FINANCIAL REPORT - There was no financial report.

## SUPERINTENDENT'S REPORT

due to the emergencies at the plant, he has not had time to review them thoroughly. TRUCK BIDS - Supt. Kudrick told the Commissioners that bids for the truck have come in, but

## SCHEDULED APPOINTMENTS

are not biologically contaminated. to meet with people there and to answer concerns and questions. The disks have been tested and the Commission that Chris Pope from DES has gone down to the affected areas of Massachusetts at Hampton, but would like to know what else is being done regarding this problem. He informed prevent it from happening again. Mr. Heirtzler stated that DES knows about Thursday clean up this meeting to discuss what has happened to the plant, and what will be done in the future to PLANT SHUT DOWN - Paul Heirtzler, Ken Kessler, Franz Vale, DES - Mr. Heirtzler asked for

another problem with the system, and media was lost within it, but none made it to the river. up. A similar problem happened in November (11/22/10), and Supt. Kudrick was told it was currently online but will need more work. It is also not known why the screens became plugged their systems in Europe, so they are not sure what is happening now. major problems. Krueger has stated that there haven't been any such problems before in any of because there was not enough waste going through the system at that time. On 3/3/11, there was top and sides that will prevent anything else from entering the river. The alarm system is answers at this point in time. Supt. Kudrick stated that a screen system has been installed with a Krueger told them to take the system off automatic. Supt. Kudrick did that, but then had the Chairman Baines stated that it is still not known why the system failed. Kruger has not given any

not depending on just one alarm. tanks. There will also be other alarms in the flocculation tanks and others so that the system in Chairman Baines asked about the alarm system, and what is being planned for the future. Supt Kudrick told him that an alarm will be installed to go off if anything rises 6 inches or more in the

Hooksett Sewer Commission Minutes (3/15/11)

problems the plant is experiencing. Kudrick will not do anything to change the system until Krueger comes up with a solution to the instructions, the ammonia levels are still a problem. The Ph levels are violating, but Supt. Kudrick said BODs were alright, but because the nitrogen tanks are not back on due to Kruger's Chairman Baines asked Supt. Kudrick if the system in now back running correctly. Supt

called in to clean any affected areas with the precautions that are now in place. With each successive snow melt, a vac truck will be rain or snowmelt. Supt. Kudrick told the members from DES it would not get into the river again The Commissioner for DES has asked if the media on the ground will wash out with any heavy

immediately, and started to set up clean-up efforts very quickly. Chairman Baines stated that Supt. Kudrick has done a stellar job in this situation. He took action

before anyone else should use it. is the first, this system may be used by other plants, and the process should be thoroughly vetted solution prevents this from happening again. This is all new technology, and although Hooksett Kudrick did ask that DES double check any solution Krueger comes up with to ensure that their the whole thing cleaned first and figured that how it would be paid for was secondary. Supt. themselves available, and the insurance company is being vague. The Commission wanted to get aware that the Commission is unsure who is going to pay for the cleanup. Kruger is not making what was needed to do. Now, can DES do anything? Chairman Baines wanted to make DES Mr. Heirtzler told the Board that DES feels that Supt. Kudrick and the Commission have done

would end up. that we should concentrate on the beaches only, because that is where the majority of media clean it up. DES did not think that booms would really work in this situation. The consensus was DES about river clean up, and if it would be worth using an expensive service such as booms to Mr. Heirtzler told them EPA is talking about fines, but nothing is definite. Supt. Kudrick asked

chosen? Chairman Baines explained that they were the only ones with a viable option for what was needed for the plant. The members of DES stated again that it would be more comfortable if Graves did turn over their hydraulic plans to StanTec for review. DES is impressed with Krueger in regards to the lack of communication. Why was the company Hydraulic Engineer review the plans to look for any problems and/or solutions. Neither he, nor be reviewed. Mr. Vail will be looking at Don Graves' calculations. He suggested that a StanTec likely part of the current difficulties, the problems the plant is having with the hydraulics need to Ken Kessler asked what Graves Engineering is doing in regards to the problem. Although not
