

Board members present: Selectman LaCourse

Others present: Paul Gasowski, Randy Stevens, Pat Jenkins, Larry Kindberg, Shirley Walker, Dick Weyrick, Catherine Fisher, Mark Kustra, Bill Humm, Ann Tappan, Joe Hannon and Town Administrator Julie Glover.

1. No quorum for Select Board.

2. Pavilion Discussion:

Kindberg – 30 x 60 footprint, open frame, metal roof.

Kustra – no lights, dusk to dawn

Kindberg – “commercial” hibachi, still have a gift certificate for tree purchase

Walker – suppose out of towners want to use it?

Glover – have to let them, discussion on Stratham Hill Park fees

Gasowski – will the slab be elevated, posts in concrete? Plan for slab later. Reviewed ‘state’ plan and original plan

Kustra – metal roof, low maintenance, already have lumber from trees cut in Town forest

LaCourse – handicap accessible?

Kindberg – paths already in, could put in handicap parking

LaCourse – what is the time table for completion?

Gasowski – will volunteer labor be used?

Hannon – Yes

Kindberg – paths already in, need something for seniors, expand the walking path, continue it from back of ballfield to front of park (pavilion)

Stevens – 750’ new, estimated \$4000 for equipment and materials, use Highway Dept. labor

Kindberg – relatively inexpensive

3. Slide Structure

Kindberg – have all the materials, Tobin Farwell plan, but not designed to accommodate anything but 4’ and have 5’, 6’ and 7’ lengths. Need volunteers.

4. Parking

Kindberg – extend parking on either side of entrance, move gate, add parallel parking along road. Worried about kids running around if parking is put at back of park.

Hannon – move the large rocks toward park to make more room in the existing parking lot

Humm – have to make sure any new parking doesn’t extend into easement.

Tappan – concerned that moving cars into park ‘urbanizes’ it

Hannon – parking plan in phases?

LaCourse – yes

Tappan – very interesting natural environments in LRP, a lot going on.

Fisher – large tree blocking one of the trails

General discussion on ‘bridges’ over wet areas, Humm suggests it could be an Eagle Scout Project

Stevens – drainage structure, pond, issue with water coming off ballfield

General discussion on stone piles and area in back
