New solid waste videos	Vinny Curro
CFL Communication	Paul, Bob, committee
Other 2014 goals	Committee
e.g. new Recycling ideas	

**Future months:**

DES Haz Waste site grants	Paul
---------------------------	------

**Housekeeping**

**Acceptance of Minutes:**

Minutes from the June meeting were reviewed and approved

**Miscellaneous**

- Donna said that so far during 2013, there were 10 – 5-gallon buckets of CFLs that were recycled from the drop off center. That means that there could be around 400 to 500 CFLs recycled for the year at the drop off center. It is estimated that there are approximately 40 to 50 bulbs per bucket. The total so far in 2014 would appear to be about the same amount.
- Paul is writing an article on recycling CFLs and it should be ready to put in the Londonderry Times shortly. Paul is also going to be calling Benson's to see if they take the CFLs at their location.
- There was no discussion regarding sports equipment recycling or the Beautify Londonderry sponsor signs.

- Duane reported that there was nothing new on the hazardous waste collection at Wolfeboro. He is trying to get a time when he can review their process at their HHW drop off center.
- Paul wrote an article on non-dispersible products that are listed as flushable but should not be flushed down the toilet and the problems that they cause when they are flushed down the toilet.
- There was nothing new on the repairs to the Welcome to Londonderry signs.

### **Main Topics**

- Vinnie could not make it to the meeting and he is scheduled to attend the September meeting so the committee can review the videos.
- There was discussion on the status of the sponsor signs at each of the Welcome to Londonderry signs. Duane said that he temporarily fixed the one by the Yard on Route 28. Duane said that he would go to each sign and make up a status list of each sign in order to repair/replace any signs that are damaged. He will have this for the September meeting.

Meeting ended at 7:40 PM.
