

Petition regarding Main Street traffic

10/10/16 8:43 PM

We, the undersigned Hooksett residents, would like to express our concerns about the proposal not to allow a left hand turn at the intersection of Route 3 and South Main Street. Many of us have lived in Hooksett for many years and have made this left turn safely. If this regulation is implemented, it will result in much of that traffic funneling through the Beauchesne neighborhood. We foresee cars whose destination is Donati field, the Town Hall offices, Holy Rosary Church as well as our neighbors in the Town Hall area using the neighborhood as a shortcut, rather than proceeding to Central Park Drive and trying to negotiate a left hand turn onto Main street without a turning lane. There are many children in the neighborhood as well as adult walkers using the roadway. We believe that the safety of our citizens will be better served by maintaining the current traffic flow. We request that the Town Council reject this proposal, or at the very least, hold a public hearing so that those residents who have concerns may have a forum to voice those concerns.
