Recorder: Steve Brown

The Board met with representatives from Milford at Carnival Hill to gather field data in support of a determination of the correct location of the boundary marker (Town Line). The Milford representatives were Milford Town Administrator Guy Scaife and Milford resident Lorraine Carson. The location of the marker for the Town Line is located in the soccer field (or right field of the eastern baseball field), underground. Some slight digging was required to uncover it. A GPS waypoint had been taken at this location previously, as had one in an easterly direction down Whiting Hill Road, near a telephone pole and stone monument with a bent bolt in it.

Two additional waypoints were taken during this work session – one at the Lyndeborough/Milford town lines on Center Road, and one approximately 600 feet down a stone wall (to a corner) accessed from the Center Road location.

The GPS coordinates were taken with a Garmin Oregon 400, using a WGS84 Datum. The waypoints were not ‘averaged’ in. The stated precision on the first two waypoints was on the order of 20 feet - the precision on the second pair was about 50 feet.

First point - 'right field, buried monument'
