FAMILY NATURE WALK AT LITTLE RIVER PARK

Saturday, June 4th 9:30am

June ushers in some of our loveliest wildflowers - lady slippers, jack-in-the-pulpit, Indian cucumber - and it's a great time to walk the trails at Little River Park before the real heat of summer sweeps in. We'll visit the upland forest trail that skirts the edge of the old gravel pit and then make our way to the floodplain forest trail where the Little River meanders around some sandy bankings.

Sponsored by the Conservation Commission, walks are usually held once a month. We'll meet at the LRP parking lot at 9:30. All ages welcome!

The Metro Plan is a comprehensive document that looks at all levels of planning through a transportation perspective. For instance, how is transportation planning linked to housing and demographic trends? How will we develop a transportation network that is accessible to all residents and enables quality of life regardless of physical ability, income, or social status? How can we make critical infrastructure resilient in the face of more severe storm events? The Metro Plan is a public document, and the public plays a critical role in its development. We need your input to ensure that the Metro Plan is accurate, sets reasonable goals that are representative of the needs of the region, and establishes an effective framework for measuring our progress. Please review the plan or specific sections that are a personal concern to you.
