

Recycling and Transfer Advisory Committee

Minutes of Meeting

October 25, 2016

UNOFFICIAL

Members Present: Jim Gorton, Jim Levesque, Richard Bairam , Sean McDonald

Absent: Bob Schroeder, Ray Bonney, AdHoc Member John Giotas

The meeting was called to order at 6:30. Jim G motioned to accept the minutes from the meeting held on September 27<sup>th</sup> as presented, second by Jim L, all in favor.

The Committee overviewed the spreadsheets with the material that the facility accepts and is collected at the curb. Diane had passed out a spreadsheet with a comparison of years since we started the single stream recycling at the curb. The material both collected and dropped off has maintained steady for the past 5 years.

There was a discussion about employees. The Recycling and Transfer Division is still short 2 employees and now we are short 2 part timers as well. Highway is short one employee and Parks and Recreation is short 2 employees. The Community Development has recently hired another person so that department is at full staff and training.

Sean asked about the tires that are piled on Londonderry Turnpike on the side of the road. Diane has not received any calls on that, it is a state road. He also asked about the construction on Petersbrook.

Turk asked about the collection vehicles and how they were doing with maintenance. They have been individually down recently for general maintenance. The small back up truck has been out on the road.

Jim G. motioned to adjourn at 7:20, second by Sean McDonald. All in favor.
