

Jaffrey Economic Development Council
Minutes 9/23/09
9:00 am Town Office

Present: Don MacIsaac, Kathy Batchelder
Guests:

Staff: Jo Anne Carr

1. Route 202 Downtown Traffic Improvements

The Video animation of current traffic conditions and proposed conceptual design with traffic flow was reviewed. This Final version will be posted to the website and on the cable channel. It is also available on DVD for those who request a copy.

Don and Kathy discussed materials which would be necessary for the GACIT hearings – Jo Anne will prepare a presentation booklet for distribution to DOT representatives, State and local reps which will include the DVD

2. Elite Laundry Brownfields Cleanup

A total of 12 consulting engineering firms submitted responses to the RFP. Five of these will be interviewed this Friday the 25th – GeoTrans, Tighe & Bond, Haley & Aldrich, Weston Sampson, and Sanborn Head & Associates. It is expected that some additional assessment work will be necessary prior to adopting the final Remedial Action Plan. Once the plan has gone through the public review process, and other community relations plan and comment activities are in place – remediation work can begin in earnest. It is hoped to have a contractor committed before November.

3. Stone Bridge Water Mains

The contract has been approved, Wright Pierce will be doing the work. Final design work will be completed this fall and construction is set to begin next spring (2010)

4. Adjourn

NEXT MEETING: October 28, 2009
 9AM TOWN OFFICE
