Town Field

Light needs repair – Larry to go before Selectboard to ask to get it fixed

Ice Rink – a liner has been purchased for the ice rink that is now at Town Field. It will be installed soon and the Fire Department will flood to make ice.

Little River Park

Adam Geddes completed an Eagle Scout project where he did trail maintenance work, measured the length of each trail, and created a wood map of the trails to be installed at the edge of the parking lot. The Selectmen approved the installation of the wooden map on November 25.

There are new locks on the gate at Little river Park, one combination and one with a key.

Larry received quotes for a rail fence to protect the new grass field. The quote is for 400 feet of two rail, round post fence.

Programs in Progress

Ice Skating at Town Field – tentative hot chocolate ice skating parties on January 12 and February 2.

Ideas for New Programs from Lee Recreation for 2014

Kite Flying Day – inexpensive, may be able to link with some other activities

Model Airplane Day – many people are using Little River Park for this now. Some policy needs developed for safety reasons. If they are members of American Modelers Association they are covered by insurance in case someone gets hit by a model airplane or causes some damage.

Bike Safety Day – check to see if Mast Way has one planned. Help if they do. Host if they don't.

Bonfire Night for Teens – teens are using the park now. This would be a coordinated event.

Outdoor Movie Night – Mark has a blow up movie screen. Would need a projector. Could someone sell popcorn?

Music in the Park – either at little River Park or at Town Field.

Lee Recreation Master Plan

The Commission worked on the draft Master Plan for Lee Recreation. Will approve by email by December 20.

The meeting adjourned at 8:59 pm.
