MINUTES

The minutes from the December 2011 meeting were reviewed and approved.

OLD BUSINESS

Ice Rink – It has been watered a few times but each time has been followed by warm periods.

Hopefully, some cold weather will last in order to make this happen.

Irrigation Lines – Phil started his generator to blow out the lines and the motor blew up before the job was done. Phil is comfortable that the lines are adequately drained for winter.

NEW BUSINESS

The dugouts at Town Field need painted or stained. Dawn recommended that the fascia boards be painted with Binz primer and then a white solid color stain. The siding will be either a clear green stain or a grey solid color stain.

Town Field clean-up will be done in the spring by ORYA. Phil will contact them to see about dates for field maintenance.

Little River Park

A walkway needs constructed from the parking lot to the Babe Ruth field. Phil will ask Randy Stevens if he can do this in April.

Dugouts need to be built at Little River Park for the Babe Ruth Field. Construction will take place in 2012. Phil suggested the floor be poured and the walls be block. However, if the walls are poured there will not be any pushing on the blocks since the dugouts will be built into the hill.

There is some consideration of having a poured roof so that it can be used for bleachers.

Park entrance sign and information kiosk – for the February meeting we need designs and specs so that we can get a bid for each.

Warrant Article for an Artificial Turf Field at Little River Park

A citizen's petition warrant will be initiated for signatures. Warrant articles are due by January 10.

An informational meeting should be held to answer questions about this article. Geoff will try to schedule this at the Safety Complex for January 31.
