

Sept. 6th 2011

Attending: Jon, Laurel, Sharon, Dorn, Noel, and Bambi

Jon presented Town building energy audits - will add \$ figures to each recommendation divided into low hanging fruit, mid range and big ticket items.

Public safety roof is a real issue beyond energy use - has structural issues.

Reports will be shared with Town Administrator and selectmen - Will ask Mike Turcot to return to answer any questions.

Energy committee endorses the recommendations

Recommend including library report with other reports

Next step to develop RFP - air sealing and insulation (town hall, annex, public safety, and transfer station office)

Discussed specifics of reports

Clay and Jon will attend Lee Fair

Discussed Community action program and controversy

Discussed Button-up NH and if Lee might host
