

Lee Recreation Commission

October 3, 2011

Present: Members - Phil Sanborn, John Shea, Dawn Genes Alternate Members – Dave Young

Guests: Stacey Bender

Old Business:

Little River Fest and Old Home Day

The Recreation Commission discussed how the event went. Everyone was pleased with the day and felt that there was a good turnout and that the feedback from those in attendance was very positive.

Little River Park

Sponsors

John said how much he enjoys being a part of the Lee Recreation Commission. He was happy to do the banners this year and will work with the sponsors again next year.

John Shea has leads to get a commercial stove for our future snack shack. He also has a lead on a donor for a scoreboard.

John's lead on bleachers is still in the works.

Trash Management

A group of people used the park for what looked like a family reunion in early September. The group did not remove their trash.

Electrical Service

Geoff motioned to move ahead with the plan for electric service prepared by Chris Smith and Public Service. Service will be underground and include stub ups at the well and future pavilion for a cost not to exceed \$9,000. Dave young seconded the motion. Motion carried.

Updated Map of Little River Park

Now that more features have been installed at the park we could use an "as built" map.

Dave made a motion to have an engineering company survey the as-built improvements at Little River Park with a price not to exceed \$999. Phil seconded the motion

Field Maintenance

The field can be limed by Allegro Lawn for \$250. Phil made the motion to contract with Allegro Lawn to complete this this fall.

The meeting adjourned at 9:20 pm
