

**Hooksett Open Space / CTAP Committee
Meeting Minutes
April 13, 2010
Town Council Chambers**

Call Meeting to Order: 6:00pm

Attendance: Jim Walter member, Kathy Hughes member, Richard Bairam member, Frank Kotowski member, Mike Horne member, John Turbyne member, Martin Cantana member, Jo Ann Duffy member, Jim Levesque member Excused, David Hess member Excused,

Review of maps from the Delphi process:

Mary Brundage and Linda Madorma SNHPC members brought the maps of the 3 categories that the committee agreed were the most important to preserve.

Three maps reviewed were Open Space unfragmented lands, Water Quality, and View Quality as you can see the maps pretty much look the same. The highest priority areas are those around your water supply.

Review of the gravity model and 10:10 model maps

The committee reviewed these maps. The 10:10 map is that of areas within a 10 minute walking distance to the 10 or more acres of conservation land.

Drawing of the Green Infrastructure

The committee drew on a Mylar map of what they think our green infrastructure would be in accordance to the first night of surveys and the maps that were reviewed earlier in the evening.

Extra points were given to the areas of Quimby Mountain and the Pinnacle these will be shown on the Green Infrastructure maps that has the overlay of the actual parcels that will be reviewed at the next meeting.

Scheduling of Next meetings:

The meeting schedule was handed out and the next meeting will be held on April 27, 2010 at 6:00pm in Council Chambers.
