 15 CHAIRMAN MURPHY: We can't
- 16 see that one. If you could put it on the
- other easel, that would be great.
- 18 MS. GRIFFIN: We will start
- 19 with this one. This is the extension we
- 20 are talking about. The restaurant
- 21 formerly had another room with two
- 22 toilets. We now need to create new toilet
- 23 space. The Westchester Health Department
- 24 requires two toilets. And while they
- 25 actually originally required separate male

- Zoning Board of Appeals 5/22/2008
- 2 and female, but they are going to accept
- 3 two unisex toilets, because by New York
- 4 State code we need a handicapped toilet
- 5 and it can't be -- we can't give
- 6 preferential treatment. So now that the
- 7 restaurant is so tiny, the only way to add
- 8 this handicapped toilet is to come in
- 9 front, so that we don't remove any more
- 10 table space and also so that we don't
- interfere with the bar. The bar is a very
- 12 beautiful piece. It's been there for many
- 13 years. It is original to the building.
- 14 We met with Erica Krieger and Deven
- 15 Sharma. It was our first meeting because
- 16 we wanted to see if there was a way to get
- a variance or do something to avoid the
- 18 handicapped toilet. New York State does
- 19 not give variances for that. So this is
- 20 the solution we have come up with.
- 21 And to make this work and to keep
- the bar, we would like to extend a bay
- 23 that is about 20 feet 9 inches long and
- 24 this will come right up to the property
- 25 line. And because this isn't a view

- Zoning Board of Appeals 5/22/2008
- 2 preservation district, we went to the
- 3 planning board and now we are here to ask
- 4 for your approval for doing this.
- 5 This is an elevation of the new
- 6 facade. Although the toilet is here to
- 7 get access into it, we had to bring --
- 8 have some space in front of it. Then we
- 9 decided to recreate the large window that
- 10 they have. This addition is 3 feet 8 from
- 11 this wall. And it actually is 1 foot 8
- 12 from the second floor. This dash line
- 13 shows an overhang. Right currently the
- 14 second floor overhangs the first floor.
- 15 And although this is an elevation showing
- 16 an awning, under that awning we were
- 17 planning to have a traditional cornice
- 18 with brackets and transit windows, a
- 19 traditional storefront facade.
- Now here are photographs, and I'd
- just like to hand out a little bit more
- 22 information. I did a little 3-D sketch to
- 23 help visualize three dimensionally how the
- 24 building fits in here. We also took four
- 25 more photographs in response to comments

- Zoning Board of Appeals 5/22/2008
- 2 from the planning board. They were asking
- 3 questions about a few views that we didn't
- 4 have, and I'd like to hand that out so you
- 5 can see it close-up. I don't know if you
- 6 can see it from here.
- 7 This is an enlargement of the tax
- 8 map, 155 Southside, Buffet De la Gare,
- 9 this building in pink here. We took
- 10 photographs looking down the street going
- 11 around and looking up. Even though the
- 12 river is west, we are taking views that
- 13 show how the addition affects the view
- 14 looking out the buildings, because we
- 15 can't take pictures looking at the river.
- 16 But starting with this photograph
- 17 looking down the sidewalk, photograph A is
- 18 looking straight down the sidewalk, and we
- 19 have shown a profile of the building.
- 20 But, of course, in that view it is not
- 21 affecting the river. And then B is
- 22 slightly at an angle, and as you keep
- 23 going down C is right in front of the
- 24 building. D is up and then looking up the
- other way. So I hope that these

- Zoning Board of Appeals 5/22/2008
- 2 photographs help you with a profile, show
- 3 you how the building fits, the addition
- 4 would be fitting on the building. This
- 5 addition will not be coming out any
- 6 further than the building to the right.
- 7 And on this drawing you can see the
- 8 building to the right.
- 9 CHAIRMAN MURPHY: We can't
- 10 see it there. Sorry.
- 11 MS. GRIFFIN: G is looking
- 12 up. Okay. If you look at photograph H,
- 13 this photograph is looking straight down
- 14 the street. And there is a profile of
- 15 where the -- approximately where the
- 16 addition will be. And then we took -- we
- were asked to take a look at the planning
- 18 board meeting the view from the building
- 19 next-door. This is looking straight down
- 20 the street. And then J is a view right at
- 21 the window next-door, and we have a piece
- of wood here in the photograph. That is
- 23 exactly where the addition will be. And
- 24 we did this to show that you can get a
- 25 little view of the top of the Palisades,

- Zoning Board of Appeals 5/22/2008
- 2 but that is still to the right of the
- 3 addition.
- 4 The next photograph we did K. This
- 5 is not easy to see but this is actually
- 6 looking out from I think it is 157
- 7 Southside, the window in the building. It
- 8 is an obscured glass. You can see out a
- 9 little bit of it. You can see that you
- 10 can see a piece of the original awning.
- 11 And we have a board up where the addition
- is. You just can't see it in this view.
- 13 And the last photograph L is
- 14 showing the street looking down from the
- buffet, because I wanted to show how this
- is not the only building that projects
- out. The building next-door we planned
- 18 not to come any further than the building
- 19 next-door, and then the Maude's tavern has
- 20 a two-story porch that comes out. On our
- 21 floor plan I have shown indicated the size
- of the sidewalk. With the addition, we
- 23 would have 8 feet 2 inches of sidewalk.
- 24 At the building next door it sort of
- angles, and it becomes 9 feet 4. And down

```
Zoning Board of Appeals - 5/22/2008
```

- 2 at Maude's tavern the sidewalk is 5 feet 4
- 3 up to the edge of the ramp. This is
- 4 actually in response to planning board
- 5 questions in case you would like to know.
- 6 CHAIRMAN MURPHY: Right.
- 7 Okay. And no variances are required, even
- 8 though they are coming out into the
- 9 sidewalk a little bit, right. So it is
- 10 purely a view preservation question. I
- 11 appreciate the photographs. They
- 12 certainly help me a lot. I honestly don't
- 13 have really any questions. It seems
- 14 pretty straightforward there. The need is
- 15 there with the state mandates and the
- 16 toilets required for the restaurant. The
- impact on the view is almost nonexistent
- 18 from a practical point of view. I think
- 19 the south or southwest is arguable whether
- 20 there is any impact at all on the view, as
- 21 far as I see it. Any questions or
- 22 comments from the board members?
- MR. DOVELL: You are
- 24 building right to the front lot line?
- MS. GRIFFIN: Yes.

```
Zoning Board of Appeals - 5/22/2008
```

- 2 MR. DOVELL: I was just
- 3 curious. That is going to make you
- 4 commensurate with the building to the
- 5 right but not with the building to the
- 6 left and the ones up the street, so those
- 7 buildings must not be built to their lot
- 8 lines.
- 9 MS. GRIFFIN: I think so.
- 10 MR. DOVELL: I think it is
- 11 quite nicely done. I think it is in
- 12 character and I think it is in scale. I
- 13 have just one minor question. You are
- 14 showing some windows sweeping out over the
- 15 lot line.
- MS. GRIFFIN: We are
- 17 abandoning that idea.
- MS. STECICH: It was a
- 19 condition at the planning board, that it
- 20 was also before the planning board for
- 21 site plan approval. And one of their
- 22 conditions was that the windows had to
- 23 open in. If they were going to be
- opening, they had to be opening in.
- MS. GRIFFIN: Yes, that's

```
Zoning Board of Appeals - 5/22/2008
```

- 2 fine.
- 3 CHAIRMAN MURPHY: But that
- 4 is not something for us to make, right?
- 5 MS. STECICH: No.
- 6 CHAIRMAN MURPHY: All
- 7 right. David, Marc, anything else?
- 8 MR. FORBES-WATKINS: No.
- 9 CHAIRMAN MURPHY: Anyone
- 10 from the audience wish to comment in favor
- or against the application? Seeing none,
- 12 unless there are other comments or
- 13 questions from the board, I'm happy to
- 14 take a motion for this application for
- 15 approval of the view preservation.
- MR. FORBES-WATKINS: I'll
- move with respect to case No. 13-08, 155
- 18 Southside Avenue, I move approval for
- 19 construction in a view preservation
- 20 district.
- MR. LEAF: Second.
- 22 CHAIRMAN MURPHY: All in
- 23 favor? Aye.
- MR. DEITZ: Aye.
- MR. DOVELL: Aye.

```
Zoning Board of Appeals - 5/22/2008
```

- 2 MR. LEAF: Aye.
- 3 CHAIRMAN MURPHY: The vote
- 4 is unanimous. Congratulations. Good luck
- 5 with it. Thank you.
- 6 CHAIRMAN MURPHY: That ends
- 7 our consideration of cases tonight.
- 8 Counsel has prepared for us for, I guess,
- 9 a recommendation to be made to the board
- of trustees on some amendments to the
- 11 local zoning code and, Marianne, why don't
- 12 I have you introduce that to the board
- 13 members and then we can discuss it.
- 14 MS. STECICH: Just the
- overall is there were actually four sets
- of amendments presented to the board of
- 17 trustees all to implement the state
- 18 building code. The state building code is
- 19 the building code for the village, but it
- 20 does not have enforcement mechanisms. And
- 21 the department recently told all the guys
- in the state you better come up with
- 23 mechanisms and did a model code. We have
- some of them in the code, but not others.
- 25 So I need to go through different sections

- Zoning Board of Appeals 5/22/2008
- 2 in the code and integrate the provisions
- 3 that need to be in there. Some of them
- 4 are in the building construction section
- 5 which are irrevelant to you. Some are in
- 6 the fire safety section which are not
- 7 relevant to you.
- 8 But any amendment to the zoning
- 9 code has to go past the planning board and
- 10 the zoning board. So these changes were
- 11 the changes in the zoning code so they
- 12 have to be reviewed by you. There is
- 13 really ten points I need to highlight
- 14 without going through every page because a
- 15 lot of them are a repetition of the same
- 16 thing.
- 17 And the first change, it is shown
- in section 1 (B)(1) on the first page. It
- is reflected many times throughout this
- 20 amendment. But it is to provide for
- 21 certificates of completion, because right
- 22 now if there is a building permit, you
- 23 close it out with a certificate of
- occupancy.
- 25 Sometimes a certificate of

- Zoning Board of Appeals 5/22/2008
- 2 occupancy doesn't make sense. If somebody
- 3 puts up a stone wall, they are not going
- 4 to be occupying the stone wall. So a
- 5 certificate of completion makes more
- 6 sense. So we never had it in the code.
- 7 They used CO and it was a discussion with
- 8 Deven why don't we add a certificate of
- 9 completion, so that's why.
- 10 CHAIRMAN MURPHY: I'm
- 11 curious. Does that mean if you do --
- 12 let's say you build a new addition with a
- 13 bathroom and bedroom. Do you need a
- 14 certificate of completion and a
- 15 certificate of occupancy?
- MS. STECICH: No. Then you
- 17 would need a certificate of occupancy. A
- 18 certificate of completion is for something
- 19 you don't occupy.
- 20 CHAIRMAN MURPHY: Right.
- MS. STECICH: All right.
- 22 Then go to page 2 to 2-C, that's the
- 23 paragraph in italics. What is in italics
- 24 is new. It says the obvious, that you
- 25 can't get a building permit, a certificate

- Zoning Board of Appeals 5/22/2008
- 2 of completion or certificate of occupancy
- 3 unless it is in substantial conformance
- 4 with the State Uniform Fire Prevention
- 5 Building Code and the State Energy
- 6 Conservation Construction Code. That is
- 7 actually new; the State Energy
- 8 Conservation is new.
- 9 MR. LEAF: Is that currently
- 10 a binding --
- MS. STECICH: Yes.
- MR. LEAF: Is that statute
- binding as opposed to a recommendation?
- MS. STECICH: Those are
- 15 binding; you have to. So this is not what
- 16 makes it binding. It is just saying you
- are not going to get it until you comply.
- 18 At the bottom of the page another change
- 19 made several times. Instead of five
- 20 copies of everything, only three copies,
- 21 so we are being green in that respect.
- MR. FORBES-WATKINS: Save a
- 23 tree.
- 24 MS. STECICH: Exactly. The
- top of page 3, that new section 5 also

- Zoning Board of Appeals 5/22/2008
- 2 states the obvious, that all applications
- 3 for building permits shall be accompanied
- 4 by three sets of construction plans that
- 5 define the scope of the proposed work. It
- 6 is actually required, but believe it or
- 7 not it is not listed as one of the things
- 8 that has to be submitted with the building
- 9 permit. It didn't make any sense.
- 10 CHAIRMAN MURPHY: We always
- 11 required that.
- 12 MS. STECICH: It would make
- 13 sense that you would submit it. And then
- 14 I suppose it went to the building
- department and they weren't there. So
- 16 they said, "Oh, wait a minute. You need
- 17 construction plans." But just none of
- 18 this is monumental, believe me. The most
- 19 monumental is the certificate of
- 20 completion and reducing to three copies.
- 21 All right. Page 4, section 11,
- 22 Paragraph 3, that is a new provision, that
- 23 the building department has to be notified
- 24 if they make any changes during
- 25 construction. If they are out there and

- Zoning Board of Appeals 5/22/2008
- 2 there are some changes, they have to
- 3 notify the building department. Then the
- 4 next paragraph requires the applicant to
- 5 maintain a set of documents at the work
- 6 site so it is available.
- 7 CHAIRMAN MURPHY: I have a
- 8 question about the language of the
- 9 changes. Is it changes to the
- 10 construction plans or is it meant to be
- 11 more than that, basically any change to
- 12 anything? I was just curious.
- MS. STECICH: What else
- 14 would there be a change to? It has to be
- in compliance with the building plans, and
- 16 I guess if you make any changes, can you
- think of another change that wouldn't be a
- 18 change in the building code?
- 19 CHAIRMAN MURPHY: No,
- 20 that's how I would read it.
- MS. STECICH: Yes. A
- 22 change in the work you are doing.
- 23 CHAIRMAN MURPHY: Okay.
- 24 MS. STECICH: Paragraph --
- I mean page 5, actually on Section 15 in

- Zoning Board of Appeals 5/22/2008
- 2 the middle there, one of the planning
- 3 board members made a suggestion that I
- 4 think is a good idea, and I'm going to
- 5 recommend it to the planning board right
- 6 now. It says that if the building
- 7 inspector determines that a building
- 8 permit was issued in error because of
- 9 incorrect, inaccurate or incomplete
- 10 information, or that the work for which a
- 11 building permit was issued violates the
- 12 code, the building inspector shall revoke
- 13 the permit. This is pretty limiting to
- 14 say it is issued in error because of
- incorrect, inaccurate or incomplete
- 16 information. So the language -- the idea
- they suggested and the language I thought
- 18 would be is if a building permit was
- 19 issued in error or that it was issued on
- 20 the basis of incorrect, inaccurate or
- 21 incomplete information. That's two
- 22 different things, because the building
- 23 inspector could -- not Deven but another
- 24 building inspector might read the code
- 25 wrong and then somebody points this out.

```
Zoning Board of Appeals - 5/22/2008
```

- 2 So this just broadens it.
- 3 The bottom of the page, Section
- 4 17, makes provision for construction
- 5 inspections and a lot of detail. I mean,
- 6 again, most of the stuff probably isn't
- 7 new, but it becomes clear to the applicant
- 8 at which point all of the inspections will
- 9 be done and notifications have to be
- 10 given.
- 11 And then jump to page 7 on this
- 12 provision for stop work orders, again, we
- 13 have stop work orders but it has never
- 14 really detailed how they are granted, in
- what situations they are granted, and this
- spells that out for the protection of the
- 17 village and the builders.
- 18 CHAIRMAN MURPHY: I'm just
- 19 curious, Marianne, what do we have now
- 20 about stop work orders? Just does it say
- 21 anything?
- MS. STECICH: There are
- 23 some general provisions, but it is just
- 24 not that clear. So if the -- pretty much
- 25 if they are doing work that is not in

```
Zoning Board of Appeals - 5/22/2008
```

- 2 compliance with the approved plans, the
- 3 building inspectors can go out.
- 4 MR. SHARMA: There would be
- 5 a number of reasons why we would feel the
- 6 work should be stopped until we clarify
- 7 some things or something is not happening,
- 8 until we figure out how to do it, and
- 9 proceeding with the work might be harmful
- in some form or another. So we can issue
- 11 what we believe is an informal written
- 12 stop order.
- 13 CHAIRMAN MURPHY: This just
- 14 formalizes it and puts the guidance in the
- 15 code.
- MS. STECICH: Yes. It is
- 17 there, but it's just -- it is there and
- 18 certainly it is an inherent power, but
- 19 this just clarifies it. It specifies that
- 20 it has to be in writing. It specifies who
- 21 the stop work order goes to besides just
- going out to the site and let the building
- owner know because often the property
- 24 owner might not be at the site.
- 25 CHAIRMAN MURPHY: Right.

```
Zoning Board of Appeals - 5/22/2008
```

- 2 MS. STECICH: Then starting
- 3 on page 8, what I referred to before is
- 4 the provision for a certificate of
- 5 completion. And before the meeting Marc
- 6 pointed out -- and although he is the
- 7 second person to point out because one of
- 8 the planning board members also picked up
- 9 on it -- several points in Paragraph 2, 3
- 10 and 4 -- no, 2, 3 and 4, it refers to a
- 11 certificate of compliance. We have to
- 12 change that to certificate of completion,
- so that is really just a typo which I will
- 14 correct. Then these other changes we just
- 15 provided for the certificate of
- 16 completion.
- 17 Then go to page 10, at the bottom,
- there is a little bit more specification
- 19 about temporary certificates of occupancy.
- 20 They are provided under the existing code,
- 21 but the new language, what is in italics,
- 22 says that a temporary certificate of
- occupancy can't be issued unless the
- 24 building inspector determines first that
- 25 the building or structure can be occupied

- Zoning Board of Appeals 5/22/2008
- 2 safely, that any fire protection equipment
- 3 that has been installed is operational and
- 4 that all required means of egress from the
- 5 building and structure have been provided.
- 6 At the moment the building
- 7 inspector wouldn't give a temporary CO in
- 8 the absence of those requirements, but
- 9 this clarifies it. And in Paragraph 7 if
- 10 it is issued in error, it can be revoked.
- 11 And that's it.
- 12 And so your job would be to
- 13 recommend or not recommend them to the
- 14 board of trustees. It was actually up on
- 15 the agenda for last Tuesday's board of
- 16 trustees meeting, and they deferred the
- vote on it until they got the
- 18 recommendation of the ZPA.
- MR. LEAF: The change made
- 20 to section 15 on page 5, where it
- 21 previously would say if issued in error
- 22 because of incorrect, inaccurate or
- 23 incomplete information, and then this
- 24 becomes issued in error or on the basis of
- incorrect, incomplete or inaccurate

- Zoning Board of Appeals 5/22/2008
- 2 information. I guess I'm concerned that a
- 3 building inspector, not Deven, could make
- 4 an error that was not as a result of
- 5 incorrect or inaccurate or incomplete
- 6 information and that therefore no one
- 7 could ever rely on a building permit as
- 8 being dispositive, because anyone could go
- 9 and challenge it after the fact and say,
- 10 Well, go back and determine that it is in
- 11 accordance with these codes.
- 12 Is there a limit, a time limit,
- 13 after which you can no longer object to a
- 14 building permit? For instance, after the
- 15 CO was actually issued. At that point --
- MS. STECICH: Oh, yes,
- 17 sure. After the CO is issued, the
- 18 building permit just doesn't exist, once
- 19 you have a CO.
- 20 MR. LEAF: You can't revoke
- 21 or suspend the building permit after the
- 22 CO has been issued?
- MS. STECICH: No.
- MR. SHARMA: The building
- 25 permit ceases to exist after the CO.

```
Zoning Board of Appeals - 5/22/2008
```

- 2 MS. STECICH: You wouldn't
- 3 be able to. Right.
- 4 MR. LEAF: It is clear the
- 5 CO can't be revoked because someone
- 6 determines that the building permit was
- 7 issued in error?
- 8 MS. STECICH: You'd have
- 9 some real issues. This is -- yes, because
- 10 it is already in there, right. I mean,
- 11 this is -- if it is discovered, if there
- 12 is an error during the course of the
- 13 building, I mean, that could happen. I
- 14 mean, it could be harmful. You know, it
- 15 could be prejudicial. But if it is a
- 16 mistake, it's a mistake. But once the
- 17 certificate of occupancy is issued, there
- is no more building permit.
- 19 MR. SHARMA: Exactly. The
- 20 building permit is closed.
- 21 MS. STECICH: It closes it
- 22 out, the CO. That's why I was talking
- 23 about the certificate of completion. The
- 24 certificate of completion and the
- 25 certificate of occupancy closes out the

```
Zoning Board of Appeals - 5/22/2008
```

- building permit. It doesn't exist any
- 3 more.
- 4 MR. SHARMA: There could be
- 5 a similar provision, though. I wonder if
- 6 I read someplace that CO can also be
- 7 revoked on a similar basis, if they got
- 8 issued in error.
- 9 MS. STECICH: No.
- 10 MR. LEAF: Whether it is
- 11 being revoked because the applicant failed
- 12 to disclose things or the applicant did
- 13 nothing wrong at all but the building
- inspector found something.
- MR. SHARMA: Yes, that's
- 16 possible. I know we don't have the
- 17 provision, but this provision could very
- well be there too, the revocation of COs,
- 19 for any number of reasons.
- MS. STECICH: It doesn't.
- 21 So let's --
- MR. DOVELL: Who determines
- 23 whether it is a certificate of completion
- or a certificate of occupancy? How is
- 25 that determination made, based on the

```
Zoning Board of Appeals - 5/22/2008
```

- 2 nature of the work? That's all you --
- 3 MR. SHARMA: We do all the
- 4 inspections and the final inspection. And
- 5 as long as we satisfy ourselves that the
- 6 work has been completed as permitted and
- 7 as we say it and it complies with the code
- 8 and we are satisfied, that is when we
- 9 recommend the issuance of the CO by the
- 10 management.
- 11 MS. STECICH: I think the
- 12 question was who decides whether it is a
- 13 certificate of occupancy or certificate of
- 14 completion.
- MR. SHARMA: Oh, I guess my
- office does. For example, if somebody
- takes out a permit to do a roof repair, so
- that's more like a completion rather than
- 19 a certificate of occupancy, or a retaining
- 20 wall or things like that.
- 21 MR. DOVELL: But moving a
- 22 partition in your house, for example, that
- 23 doesn't affect -- it is not creating a new
- 24 room. It is making one room smaller or
- 25 larger. Is that a certificate of

```
Zoning Board of Appeals - 5/22/2008
```

- 2 occupancy?
- 3 MR. SHARMA: Theoretically
- 4 we haven't imposed it. We haven't
- 5 enforced it. During certain kinds of
- 6 construction, there should really be no
- 7 occupancy of the space while that is
- 8 happening, which that is pretty much
- 9 completion is the same thing. You can
- 10 occupy and use that space.
- 11 So we do use certificate of
- 12 occupancy where there is after the work
- 13 has been completed. People can move in
- 14 and begin to indulge in their daily
- 15 activities. But permits for wall
- 16 construction, retaining wall, that needs
- 17 permits, demolition permit, for that.
- 18 After a demolition there is no certificate
- 19 of occupancy. It is certificate of
- 20 completion. So yes.
- 21 MR. DOVELL: I can see a lot
- of gray areas in the enforcement of this.
- 23 MR. SHARMA: But the final
- 24 result is the same. It is closing out.
- MR. DOVELL: The result is

```
Zoning Board of Appeals - 5/22/2008
```

- 2 the same.
- 3 MR. SHARMA: It is closing
- 4 out the permit. The permit is issued.
- 5 And the certificate of occupancy or
- 6 completion, the permit is closed.
- 7 CHAIRMAN MURPHY: Anything
- 8 else from any of the board members, in
- 9 terms of recommending these proposed
- 10 changes so artfully drafted by counsel?
- 11 All right. I'll take a motion if the
- 12 board is ready to make a motion on these
- amended changes to the zoning code.
- MR. FORBES-WATKINS: I'll
- move we recommend these amended changes to
- 16 the building code.
- 17 CHAIRMAN MURPHY: Second?
- MR. LEAF: Second.
- 19 CHAIRMAN MURPHY: All in
- 20 favor. Aye.
- MR. DOVELL: Aye.
- MR. DEITZ: Aye.
- 23 CHAIRMAN MURPHY: We have
- voted unaminously recommending the
- 25 building changes to the zoning code to the

- Zoning Board of Appeals 5/22/2008
- 2 board of trustees.
- 3 And finally we have what were
- 4 fairly short minutes from last month's
- 5 meeting from the April 24, 2008 meeting.
- 6 And the board members have had a chance to
- 7 read through those. If I could have a
- 8 motion to approve the minutes from the
- 9 April 24, 2008 meeting.
- 10 MR. LEAF: I wasn't at the
- 11 meeting but --
- 12 CHAIRMAN MURPHY: That's
- 13 right. Well, we have -- we only have two
- of us here.
- MS. STECICH: Only two of
- 16 you were here? Then you have to wait
- 17 until the next meeting.
- MR. FORBES-WATKINS: I will
- 19 adopt approval of the minutes.
- 20 MS. STECICH: It is not
- 21 enough. We don't have enough people to
- 22 vote on it.
- 23 CHAIRMAN MURPHY: We need
- 24 at least three.
- MR. LEAF: It says here on

- Zoning Board of Appeals 5/22/2008
- 2 the caption that I was present, but I was
- 3 not present.
- 4 MS. STECICH: All right.
- 5 That's a correction.
- 6 MR. LEAF: That's a
- 7 correction to be made.
- 8 MS. STECICH: So remember
- 9 the next time you vote you can make that
- 10 change.
- 11 CHAIRMAN MURPHY: Wait a
- 12 minute. Let's see. Marc wasn't here.
- 13 Stan is not here. David, you were here.
- 14 So we have myself, David and Ray.
- MR. FORBES-WATKINS: Yes.
- 16 CHAIRMAN MURPHY: Can three
- 17 of us --
- MS. STECICH: Oh, three can
- 19 vote. If there are three of you, sure.
- MR. FORBES-WATKINS: I vote
- 21 we approve the minutes as written.
- 22 CHAIRMAN MURPHY: Ray,
- would you like to second that?
- MR. DOVELL: I'll second.
- 25 CHAIRMAN MURPHY: All in

```
Zoning Board of Appeals - 5/22/2008
```

- 2 favor?
- 3 MR. DOVELL: Aye.
- 4 CHAIRMAN MURPHY: Aye.
- 5 MR. FORBES-WATKINS: Aye.
- 6 CHAIRMAN MURPHY: The vote
- 7 is unanimous. The minutes are approved.
- 8 Meeting is adjourned.
- 9 MR. DOVELL: Do we have the
- 10 next meeting?
- 11 MR. FORBES-WATKINS: Did we
- 12 determine the September date?
- MS. STECICH: June 26.
- 14 CHAIRMAN MURPHY: The next
- 15 meeting of the zoning board of appeals
- 16 would be Thursday, June 26 at 8 p.m.
- 17 MR. FORBES-WATKINS: Did we
- 18 determine a September date for the end of
- 19 summer early fall date? That was hanging
- 20 from the minutes of the last meeting.
- 21 CHAIRMAN MURPHY: Deven,
- 22 who decides that?
- 23 MR. SHARMA: I think the
- 24 board decides that.
- MS. STECICH: The board can

```
2.
      decide that.
 3
                    CHAIRMAN MURPHY: Well, we
 4
      have a meeting in June and July, right,
 5
      and usually we skip August and we do it
 6
      early September.
 7
                    MS. STECICH:
                                   So it should
 8
      be the second Thursday, the fourth or the
 9
      eleventh.
10
                    CHAIRMAN MURPHY:
                                       I would
11
      suggest we do it on the 11th, Thursday,
12
      September 11. Is that okay if the members
13
      have their calendars? I guess, David,
14
      this won't affect you.
15
                    All right. So the meeting
16
      we will not have a meeting in August.
      After the summer our first meeting will be
17
18
      Thursday, September 11, 2008. That's it.
19
                    MR. SHARMA: Thank you.
20
      (Hearing adjourned at 9:30 p.m.)
21
22
```
