Lee Heritage Commission

**Mill Book:** Laura has contacted Wharf Industries and they will give us costs, etc. It should be a "perfect" binding.

**Posting meetings:** There has been some discussion about this. It was decided, with the Town Administrator, that a year-long listing was sufficient. One copy would be posted in the Town Hall and it would also be on the town web site.

**Kennard Barn:** nothing new.

**Hobo Shed and Vault:** nothing new.

**Lee Documentation Project:** we will speak to Denise in the Town Hall to request an e-mail for the Heritage Commission when we start asking people for photos, etc. We could also have a page in the Fair Book about this. Do we want a booth at the fair? The problem is someone to man it.

**Burleigh-DeMeritt House:** Lori Wright, student at UNH, is working on documenting the Burleigh-DeMeritt House and the Bartlett-Dudley Farm as 100 year farms. This is for a book that the New Hampshire Farm Bureau women are working on this year. We also discussed writing a letter to UNH regarding the house and its problems. The Board of Selectmen must endorse whatever actions we take. Denis would like to take photos inside the house. Laura will call Tom Oxford as to when we could meet.

**Semiquincentennial:** Discussed the parade. Denis will talk to the Paysons, Bill and Matt, who are heavily involved in reenactments, to see if they will be interested in reenacting the Battle of Wheelwright Pond during our semiquincentennial celebration. The date of the battle was July 6, 1690.

**Cellar Hole:** We also talked about documenting the cellar hole on Jim Banks' land since considerable land clearing is going on around the cellar hole.

Next meeting will be July 17, 2014

Minutes submitted by Laura Gund
