- Much of the meeting focused on revisiting the list of topics waiting to be discussed with Allied Waste. John Hickey, the AW account manager, was there to take down the list and pass on to his manager.
- The rest of the meeting involved preparations, responsibilities and action items for Beautify Londonderry 2010: status of sponsor donations and services, getting the seed packets for tokens, project contacts, Finance dept rules for invoices, volunteer group assignments, LPD and ALERT support, School district liaison activity, etc. The 3 volunteers attended and are doing a great job.
- Marty confirmed the number of signs he would like to request from Allied Waste
- We touched on the additional waste services some members of Town Council have talked about and included in their goals
- Paul gave members an update on the LMS milk carton recycling going on
- Doris informed us that it is not known where traffic cones or some of our A frame signs are stored. Unfortunately, we may need to order new ones.
