3. Mr. Bugbee will draft up an article using the two FAQs (dealing with construction types and staff hiring) for the next E-Crier. A reminder for our last public presentation of the Town Center Project will take place on Wednesday, March 6, 2019 at 7:00pm at the Public Safety Complex.

5. John Tappan and Scott Bugbee met with the Planning & Zoning staff, Town Clerk / Tax Collector staff, and the Selectmen's Office staff to review their areas and create some designs for their proposed spaces that meet their needs. The meetings were very productive and many issues were discussed. Mr. Tappan will start to develop some workable scenarios with each of their spaces. More meetings are planned with these groups to finalize their space configurations.
6. The Committee received some correspondence from various town residents regarding the Town Center Project. One is in reference to the information sent out by the Library Foundation and costs for the project. Mr. Tappan created a spreadsheet with the cost for properties in the Town for the proposed costs per thousand for the project. This document will be published on our web site. It will allow residents to see approximately what the project will cost for their property for each of the next three years.
