

Town of Hooksett
Recycling and Transfer Advisory Committee
Minutes of Meeting
April 22, 2008

Members Present: Randy Holt, Richard Bairam, George Longfellow; Council Rep., Bob Schroeder, John Danforth, Roger Duhaime.

Absent: Merrill Johnson

The meeting began at 6:45. The Committee reviewed the minutes of the meeting on March 25th. Roger motioned to accept the minutes as presented, second by Turk. All in favor.

The Committee went over the monthly totals. The facility is getting busier with the nicer weather.

The Town of Pembroke is interested in working together in any bids for equipment if the single stream facility moves forward. They need to have something in place for a budget package by June. They are thinking of doing a split packer truck, one side is for trash the other side is for single stream recycling.

Diane needs to know if the single stream concept for recycling is going forward locally before she can do any presentation . She went to Auburn Mass where a single stream facility is owned by Casella Waste. Casella owns several single stream facilities in New England, each one built is more efficient than the other. They are building a huge facility in Charlestown. It will be for a single stream recycling program for the City of Boston. Both Corcoran Environmental working with Manchester and the Concord Coop are in the process of proposing a single stream facility.

There will be an Earth Day Open House on April 26th

John Danforth stated that he can not serve on the Committee after this term. Roger Duhaime will continue to serve.

The meeting adjourned at 8:15.
