- 16. SUB-COMMITTEE REPORTS
- 17. PUBLIC INPUT
- 18. NON-PUBLIC SESSION
- 19. ADJOURNMENT

Public Input

- 1. Two 15-minute Public Input sessions will be allowed during each Council Meeting. Time will be divided equally among those wishing to speak, however,no person will be allowed to speak for more than 5 minutes.
- No person may address the council more than twice on any issue in any meeting. Comments must be addressed to the Chair and must not be personal or derogatory about any other person.
- 3. Any questions must be directly related to the topic being discussed and must be addressed to the Chair only, who after consultation with Council and Town Administrator, will determine if the question can be answered at that time. Questions cannot be directed to an individual Councilor and must not be personal in nature. Issues raised during Public Input, which cannot be resolved or answered at that time, or which require additional discussion or research, will be noted by the Town Administrator who will be responsible for researching and responding to the comment directly during normal work hours or by bringing to the Council for discussion at a subsequent meeting. The Chair reserves the right to end questioning if the questions depart from clarification to deliberation.
- 4. Council members may request a comment be added to New Business at a subsequent meeting.
- 5. No one may speak during Public Input except the person acknowledged by the Chair.

 Direct questions or comments from the audience are not permitted during Public Input.

| 46 | 6:30pm. |
| 47 | |

Chairman Sullivan called the public meeting to order at 6:30 p.m. In attendance: Chairman Sullivan, Councilors Robert Duhaime, Marc Miville, David Ross, James Levesque, Nancy Comai, Donald Winterton, and Tim Tsantoulis. Absent: Councilor Adam Jennings.

5. PLEDGE OF ALLEGIANCE

6. SPECIAL RECOGNITIONS

7. APPROVAL OF MINUTES

Councilor Miville moved, second by Councilor Tsantoulis, to remove from the table the Town Council meeting minutes of April 13, 2016. Motion passed unanimously, 8-0.

7.a. Public: 04/13/2016 TC Minutes 041316-U.pdf

Chairman Sullivan moved, second by Councilor Miville, to approve the April 13, 2016 Town Council meeting minutes, as amended. Motion passed unanimously, 8-0.

7.b. Public: 04/27/2016 TC Minutes 04272016-U.pdf

Councilor Duhaime moved, second by Councilor Miville, to approve the April 27, 2016 Town Council meeting minutes, as presented. Motion passed unanimously, 7-0-1 (Councilor Winterton abstained).

7.c. Non-Public: 04/27/2016

Councilor Ross moved, second by Councilor Levesque, to approve the April 27, 2016 Town Council non-public meeting minutes, as presented. Motion passed unanimously, 7-0-1 (Councilor Winterton abstained).

8. AGENDA OVERVIEW

Chairman Sullivan went over the agenda and re-ordered agenda item 14.a Appearance by Moderator, Don Riley; 17.a. Discussion of Firebird Motel; and 17.d. Boston Post Cane Award. There were no objections.

9. PUBLIC HEARINGS

9.a. Public Hearing for the donations to cover the cost of irrigation/landscape/hardscape material with labor, signage, and ceremonial bell valued at \$20,483.36 for the Hooksett Safety Center Memorial Park to the Town of Hooksett per RSA 31:95-b III(a) & RSA 31:95-e II.

118

Councilor Ross asked who made the donation. It doesn't say it came from Happy Helpers. Happy Helpers gave a check to the union and the union provided a gift to the town. Dr. Shankle said he'll be more careful in wording public notices. He said "it was not clear to us where it [the donation] came from". Chairman Sullivan said that the town is required to accept all donations to the town and is traditionally handled under "consent". In this case, the donation is above the threshold amount of \$15,000. The Chairman said "that is why we had a public hearing on the cardiac monitor". Councilor Ross felt it was improperly posted and didn't have enough information for the public to come participate and it needs to be amended. He also said there was missing paperwork and he wanted to see invoices. Dr. Shankle said there is no backup information because it was inaccurate and he pulled it before the notice was properly posted. All agreed to continue with the public hearing. Councilor Levesque said that if the donation was given to the union, wouldn't that have had to be approved by the Town Council. Dr. Shankle said, no, the union is a separate group. He said originally it looked like this was suppose to be a town project and somehow the union interjected. Councilor Winterton was not comfortable with the discussion while the town was in current negotiations with the union and he felt the discussion should end. Councilor Miville said the Happy Helpers almost every year donates to the Fire Department with a lot of fanfare. The former chief accepted a defibrillator. Dr. Shankle said when he got to Hooksett he asked if this had been approved by the Town Council and was told "yes". He was misled. Councilor Tsantoulis said he agreed with Councilor Winterton and since there are so many questions he suggested placing the matter on a back burner.

119 120 121

122 123 Councilor Tsantoulis moved, second by Councilor Ross, to table the matter. Motion passed unanimously, 8-0. Chairman Sullivan closed the public hearing at 6:58 p.m.

Town Moderator Don Riley and Todd Grenier, Town Clerk, came forward. Mr. Riley thanked the Chairman for moving this item up on the agenda. He reported that there were 9834 registered voters for vesterday's election; one registered vesterday. 359 voters cast votes; 8 were by absentee ballot. The volunteer team worked well. The checklist tally needs to agree with the tape and "we missed by one". There were many write-ins – a tedious process to sort Councilor Ross received the most write-ins for the Councilor-at-Large position. District 6 there were no candidates; four write-ins, each getting one vote. Mr. Riley said all was completed by 9:00 p.m. Mr. Riley said he appreciates the voters and volunteers being respectful of the process over the last five years. He said he appreciates the Town Council's support. Council members have always been at the polls throughout the day and been there at the end of the day to provide the three required signatures on the sealed tape. He said he was glad Councilor Ross got written in because he is instrumental in the whole process. Within 30 minutes the signs were down and put away, thanks to Councilor Ross. He thanked the Department of Public Works for their support in setting up the booths. He said the booth vendor is no longer in business. Mr. Riley thanked the Police Department as well saying that three officers were in and out throughout the day. Thanks, too, went out to the School District. It was a school day and there was very little cross over between the two sides of the building. He thanked Dr. Shankle who every election day comes by, showing interest in what

the team is doing and he expressed deep appreciation to the team whose execution gets 140 better and better. Mr. Riley said he was not sad to leave his position. Chairman Sullivan 141 thanked him for his good work. The Council expressed their thanks with applause. 142

Chairman Sullivan said that District 6 will have a vacancy and with the charter change approval, both the town and the school will have the same election day. Todd Grenier gave a shout-out to Sally Humphries for her time and dedicated contributions to the team. Of the four write-ins in District 6, two are not qualified, one is an employee, and the fourth is closing on their house and will be moving out of town, which leaves Councilor Comai. If she is not willing to accept, she must formally decline in writing to the Town Council who will then appoint someone to the Councilor position within 30 days. Mr. Grenier said the Budget Committee vote produced a tie. He will reach out to both and schedule a time to flip a coin to

break the tie. Councilor Miville thought the committee had jurisdiction. Mr. Grenier said he has to establish a winner and will keep everyone informed.

187 188 Police Captain Daigle came forward to provide an update on the situation at the Firebird as described by residents at the last Council meeting and in a letter to the Council dated April 22nd and signed by a number of residents. Captain Daigle said there has been an uptick in activity at the Firebird Motel. He has spoken with code enforcement and other members of the town and they are in compliance with rules and regulations and are current on their room and meals tax. The Police Department (PD) has put a lot of enforcement in the area. PD has been monitoring and trying to keep on top of what's transpiring there. The last homicide in town occurred at the Firebird. During the first four months of 2016, the number of arrests made eclipsed the number of arrests for the entire year of 2015 and at least half of the arrests were based on proactive activity by officers. The PD has stepped up its efforts and there have been a lot of drug arrests. Manchester SWOT came to assist when an armed individual refused to come out. A subsequent search of the premises revealed a weapon that was loaded. Chairman Sullivan then opened the meeting to public comment.

Ian Cote of One West Stearns Avenue said it is unbelievable what is going on and it is not within residents' grasp and needs to be handled at the town level. He said he lives in a residential area with a brothel 100 yards from his house. There are heroin needles sprinkled around. He asked if there is some way to see if the motel should be there at all. He said residents must have some rights. Dr. Shankle said PD has been working with code enforcement and the health officer and there are no violations; same thing with the Fire Department, they are up to code.

Councilor Duhaime suggested a site plan review since they access a town road, not a state road. Chairman Sullivan said a code review could be undertaken. He also wondered, given the opioid crisis, if the state could create a drug free zone. Councilor Ross stated that there use to be a chain-linked fence there that has disappeared and makes foot traffic easier. He asked if that was a violation and whether the fence could be put back up. Councilor Duhaime said the site plan review could get the land owner's attention. Councilor Winterton said he would be happy to bring the situation to the attention of the Planning Board. Councilor Miville said the PD has been doing yeoman's work and inquired whether the person assigned to the drug enforcement program could be utilized to help.

4

Captain Daigle said the chief has spent time in the Firebird Motel parking lot and they are renting by the hour. On one visit, the owner's son was manning the desk and acknowledged tenants had local addresses but would have to check with his father on the exact price per hour.

Jackie Faucher of 3 West Stearns Avenue read through documentation describing a "public health nuisance". She said in accordance with a NH Public Health Nuisance Guidance Document, "a public nuisance is a behavior that unreasonably interferes with the health, safety, peace, comfort or convenience of the general community". Captain Daigle said that business people have actually participated in neighborhood watches that have led to arrests and he applauded residents for keeping PD apprised of goings-on in the area.

Matt Daust said last night 11 vehicles were in and out; 9 minutes, the longest; 3 minutes- the shortest.

Dan LaTouche of 16 Bell Avenue said that the motel is a series of rooms used as a convenience store for all types of illegal activity; it's not used as a motel. It is the most dangerous place in Hooksett. Mr. Latouche asked "would your family feel safe living close to the motel"? He said he appreciates the efforts of the PD.

Councilor Winterton said it is a horrific situation and appreciated the courage it took for residents to come to the meeting tonight. The budget passed yesterday will allow for hiring 4 more police officers part-time and two full-time so hopefully more arrests can be made and more criminals taken off the streets. He encouraged everyone to call 911 to get as much cleaned up as we can. He made a personal commitment, and on behalf of the Council, "to do whatever we can do until the area is cleaned up". Captain Daigle said the owner knows what's going on and the activity is around the clock.

Catherine Rice said that since 1969 she's operated a children's learning center. She has 31 parents that come and go with 3, 4, 5 year old children and they are out doing practice fire drills and are in the playground in good weather. Quite a few parents have voiced their concerns about the neighborhood. She and her staff are responsible for the safety of the children.

Don Latouche, father of Dan who spoke earlier, said his son lives in his rental house because he's lost three tenants over the situation. It is difficult to get the property rented. The property was appraised and we have to deduct 20 percent off the value because of the Firebird. He thanked Captain Daigle for the PD's efforts and said he hopes the PD and Council can help them.

Chairman Sullivan thanked everyone for coming in and giving the Council the prodding to push forward and check into all of the options mentioned. Councilor Tsantoulis said he had no idea that the Firebird presented such a problem. He commended the PD and said the Council will "put our heads together and come up with the right solution". He urged residents to be patient and continue doing what they are doing. He said his youngster went to Mrs. Rice's school and there are other good businesses in the area and "you have my support".

Ian Cote said he has an eight year old son and 17 month old daughter. His son has already seen someone passed out. Cathy Brodsky said she lives in Manchester and is a Latouche

TC Minutes 051116-U 5

friend. She said the area is close to Route 93 which makes it a state problem and a problem beyond Hooksett.

Councilor Duhaime said he is glad residents brought the matter to the Council's attention and "we'll make sure to get this fixed". Councilor Comai said she didn't realize the severity of the situation and thanked residents for the courage to step up and assured them the Council would do something about it. Councilor Miville said it is shocking to learn that the number of arrests made in four months eclipsed the number of arrests made for the whole of 2015. Councilor Ross pointed out the financial impact caused in addition to the safety, peace and quiet concerns and the town must hold their feet to the fire. Councilor Winterton thanked residents for bringing awareness to the entire Hooksett community. Chairman Sullivan thanked everyone for coming.

17.d BOSTON POST CANE AWARD

Chairman Sullivan stated that the Boston Post Cane recipient, Virginia Kalariotes, passed away on March 27th. The recipient is Sophie Dlugosz who recently celebrated her 99th birthday. Sophie moved to Hooksett after marrying her husband and Hooksett native Rudolph, and together they operated R.J. Dlugosz Oil Company. They raised two children in town and although she currently resides in Manchester, she still owns their family home in Hooksett's District 4, Councilor Miville's district. The award will be presented to her at her residence.

Councilor Miville moved, second by Councilor Duhaime, to present the Boston Post Cane Award to Sophie Dlugosz. Motion passed unanimously, 8-0. Dr. Shankle will arrange a time for the presentation.

11. TOWN ADMINISTRATOR'S REPORT

Dr. Shankle reported as follows:

He brought to the attention of the Council the television sets on the wall which will be tied to computers when done and new cameras where everyone can be seen.
 Volunteer Appreciation Night is scheduled for Friday, June 24th at 6:00 p.m. before the

271 • Volunt272 • end of

end of the fiscal year.
Lilac Bridge, he said, has gotten interesting. There was one bid. He has met with the Historical Society who want more detail, and he's working through the pile of steel on Jeff Larrabee's property.

• There have been questions about community development and the planner leaving. Working with Jim Donison, Town Engineer, and he really wants to assist the planner that is left. The administrative assistant was moved to highway garage and the highway garage administrative assistant moved upstairs. Both are happy with the move. Originally when building and planning were combined the idea was to have one administrative assistant handle both sides. Jim Donison would like to let that settle in and see what we've got. Because of that, at the Planning Board meeting, the Master Plan came up. The next meeting of the Planning Board is May 21st. Mr. Donison and Dr. Shankle will handle.

 The Hooksettites Annual Lunch will be held on May 19th at the Derryfield Country Club. Dr. Shankle and Councilor Duhaime plan to attend.

TC Minutes 051116-U

• Dr. Shankle said he has been invited to attend an ICMA (International City/County Management Association) program during the last two weeks in July in China. In response to Councilor Tsantoulis, Dr. Shankle said there would be no financial impact to the town. The cost is paid for by the university for two or three people per year.

Councilor Ross indicated that moving the Lilac Bridge could be a massive expenditure and cautioned against placing too many restrictions or too much pressure on the person doing the project to not inhibit it. Preservation could be an Old Man on the Mountain attraction for Hooksett. Dr. Shankle said "the bid was for us to move it". The matter hasn't gone to the Planning Board and the state wants to make sure there is a 10-year timeframe to set up. Councilor Ross said "if we're paying to move it, that's our scrap".

Councilor Ross moved, second by Councilor Levesque, to accept the donation from the New England Heart and Vascular Institute and Catholic Medical Center for the LifePac 15 Cardiac Monitor/Defibrillator for use by the Hooksett Fire Rescue Department. Motion passed unanimously, 8-0. Councilor Ross suggested sending a letter of thanks to the Catholic Medical Center. Dr. Shankle will arrange.

16.b Discussion of Town Meeting Results

17. NEW BUSINESS

17.a 16-024 Firebird Motel 10 Bell Avenue -- Law Enforcement – Taken Up Earlier BELL AVE LTR 042716.pdf

17.b 16-025 Other Ways to Govern the Town of Hooksett

Dr. Shankle referenced the information provided from the NH Municipal Association. There appears to be a lot of flexibility within the law on changing the charter and the document does a good job explaining what can and can't be done. Dr. Shankle will go over the document with Town Counsel. It is good that the town moved the election time. Councilor Winterton stated that 3.6 percent of the electorate is determining how the town should be run and that is troubling. He said all the work we do can be changed by less than 3.6 percent. People of Hooksett are familiar with Manchester and Concord who expect elected officials to do their job. Here they don't come out. He is concerned by the ultra-minority and feels the Council should take a closer look at the issue.

Chairman Sullivan thought starting earlier working toward the election might help. Councilor Ross said some booths are handicapped and some had difficulty reading the type. Booths with magnifiers would be helpful. Councilor Miville said the Council really needs to focus on getting out the vote and informing the public in a proactive way; perhaps consider a newsletter prior to an election. Chairman Sullivan said that a public notice was put in the paper and the Union Leader reporter has put stories in. Councilor Winterton said he hasn't heard back from Merchants Motors about putting something on their sign. He said it's been suggested that maybe the town needs to spend the money on a postcard mailer before the election — similar to a "Save the Date" mailer, and maybe share the cost with the school district. Councilor Comai felt a postcard would be treated like junk mail and social media was the way to go. Chairman Sullivan said he doesn't know what drives people to come out and vote but doesn't want to spend money to get people to come out to vote. Councilor Comai said the Council should create a list of all electronic boards in town that could be accessed. Councilor Miville said there were four electronic boards in town that could be reserved for Public Service Announcements (PSA) that rotate every eight seconds.

17.c 16-026 Town Newsletter 5112016 Newsletter Staff Report.pdf

It has been the practice to place town newsletters in with the tax bill. It typically cost \$600 to print and insert the newsletter in with the tax bill. A copy of the May 2016 newsletter was included in the Council packet for review and recommended changes.

Councilor Miville said more than half the first page is filled with information about the Southern New Hampshire Planning Commission and space could be better utilized by including information pertinent to the average voter. Councilor Comai suggested included the phrase SEE Something/SAY Something and perhaps including election results and that boards and committees still need volunteers. Councilor Ross suggested a blurb on calling authorities if syringes are found so that they can be properly disposed of. Dr. Shankle said that he and Katie were in the process of updating the town website. Suggested changes will be made to the newsletter.

Councilor Tsantoulis moved, second by Councilor Duhaime, to allow the town newsletter to be inserted along with the May 2016 tax bill. Motion passed unanimously, 8-0.

<u>0516.pdf</u>

17.d 16-027 Boston Post Cane Award – Taken Up Earlier

18. SUB-COMMITTEE REPORTS

 Councilor Ross said the Conservation Commission approved a change order. There was discussion to authorize the Chair to approve change orders. He opposed stating that even town administration has limits. He doesn't agree that one person alone be making decisions with public money. He said Blue Ribbon Fencing got the low bid. There was discussion about putting additional signs besides Conservation Commission signs reminding people that it is a felony to damage public property, and that the post should be steel, not wood.

Hooksett Youth Achievers met today. Councilor Winterton suggested everyone be proactive in submitting nominations. The Planning Board is getting busy. SNHU is moving along with its 100 million dollars worth of projects and getting approvals for the new dorm and athletic field. Regarding tennis courts, six new NCAA qualified courts are being built as part of the complex. He said Victory Lane is open part-time. Dr. Shankle has been asked to have assessing come in to explain what parts of those buildings are taxable. SNHU really wants to be good neighbors. The site plan for the soccer field is approved, pending lighting plans and they are willing to contribute to the Martins Ferry Road bridge and sidewalk.

Bloomberg Self Storage by the library is looking for a reduction in impact fees. There are 20 trips in and out every day. They are hoping that the town will re-visit impact fees if they do what the town wants. The impact fees were set in 2005.

A mini golf course was approved as part of Lilac Development on Hackett Hill which will be under construction this summer. Next year, a smoke house restaurant will be attached. They extended the Beaver Brook application for another year. Berry Hill's new owner bought a bunch of lots, 18 or 19 lots, for this over 55 community

Chairman Sullivan said the next meeting of the Heritage Commission will be on May 21. Councilor Comai said she will not be attending the next Council meeting.

Councilor Miville said Economic Development met last week. They are wrapping up the business survey. They tried to recruit 100 businesses in town – 31 responded. UNH Extension will conduct a campus review in July. Other reviews will occur and in September, businesses who participated in the survey will retreat and work down to five major projects. The report will be finalized and presented to Town Council in October.

The committee will review the impact fee structure. Councilor Miville suggested developing a list of potential businesses that Hooksett does not currently have; find open properties and recruit businesses proactively while retaining the businesses already here.

The Budget Committee will meet next Thursday and will probably have two or three meetings in the summertime. Old members and new will be invited. They are moving forward to improve the process and streamlining forms sent out — making them similar across the board.

Councilor Tsantoulis reiterated Councilor Winterton's comments about Youth Achievers. He had nothing of note to report from the Board of Assessors and thanked the voters for electing him from his appointed position.

highways." When this interference substantially and unreasonably affects the use and enjoyment of a single or small group of properties it is considered a private nuisance. When an activity unreasonably interferes "with a right common to the general public," it is considered a public nuisance. As such, a public nuisance is a "behavior that unreasonably interferes with the health, safety, peace, comfort or convenience of the general community." A public nuisance could include public health threats such as pest infestations, unsanitary living conditions, smoke from outdoor wood boilers, or properties with unreasonable accumulation of garbage. At times, conduct may be both a private and a public nuisance if it causes both a particular harm to a specific property and a more generalized harm to the greater community. However, the local Health Officer's focus is to play an important role in addressing the health threat presented by public nuisances.

To understand the scope of the Health Officer's authority to abate public nuisances, it is helpful to understand the source of this authority - the police powers of the state government. However, to determine the scope of state government authority you must first look to the U.S. Constitution and the concept of federalism. Federalism is the division of power between the federal government and state governments. The basis of federalism in the United States is the 10th Amendment, which states that any powers not "delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people." Under this broad reservation of power, states have police powers. Police powers are the authority to enact and enforce legislation and regulations to protect the welfare, health, and safety of the population. These police powers provide the basis for a state's nuisance abatement authority. However, the relationship between state and local governments is different than the concept of federalism. Local governments are generally recognized as subsidiaries of their respective states. Any power that local authorities exercise is delegated from the state. The

> Re: Firebird Motel 10 Bell Ave., Hooksett, NH

TO WHOM IT MAY CONCERN:

We, the undersigned, are abutters and/or neighbors residing and/or working in the area of the above captioned motel.

Since attending the Neighborhood Watch program in 2015, we have noticed an up-tick/proliferation of activity in the coming & going of clients at the Firebird. To our dis-like, there seems to be a lack of "preventive maintenance" on management's part that might otherwise preclude a number of incidents, now increasing in intensity and frequency.

While the Police Department should be commended for its vigilance in attempting to keep some measure of safety in & around our neighborhood, and we so appreciate its untiring efforts, we remain reactive to what is transpiring at that address, rather than being pro-active in deterring malicious behavior.

We will appreciate an open discussion at the town council regarding steps that can be initiated to regain our appreciation of living in this section of Hooksett.

Good Morning,

It has been a pleasure to serve with you.

It is true, one person can make a difference. That has been the premise of my volunteering from the beginning when I served on the budget committee to this June when I complete my term as district 6 councilor. It was an honor to have been elected and confirms "one person can make a difference".

That said, please accept this email as a formal notice that I will not pursue another term at this time.

Thank you for all that you do. I truly appreciate everything that has been done to make Hooksett a better place to live.

Keep doing the right thing, and everything else will fall into place.

All my best!

Nan Comai Hooksett Town Councilor District #6 (603) 623-3701

May 9, 2016

Town of Hooksett Dean Shankle 35 Main Street Hooksett, NH 03106

Dear Dr. Shankle,

The Hooksett Kiwanis Foundation would like to thank you for your assistance last year in helping us make the "Book It to the Library" race a success. In addition, we would like to run the race again this year and are seeking your approval to use your land owned by the town. The event is planned for Saturday, September 17th at 8:30 AM which will coincide with Old Home Days. We will be using the same course that we used last year – a map is attached to this letter.

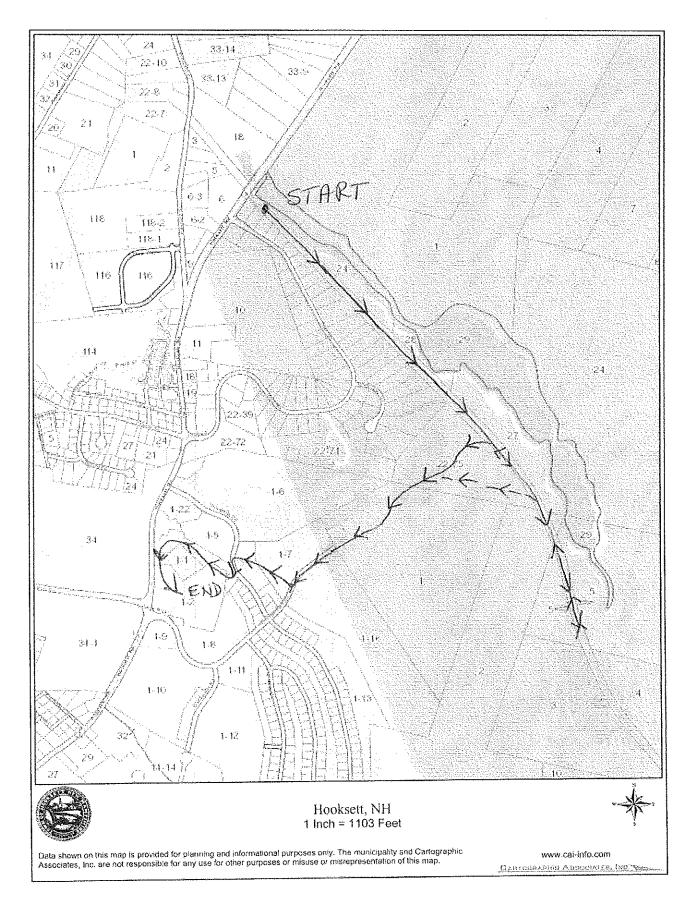

We are requesting permission of the Town of Hooksett to direct a portion of a 5K Road Race through land owned by the town. We will provide a certificate of insurance showing \$1 million in liability limits, naming the Town of Hooksett as an additional insured as their liability may arise from all activities related to this 5K race. We'll also have indemnification agreements built into all race registrant's documents whereby the racers will indemnify all property owners, Town of Hooksett and the Hooksett Kiwanis Club.

Would it be possible to be put on the agenda for one of the upcoming Town Council meetings? We could review in detail the roads to be used, police detail, port-a potties, traffic cones, barricades, EMTs, trail equipment and anything else pertaining to the race.

Thank you for your support and consideration!

Sincerely,

Sue Willey Hooksett Kiwanis 5k Race Committee 603-485-3821

Staff Report

Title: Safety Center Memorial Park

Date: May 25, 2016

Background and Discussion of Issues

After the 9-11-01 terrorist attacks, artifacts from ground zero in NYC were made available to fire departments, to honor the sacrifices made there. Hooksett Fire requested and received an artifact. It has been on display for 5 years in the Safety center Lobby. The artifact was present at the time of the 10 year anniversary that was observed at the Safety Center. In 2009, the Hooksett Fire Honor Guard along with Hooksett Police members wanted to build a memorial park area on the Safety Center grounds for any fitting event. Planning progressed and the scope and committees grew and reduced until the park supplies came together. Hooksett Fire Local 3264 membership coordinated and directed the physical assembly of the park. The Hooksett Happy Helpers organization offered to assist with the project and several items were purchased with their financial assistance. In the conceptual stages of the memorial park, Hooksett Fire and Hooksett Police had discussions regarding financial and labor contributions towards the creation of the park. As plans evolved, the finished product took shape with the design including planting trees for each Hooksett Fire Chief and placing signs to denote their times of service, expanded irrigation and additional landscaping as well as a patio event area. The Council approved the plans in October of 2009 and again in March of 2011. In 2013, the irrigation, planting and patio-block area were installed by both the contracted landscaper and members of Hooksett Fire Rescue. In 2015, signs denoting the years of service for past Fire Chiefs were placed inside the bark mulch area of the new trees as Hooksett Permanent Firefighters (L-3264) members continue to contribute time and labor towards the upkeep of this project. At this time, the memorial area is complete.

A detailed breakdown of expenditures/donations is attached separately.

Recommendation (including suggested motion, if appropriate)

Recommend that the Hooksett Town Council accept the gift from the Hooksett Happy Helpers organization, Hooksett Local 3264 membership and private donations for the Hooksett Safety Center Memorial Park with the donated value of \$20,483.36, under RSA 31:95-e II, donation of property in excess of \$5,000.00.

Fiscal Impact

The fiscal impacts are for grounds care, already provided by the DPW. Irrigation was installed prior to this project, but had not been maintained. Servicing and improving the irrigation system was completed as part of this project. Continued maintenance of the irrigation will need to be accounted for. The grounds maintenance time impact has increased only minimally.

RE: Memorial Park

After reviewing the document sent and the minutes of the 2009 meeting allowing the memorial park to be built I wanted dedicated to Hooksett Police and Fire. However, it saddens me that in the three plus years I have been here there was no communication from Fire regarding what the memorial would be, how it was funded or what the final product would to give my opinion regarding this project as requested. Firstly, I support the project and the idea of a memorial look like until I asked. I see in the meeting minutes that the council voted to allow this as a "joint project"

to the tees that I wanted. This didn't seem right and I did not want to proceed without an understanding of what the final property one day last year had been donned with a plaque memorializing only fire chief's I inquired and was told that this was the plan for the memorial and the fire fighters association had constructed the plaques with the funding coming from When I first came to Hooksett I asked about the steel beam in the lobby. I was told that the beam was a piece of the World Trade Center and was to be used for a memorial park to be build outside the station. I was not given plans or an the Happy Helpers. Additionally, I was told by then acting Chief Jore that I could feel free to add any police chief name opportunity to be part of any conversation for this project. When I observed that all trees on the public safety center memorial was to look like. Apparently it is finished and the steel beam is to remain in the lobby.

committee, but since 2009 there is no mention of police involvement. Who were the officers? Is there any police representation at the current memorial? Does the memorial span the entire public safety property? What did the plans call I am very much in favor of a memorial, however, this should be joint project with solidified planning and vision as to what the final product will look like and what significants it has. I know there are statements that say police had input on the for regarding police officers? Where are the figurines talked about in the meeting minutes?

Obviously there are many questions I have regarding this. I look forward to meeting with Chief Burkush when I return for the NA.

Thanks,

Hooksett Town Council Meeting Minutes of 10/14/09

ø

C. Granfield: It was more time sensitive to move forward and the money was already committed.

C. Granfield: The Council in August or September voted to allocate the money for the park. We had the public hearing tonight because it was part of the motion. The Council can now vote to reconsider if they

D. Hemeon: When we originally talked about the park at Lambert Park, I said I would have a public hearing with the abutters. Once it was moved to the skate this, there were no abutters except the Courthouse, which we spoke with and Carol spoke with June from the Rowing Club. I don't recall hearing anything about a public hearing. D. Ross: As far as the public hearing, I was surprised and inought we were going to come back and hear prices and plans. That area was never for the club to use. They don't own the property so they are not abutiers and the Administrator said that we don't need to have a public hearing. The Advisory Committee looked at other alles and recommended this site. We have a lot of readents in hown that live in condos and we have nothing for dog owners. Parks are not just for children. The public hearing issue is a mountain made out of a molehill. I think there's no negalive impact, It is just a fence, which you can see through. This area doesn't get used now and if it gets more use, it will be a good thing.

G. Longfellow: I think it is the wrong place for a dog park, whether it is built already or not. What do you think the public will say when they see this? They will not know that this is from impact fee.

Recognition of Vervant Nahiklan & Robert Duhaims

B. Gahara presented a plaque in recognition of the contributions made as part of the Aesthelics Committee to Yervant Nahikian and Robert Duhaime.

Proposed Fire/Police Ceremonial Park C. Granfield: This is a project proposed by both Police and Fire Personnel.

Chief Williams and Earl Lincoln presented their proposal for a Ceremonial Park at the Safety Center. It will be a joint project with the Police and Fire Departments. The construction will have no fiscal impact. The Highway Department will easist with the labor and fundraising will cover the costs. All maintenance will be done by the Firefighters and the Police of Officers. The park will be used for induction ceremorials as well as memorial services. The park will eature a ceremonial belt two figurines, one police and one fire as well as a possible piece of steet from the site of the 911 attacks.

D. Ross motioned to approve moving torward with this project and request this be brought back to the Council prior to approving work to be done by the Highway Department. Seconded by J.

Vote unanimously in favor

<u>Kathie Northrup, Heritage Commission Chair re; Head School Project Undate- Continued</u> Head School Open House is Saturday, October 17th at noon.

Goals for Town Administrator/Town

The goals are listed in the staff report. Based on Input from the Council, we confirmed the first 10 goals and there should be an emphasis on Improving community perceptions and the computer system. The second piece is the ideas. There were 45 Ideas.

The following goals were discussed:

- Electronic tax payments through a bank issue of the Old Town Hall and Investigate the use as an incubation space for businesses. Address vacant and dilapidated buildings in town.

 - Consistency with the Town's Master Plan

SCHEDULED APPOINTMENTS
Public Hearing re: School District Maintenance Warrant Article

for snow plowing & grass mowing to expenditures for the purpose of Public Works provided maintenance and equipment for the school's parking fots and grounds, including plowing, sweeping, mowing, painting of fields etc.? Such revenues and expenditures shall be accounted for in a special revenue fund known as the Parking Lots and Grounds Maintenance fund, separate from the general fund. Any surplus in said fund shall not be deemed part of the general fund accumulated surplus and shall be expended only after a vote by the legislative body to appropriate a specific amount from said fund for a specific purpose related to the purpose of the fund or source of the revenue. Majority vote required." Warrant Article #19 Shall we adopt the provisions of RSA 31:95-c to restrict 100% of revenues from Hooksett School District

The public hearing was opened at 7:50 pm.

Mark Miville, 42 Main Street expressed his concerns about the School District maintenance warrant article. He stated it appears to be a double taxation.

D. Pearl stated he agreed with Mr. Miville's statement. It averts the CIP process.

Michael Sorel, 54 Cross Road commented on the Budget Committee Chair, Mark Miville's letter to the Town Administrator and the Council. The letter does not represent the view of the Budget Committee and JR Ouelette, 3 Summerfare Street asked the Council to reconsider the warrant article. It is not needs to be substantiated, transparent and deceitful.

Tom Keach, Pinnacle Street, Budget Committee Vice Chair stated there was no consensus on the issue at the Budget Committee meeting. Mr. Miville did say to him the letter represented his personal opinion and not of the board. Nancy Comai, 21 Elmer Avenue stated as a point of order that this is a public hearing on the warrant article. What transpired has nothing to do with the public hearing.

The public hearing was closed at 8:05 pm.

N. VanScoy moved to reconsider Warrant Article 19. Motion seconded by G. Longfellow. Roll call vote carried unanimously

N. VanScoy moved to rescind Warrant Article 19 from the ballot. Motion seconded by Longfellow. Roll call vote carried unanimously.

OLD BUSINESS

Request to Use Safety Center Property for Ceremonial Park This was first presented to the Council in October, 2009.

FF Earl Lincoln, Co-Chair of the Ceremonial Park Committee asked for approval to use the property to be able to start fundraising activities. The Ceremonial Park will be used for both Fire and Police events. The project will take about a year to complete.

4 Town Council Minutes - March 23, 2011

Paradis moved to grant the request to use the property. Motion seconded by G. Longfellow. Motion carried unanimously.

<u>Town Warrant and Meeting Date</u> C. Granfield explained as a result of the warrant not being posted on Friday, March 18th, the Town Meeting date had to be moved to April 9th.

V. Lembo moved to hold the Town Meeting/Deliberative Session on Saturday, April 9, 2011 at 9 am. Motion seconded by G. Longfellow. Motion carried unanimous/V.

On March 15th Atty, Jay Hodes attended the Special Town Council meeting. At that meeting, he advised the Council that according to the bill enacted to rescind an action creating the Hooksett Police Commission, a warrant has to be submitted by virtue of a petitioned warrant article as provided in RSA 39:3.

Atty. Hodes stated he misled the Council by giving them an incorrect advice. He based his comment on the special act passed giving the Town the power to abolish the Police Commission. He failed to mention another statute, RSA 31:131, "Any question which an enabling statute authorizes to be placed in the waterant for a town meeting by peltion may also be inserted by the selectmen, even in the absence of any petition." Under the Charter the Town Council has the same if not more power than a Board of Selectmen. There are two ways to place the warrant article, one by petition and one by the Council's

Currently, the Town Warrant does not include the Police Commission warrant.

V. Lembo moved to reconsider the motion. Motion seconded by J. Levesque.

M. Pischetola clarified someone who voted in the affirmative has to make the motion to reconsider.

The motion and second were withdrawn.

No motion was made.

NEW BUSINESS

Warrant Articles – Motions & Seconds The Council assigned who will make the motion, second and speak on each warrant.

TOWN ADMINISTRATOR'S REPORT

- and other officials. The Town contracted with Enpro Services, Inc. with the cleanup. Emergency Management Director, Dan Pike is the point of contact for the Town. Disks showed up in MA. There were reports that disks also showed up in MY but these were not Hooksett sewer disks. C. Granfield informed the Council of the following:

 Regarding the sewer disks incident, information was added on the website. She has met with the state
- Sign up period for Town Offices is March 23rd April 1st. There are 6 Councilor slots available.
- Effective immediately, the Town Council minutes will reflect a summary and actions rather than verbatim. Lately, there have been a lot of dialogues in the minutes. Meeting tapes are available for up to three years as a backup.
- N. VanScoy stated she is against providing less detail in the minutes.
- Fire Captain Gary Lambert is retining April 1st after 25 years of service. A plaque will be presented to Capt. Lambert at the retirement ceremony.

Staff Report

| would be a great time to begin a Town, Recreation Division before and after program. The Town cost would be slightly less than presently being paid by residents. If it is a Town program, students who presently can't afford to atte may qualify for financial assistance and can apply for full or partial scholarshithrough the Salvation Army. This program was voted on unanimously by the Hooksett School Board. It we take place at the Underhill School. The School Board would be interested in |

Town of Hooksett Parks & Recreation Division School Age Before & After School Program Handbook

Program Introduction

Welcome to Hooksett Recreation's Before and After School Program! This is a School Age Program that is run through the Town of Hooksett's Parks and Recreation Division. Before and after school care is available to all Hooksett residents from 5 years to 13 years of age. It is a requirement that children being registered must be current students of one of the Hooksett Schools. Drop off for before school begins at 7:00 AM and continues until school begins. After school care runs from the time schools dismiss and all registered students must be picked up no later than 6:00 PM. Both Programs are located at the Fred C. Underhill School in Hooksett.

Program Contact:

Program Director, Steve Schack

Cell: (603) 391-4659

Email: sschack@hooksett.org

Program Availability:

This program will be available to all Hooksett students during both Fall, and Spring semesters. There is Before and After School care for every regular school day in the SAU15 district. The times of availability are Monday through Friday with morning drop-off beginning at 7:00AM at Fred C. Underhill School, then After School Care is available until 6:00PM also at the Fred C. Underhill School.

Availability Exceptions:

This program will not be available during school holidays, teacher workshops, and weather-related cancellations. PLEASE BE AWARE OF SCHOOL HOLIDAY CHILD CARE OFFERED BY HOOKSETT!

Location:

The Hooksett Recreation's Before School Program will be held at Fred C. Underhill Elementary School. The After School Program will also be held at the Fred C. Underhill School. When weather permits, children will be able to use the equipment and spaces around the school. There is a playing field, a playground, and a basketball court available to children registered for the program.

Method of Transportation:

For the morning, registered students will be dropped off at the Underhill School no earlier than 7:00 AM. Students of Underhill School will be dismissed from the program directly to school. Students attending Memorial School will be dismissed from the program to a bus that will take them directly to Hooksett Memorial School. For the afternoon, registered students will be taken by bus from Hooksett

Memorial School to Underhill School. Registered students at Underhill will remain at the school to be dismissed into the care of the program.

Daily Schedule and Program Content

Before School Care Staff on Duty at 7:00 AM 7:00 AM 8:15 AM

8:15 AM buses load for Memorial School/students dismissed to Underhill

After School Care Staff on Duty at 3:15 PM

Arrival 3:30 PM – 3:45 PM
15 minutes for a snack upon arrival
20-25 minutes of homework time
1 hour of choice time

5:30 PM 6:00 PM is free play in the gymnasium for pick-up time **Staff on Duty at 12:45 PM for Early Release Days**

Choice Time Activity Examples:

⇒ Sports

⇒ Arts & Crafts

⇒ Music & Theatre

⇒ Nature & Outdoors

⇒ Reading

⇒ Science Experiments

⇒ Movies

⇒ Academ-X-Games

Snack/Homework Time:

This time slot is not a choice, as ALL students will take the first 15 minutes to eat a snack and then the next 20-25 minutes to do homework. There will be staff available to assist with homework in any subject. Once the snack and homework times are finished, students will still have time and space to continue doing homework as other students enter choice time.

Choice Time:

Each day, there will be choices available from the list above depending on the skills and interests of both the children and the staff.

Academ-X-Games:

Children will have the opportunity to participate in activities that combine certain areas such as sports, music, science, math, and history. Some of these activities will include competitive formats similar to that of Jeopardy, or Science and Math Olympiads.

Hooksett Library:

For one day each week, the Hooksett Library will be in attendance with crafts, stories, science experiments, and other really cool activities!

Our Staff:

Our staff for this After School Program has undergone up-to-date background checks, drug/alcohol screenings, and a thorough interview process to work with us here caring for your children. Keep an eye out for the "Employee Bio's" that will be posted to the Parks & Recreation Division webpage and circulated through program send-outs so you can get to know the counselors too!

Fee Schedule

Base Price Policy:

The price for each child is \$12 for each day and for siblings, the price is \$10 for each day.

Program Capacity:

The capacity of the Before School Care is 75 children and the capacity for After School Care is 100 registered children for each day.

Late Pick-Up Policy:

The charge for picking up late is \$1 for every minute late, for each child (if you are picking up two children, the late fee is multiplied by 2). If you know that you are going to be late to pick up and you do not inform the Program Director, a \$25 fee will be added to the original late fee.

Registration

How to Register:

Print off and fill out the registration packet that can be found online at hooksett.org

- 1. Registration Form
- 2. Medical History and Records of Immunization Form
- 3. Reservation Sheet
- 4. Pick-Up Authorization Form
- 5. Conduct Policy Agreement

Payments:

Payments must be made by check or money order.

Please make checks out to:

Town of Hooksett

How to Reserve and Pay:

- ✓ ALL required materials must be submitted more than 7 days in advance of your child's first day to better assure availability of spots.
- ✓ Failure to turn in required documents and payment on time may result in the loss of your spot in the program.
- ✓ Return completed registration packets to Steve Schack at 210 West River Road, Hooksett, NH.
- ✓ Include the payment for the week with the completed registration packet.
- ✓ AFTER your child's first week, payments will be due on Friday before the next registered week; or at least 7 days before your child's first day of the program.

[Type text] [Type text]

Day-Of Registration:

✓ If you would like to register for a 'last-minute' occurrence, you MUST contact the Program Director to confirm that there is space.

Early Release Days:

There WILL be After School Program on all scheduled Early Release Days! These days will cost \$17 and will run from the moment children are dropped from the bus ride from school to the normal closing time of 6:00 PM. Please pack additional food so that your child has plenty to eat for the longer day.

Conduct Policy

Basic Rules:

- 1.
- 2. HAVE FUN!!!
- 3. Hands to yourself and your own belongings!
- 4. ALWAYS listen to Program Staff.
- 5. NEVER wander from the group.
- 6. NEVER leave for the bathroom alone.
- 7. Dress appropriately for a program of 1st 8th grade children!
- 8. No weapons, drugs, or foul language at the After School Program.

Personal Item Policy:

- 1. Kids are discouraged from bringing any items that are not on the list of recommended supplies.
- 2. If you choose to bring any personal items from home, these items may be taken for the day until Pick-up time.
- 3. Hooksett Parks and Recreation is **NOT** responsible for any items that are lost or stolen while at the After School Program.

System of Discipline:

- 1. There is **NO 3-strike system** or **probationary period** for children.
- 2. The Program Director may dismiss any child at any time if that child is compromising the sanctity of a safe and fun atmosphere for other children.
- 3. Reasons that could result in an automatic dismissal include theft of ours, or another child's property; assault against another child; bullying/harassing other children; inappropriate language/conversation topics, or habitually breaking rules of the program.

Transportation/Drop-off:

Drop off at the Before School Program at Fred C. Underhill School will begin at 7:00AM. For the After School Program, there will be bus transportation from the Hooksett Memorial School to the Underhill School.

Program Attendance Control

Children will be signed in by their parents at the Before School Program upon their arrival. For the After School Program, children will check in with the Program Director, or with their assigned age group attendance keeper so that the After School Program can guarantee accurate attendance each day.

After School Program Pick-up Procedure:

- ⇒ Pick-up time begins at 5:00 PM but you may pick your child up from the After School Program at any time. If you are picking up earlier than 5:00 PM, please notify the Program Director to avoid any panic or confusion.
- ⇒ When picking up from the After School Program, identification must be shown at the sign out table. If you are picking a child up and you are not on the "approved pick-up list", the parent must contact the Program Director before the child can be released to the person trying to pick-up.

Policy for Late Pick-up:

There is a late fee for picking up after 6:00 PM and that is as follows: Every minute late will be a charge of \$1. If you are 23 minutes late, the charge is \$23. If you have more than one child, the fee is multiplied by the number of children that you have. The ONLY way to avoid the late pick-up fee is to pick-up at, or before 6:00 PM. If you are going to be late and you do not contact the Program Director, a fee of \$25 will be added to the existing late fee.

Recommended Items:

The program will provide all supplies and equipment being used during this After School Program. Children are discouraged from bringing personal items from home such as sports equipment, toys, and electronics. The recommended list of items for each day can be found below:

- 1. Backpack with school supplies.
- 2. Lunchbox with at least one snack in it.
- 3. Proper clothing for the weather (jackets, hats, gloves for cold weather).
- 4. Proper footwear (sneakers for warm weather or boots for snow/cold).
- 5. Other recommended items will be communicated to parents via group email or direct contact.

Electronics Policy:

Although children are **highly discouraged** from bringing personal items from home, we may sometimes allow time and space for students to use personal electronic devices. These devices must **NOT** be able to access the Internet and cannot contain any inappropriate music, games, or other content. If there are any issues with abiding by the Personal Items and Electronics policy, the Program Director reserves the right to implement a **FULL ELECTRONICS BAN** at any time.

Safety and Risk Management

Incident Reports:

Incident Reports will be filled out to document any injuries, behavior issues, altercations, or other incidents/emergencies that require full documentation and disclosure. These reports will be kept onsite, at the After School Program until the Program Director can file the report(s). Copies will be made at the occurrence of each incident and distributed to the parent/guardian of each child involved.

Child Safety Risk Management

1. Signing the registration form and submitting all pertinent documents are yours and your family's consent to the responsibility of reading and understanding the entirety of this handbook.

- 2. The Before and After School Care staff will be the only additional persons with access to your children. In the event of court-ordered restrictions, all pertinent information must be provided to the Program Director. This information includes the name, description, current address, and phone number of the person. All information must be provided in writing to be kept in the confidential file of each child.
- 3. In the event of an intruder on the program, the staff will be briefed on how to properly handle an uninvited guest.
- 4. All fire inspections and fire drills are and will be conducted as they are legally required.

Medical & Health Risk Management

- 1. Please be aware that children will be playing at the After School Program. We do not have body bubbles to supply for everyone, so cuts, scrapes, and accidents are likely to happen.
- 2. ALL of our counselors are First Aid & CPR/AED Certified and are trained to handle emergency situations involving adults and children.
- 3. Children are not allowed to carry or administer any medication themselves.
- 4. At no time is any staff member permitted to administer medication to your child. If you would like your child to take a certain medication, you must make arrangements to personally administer the medication.
- 5. In the case of an emergency, if we are unable to get in touch with parents or emergency contacts listed on your registration, your child will be taken to the closest emergency facility equipped to effectively handle the situation at hand.
- 6. Please provide a detailed list of allergies, medications, or medical conditions that you feel the Program Director should have in-depth knowledge of. It is important that the Program Director is aware of any information that could affect your child's ability to have a safe and happy school year with us at the After School Program!

If you have any questions about the content of this Handbook, please email Steve at sschack@hooksett.org

Staff Report

Title:

Project Bid#16-03 2016 Roadway Project Award

Date: 5-25-16

Background and Discussion of Issues

Bids were received on 5/13/16 for Project Bid No 16-03 for Martins Ferry Road and Main Street roadway improvements. Two bids were received with the lowest and most reasonable bid from Advanced Excavating and Paving of Suncook, NH See attached bid results. The summary of bid results for Advanced Excavating and Paving are as follows

Part A Martins Ferry Road:

Part A Martins Perly Road:
Base Bid - Roadway improvements \$325,810
Bid Alternative No 1 - Sidewalks \$122,340
Bid Alternative No 2 - Pedestrian Bridge over the Messer Brook \$50,410
Bid Alternative No 3 - Realignment of Benton Road into a "TEE" intersection \$34,410

Total Part A Martins Ferry Road \$532,972

Part R Main Street:

Base Bid - Roadway improvements \$244,689 Bid Alternative No. 4 - Sidewalk \$64,795

Total Part B Main Street \$309,484

Two bid items for retroflective thermplastic pavement markings for the Martins Ferry road base bid for \$22,340 and Main Street roadway base bid for \$20,800 can be eliminated and the Town can direct contract as part of the annual paint stripping contract for significantly less for regular pavement markings.

SNHU has committed \$25,000 towards the Messer Brook pedestrian bridge. \$80,000 is available from Zone 2 impact fees towards the cost of the Martins Ferry Road sidewalk.

\$64,795 is available from previously obligated impact fees (May 2013) for the Main Street sidewalk

As an option to awarding Bid alternative No. 3 for the realignment of Benton Road into a "TEE" intersection, an alternative approach can be to perform paint marking of the intersection to from a TEE intersection as part of the Town's annual line painting contract.

Recommendation (including suggested motion, if appropriate)

It is recommended that a contract be awarded to Advanced Excavating and Paving of Suncook, NH for Project Bid No.16-03 for \$474,522 for Part A Martins Ferry Road for the Base Bid, Bid Alternate 1 and Bid Alternate No 2 and \$288,684 for Part B Main Street for the Base Bid and Bid Alternative No 4 for a total contract award amount of \$763,206; and it is recommended to obligate \$80,000 of Zone 2 impact fees for the Martins Ferry Road sidewalks.

Fiscal Impact

The funding for Martins Ferry Road roadway improvements will be from current DPW funds, from Impact fees for a portion of the sidewalk costs, and a contribution of \$25,000 from SNHU towards the pedestrian bridge and for Main Street from either current available DPW funds or from funds that will be available on July 1, 2016.

Title: Purchase of Planer and High Flow Pump for Bobcat

| Date: 5/25/16 |
|--|
| Background and Discussion of Issues |
| The Department would like to purchase a planer attachment for the bobcat. The planer would be able to grind larger sections of pavement for repair vs. filling areas with multiple potholes. The larger "repaired" sections last longer than potholes keeping the road in better shape. Last summer we rented a planer for 5 days costing the Town close to \$2,000. We would be able to address more roads if it was available to us at all times. We would also save on materials (both stone and asphalt or cold patch) We do not have "other" quotes because it is Bobcat specific. The installation of the high flow pump would also enable us to use this Bobcat as a backup for the sidewalk plow. There are not three bids for this item because it is specific to Bobcat. |
| Recommendation (including suggested motion, if appropriate) I recommend that the Council vote to support the purchase of the planer and high flow pump, and to allow the Town Administrator, as agent to expend, release the amount of \$20,168.16 from the Public Works Vehicle/Equipment Capital Reserve Funds. |
| Fiscal Impact |
| \$20,168.16 from the Public Works Vehicle/Equipment Capital Reserve Fund |
