

Present: Phil Sanborn, Geoff Carlton, Dawn Genes, Silvio Theriault

Minutes from the December 2010 meeting were read and approved. Geoff motioned to approve them and Phil seconded.

OLD BUSINESS

Ice Skating Rink

Nothing has happened with getting materials. In some towns they don't even use plastic on the ground and just flood on frozen ground. Only three inches of ice is necessary. Since everyone is so busy and the season is half over it will have to wait until next year.

NEW BUSINESS

Town Meeting March 9, 2011

A report needs prepared for the Town Meeting about the activities of the Lee Recreation Commission and the accomplishments. Stan will start on a video to show. Discussion on the warrant articles to be presented by Lee Recreation Commission.

Egg Hunt

We have been short on egg shells to fill with candy and prizes. Stan will contact Chris B to get a notice on the town's website that if anyone has egg shells from previous Easter Egg Hunts they can drop them off at the Lee Transfer Station.

Fishing Derby

The 2011 Fishing Derby will be held on Saturday, May 7. A letter needs to go to the Stevens Family to request permission to use their farm for the 2011 Fishing Derby. Dawn will draft one and get it sent out. Mark Kustra will be making 20 signs for Lee Rec to use to promote the 2011 Fishing Derby. We are no longer allowed to tie signs to the stop signs and other road signs so new signage is needed.

Wind Erosion at Little River Park

A 'living snowfence' is needed to reduce the drifting snow across Route 155 and to reduce dust blowing. If a shrub row were to be planted between the parking lot and the road this would help to slow down the wind and drop out the snow and dust.

Field Shortages

ORYA would like to have the recreation folks from Durham, Lee and Madbury together to discuss who has what field space available and what field development plans are in the works. The meeting might take place in February or March.

The meeting adjourned at 8:35 pm.
