PUBLIC HEARINGS:

Request for Determination of Applicability filed by Marc Kaner. The address is 5 Pinewood Way as shown on Assessors' Map # 22, Lot # 58. The Applicant proposes to install a 10' x 10' shed within the 100-foot Buffer Zone to a Bordering Vegetated Wetland. The shed will be built on existing lawn.

CONTINUED PUBLIC HEARINGS:

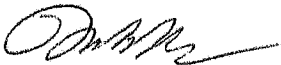

SE44-1228 Continued Notice of Intent filed by Daniel & Laurie DaRosa. The address is 3 Goodspeed Island as shown on Assessors' Map # 10 Lots # 28 & 28A. The Applicants propose to construct a 4' wide x 290' pile supported pier to provide access to the waters of Mattapoisett Harbor & Buzzards Bay for recreational boating, fishing and swimming. The pier will begin from the existing landscape area landward of the Top of the Coastal Bank (a man-made dune-grass vegetated embankment) and then extend a distance of 245' southerly to the L-shaped end section, thence 45' westerly. The structure will extend approximately 183' from Mean High Water into the Mattapoisett Harbor. Approximately 53' of the pier will be placed over the Coastal Beach across an easement of the abutting property known as Lot # 28A. Consequently, the design will incorporate a 12' long removable section (ie: installed with removable pins) up-gradient of the Mean High Water Line to allow the easterly property owner access for heavy machinery, should it ever be necessary. The L-shaped end section will be constructed with a wave attenuator 75' in length to provide protection for the placement of a 10' x 20' float. Pilings will be installed at all four corners of the float and fitted with float stops to assure that a 24" separation from the bottom is maintained during extreme low tides. The float will be accessed by the installation of a 3.5' x 20' gangway. A seating bench will be provided at the end of the pier as shown.

REQUEST FOR CERTIFICATE OF COMPLIANCE:

SE44-1221 Request for Certificate of Compliance filed by Jorge Verissimo. The address is 5 Nantucket Drive as shown on Assessor's Map # 13, Lot # 106.3.
