

Recycling and Transfer Advisory Committee
Minutes of Meeting
February 23, 2016

Members Present: Jim Gorton, Ray Bonney, Sean McDonald, Bob Schroeder, Richard Bairam
Absent : Jim Levesque
Also: Jim Donison, Asst. DPW Director/Engineer

The meeting began at 6:40. The Committee went over minutes from last meeting. Bob motioned to accept the minutes as presented, second by Ray. All in favor.

The Committee went over the spread sheet for January. The recycling rates for disposal have gone up to \$47.50. It is still considerably less than the \$67 we pay for trash. Recycling numbers have dropped but generally during this time (after the holidays, before February vacation) we are slow. Then everything picks up.

Jim Donison was here to meet the Committee and to discuss the master plan. The Committee talked about the need for additional vehicle storage and the need of a new scale house/office. There was a discussion on how we know we can expand services with the addition of vehicles and employees. The facility handled 180 tons per day when we were helping out the City of Manchester.

Jim motioned to adjourn at 7:30, all in favor.
