HOUSING

1.	Identify the most successful housing developments in Town? What makes them successful?
2.	Identify the 3 biggest housing-related challenges in Hudson?
3.	How has Hudson approached these in the past? Discuss remedies to help overcome these challenges.

LAND USE

1.	What are your top three land use objectives for Hudson? (These could include topics such as mix of uses; density; natural resources; accessibility/connections; Routes 85 & 62).
2.	What are the biggest obstacles to achieving these objectives?
3.	How can the Town be better prepared to manage growth and development?

ECONOMIC DEVELOPMENT

	In terms of economic development (jobs, retail, office, industry), what do we ant/need in Hudson?
2.	What should the Town be doing to achieve those goals?
3.	Specifically, what are the priorities for keeping downtown Hudson vital?

TRANSPORTATION

1.	What are your concerns regarding mobility in Hudson (vehicles, pedestrians, bicyclists, bus, Routes 85 or 62)?
2.	Please tell us of something that has been completed in the last 5-10 years that has improved transportation in Hudson, if applicable. Tell us of something that has made transportation conditions worse.
	3. If you could fix 3 transportation problems in Hudson, what would they be? Suggest 2 or 3 remedies for each that may help overcome these issues (assuming no constraints).

OPEN SPACE / NATURAL RESOURCES

1.	Identify Hudson's most significant open space / natural resource assets? How has the Town performed in preserving/developing/utilizing them?
2.	What would you recommend to enhance the Assabet River as a resource for the Town?
	3. Can natural resources be better utilized in Hudson? How?

PUBLIC SERVICES & FACILITIES

1.	What types of new or expanded public facilities are needed in the future? (Consider location of new facilities, if needed).
2.	Which municipal services serve the community best? What enables these services to perform well?
3.	Which town services or facilities are not meeting the needs of the community? What is needed to improve the performance of these services?

ENERGY & SUSTAINABILITY

1.	What should the Town do to reduce its "carbon footprint"?
2.	Where should new development occur in order to enhance energy efficiency and sustainability?
3.	What other things could be done to incorporate energy and sustainability principles into daily life in Hudson?
	principles into dully life in Fluxusoff.
