Mr. Slingerland stated that this was discussed with the Chamber of Commerce. The goal of this change in the Code is to encourage the merchants on Mamaroneck Avenue to park in the lot behind Mamaroneck Avenue, freeing up spots on the Avenue for shopping patrons. There is a current class that exists under the GP permit; however these permits will be offered in half and quarter years

and the cost is approximately 60% less than parking on the Avenue. As a next step, dual purpose meters will be looked at. These will allow people to use permits in the spaces or feeding the meters.

Mayor Rosenblum stated that this is part and parcel of looking over the entire parking Code in the Village. Trustee Hofstetter stated that it seems to him that the Village is consistently buying new meters in conjunction with Code changes and he asked to see what we pay for meters in any given year. Mr. Slingerland stated that a meter head costs approximately \$400 and should last between 5-10 years. A typical peak rate space, charging \$.75/hour, brings in approximately \$1,500 per year. At the \$.50/hour rate, that number is approximately \$1,000 per year. Trustee Hofstetter suggested looking at the cost over the last 10 years.

Mr. Slingerland stated that the Village is looking into new technology, where you can pay meters by phone. We do not want to purchase meters where technology is already out of date. The multi-space meters are no longer going to be used because if these boxes are taken out, revenue on all of these spaces for an entire day is lost. Trustee Hofstetter suggested looking at the amount of revenue collected if there were no meters, but stricter time enforcement. Trustee Ryan asked if proof of being employed in the Village will be required. Mr. Slingerland stated that it would be. He also stated that the permits will be hang tags that can be used by multiple employees.

There were no comments from the audience.
