At least two of the Supervisors were present at the polls at all times.

The SoC were able to connect to the State of NH ElectioNet via school WIFI.

The special Voter Registration form, dated July 2014 with the second page for affidavits, was used.

Two volunteers, pre-coordinated to help, were sworn in and assisted the SoC for most of the day, helping voters complete registration forms to register and make changes (names, party, etc.). They worked a total of 17 hours. There was an occasional backup which quickly dispersed. Waits to complete forms were minimal. An extra table was set up with six stations to complete paperwork. No people attempting to vote were turned away at the SoC table, except for two Canadian citizens with Canadian passports who thought they could vote.
