RE: City Re-Precincting

Honorable President Vigeant and Councilors:

The City re-precincting map recently approved by the Council must now be followed up with your consideration and approval of 1) the legal descriptions for each ward and precinct, as well as 2) the census block listings for each ward and precinct. Late this past Friday afternoon (May 27), the office of the Secretary of the Commonwealth forwarded to the City the State's draft legal descriptions and draft census block listings, and directed the City to edit those documents so that they come into conformance with the Council-approved map. This very extensive editing process was completed only today.

Accordingly, I have enclosed the City-edited legal descriptions and census block listings so that they conform to the re-precincting map recently approved by the Council. Also enclosed for your approval is a listing of the 2010 population by ward and precinct. Given that the State-mandated deadline for Council action on these matters is June 15, 2011, I respectfully ask that the Council approve the legal descriptions and census block listings at tonight's meeting. Assistant City Engineer Timothy Collins, the City Solicitor, and I will be available to answer questions at the meeting. I have attached a proposed order for your consideration.

As always, please feel free to contact me with any questions or concerns.

Sincerely,

Nancy E. Stevens
Mayor

Assessors' Map 68, Parcel 80**

President and Members:

Proposals were due for the above-referenced tower site on April 20, 2011. The City received a proposal from New Cingular Wireless PCS, LLC by and through its manager, AT&T Mobility Corporation, in the amount of \$48,857.00 for the first year of the lease, increasing annually by three (3%) percent on each anniversary of the Rent Commencement Date. The value of the lease is \$908,687.07 over the fifteen (15) year term. Please note that AT&T has an existing Lease Agreement with the City for the existing Facility and related equipment currently located at the Sligo Hill Water Tank site. Any modification to the existing Facility and related equipment will require a Special Permit.

I seek your approval to issue a Notice of Award subject to the Director of Public Facilities' evaluation and approval of New Cingular Wireless PCS, LLC's proposal to renew its lease term at the Sligo Hill Water Tank site.

Sincerely,

Beverly J. Sleeper
Chief Procurement Officer

Correspondence from the Assistant City Engineer

The Planning Board asked the Legal Department the best way to ask the City Council Public Services Committee to remove this subdivision off the table as well as the best way to amend the subdivision as-built plans and associated deeds. Ms. Panagore-Griffin goes on to state that the Public Services voted to lay the issue on the table at the December 6, 2010 meeting, but failed to remove the issue from the next meeting on January 24, 2011, in which the motion died but the order remains in committee.

Also, it is her understanding that it's been a year past the completion date since the developer completed construction improvement under the Section V and the modified Covenant, except for the City's acceptance of the easement. She goes on to state because the issue is before the City Council, and the requirement for acceptance of streets is interpreted to include easements, the Planning Board may wish to determine the City Council's unambiguous intention to accept, or not accept, the easement before releasing the remaining bond money.

She is suggesting that the Planning Board consider making a request to the Public Service Committee that they place the order back on their agenda, that they vote not to accept the easement in accordance with the Planning Boards February 17, 2011 recommendation, and that they report out their action to the City Council for its vote or that they inform the Planning Board of their intention to allow the order to expire without action at the end of the legislative session on December 31, 2011. Any response from the Public Services Committee will either require the Planning Board to delay releasing the bond until after the City Council holds its vote, or allow the Planning Board to immediately release the bond if the order will eventually expire in committee.

Mrs. Panagore-Griffin stated that the as-builts have not been recorded for the subdivision and the since the City Engineer will not require amendments to the as-built plans. She is suggesting that an affidavit under the M.G.L. c. 183 ss 5B, will remove any future doubts or concerns as regards to any legal effects of the recorded Easement Agreement and definitive subdivision plan which purports to convey the turn-around easement to the City. Once the City Council takes an action, the Planning Board is free to vote on the proposed affidavit.

On a motion by Mr. Fay, seconded by Mr. Coveney, it was duly voted:

To accept and file correspondence; to ask the City Council Public Services Committee to place Order No. 10-1002748 on their next agenda, to ask they vote not to accept the easement in accordance to the Planning Boards February 17, 2011 and report out to the City Council, OR

inform the Planning Board that their intention is to let the order expire without action at the end of the legislation session.
