

Minutes
Energy Advisory Committee
Date: 20 January 2011

Present: Sharon Anderson, Rick Bedard, Bob Blackman,
Laurie Connors, Brad Turner

Absent: Jim Dunn, Brian Stowell

Call to Order: 1:05 PM

Acceptance of Past Minutes:

21 December 2010: Brad motioned to accept; Bob seconded. Unanimous vote.

Minutes of 3 December 2010 still need to be accepted.

Old Business:

Eliza Johnston, Project Coordinator of *ICF International* and Kelly Brown, Central MA Regional Coordinator of *Green Communities Resources* were on hand to review Millbury's Action Plan leading to becoming a Green Community: what we've done, what remains to be done, and who can help.

Criteria 1 (as-of-right siting), 2 (permitting processes for energy facilities), & 4 (only fuel-efficient future vehicle purchases) appear to be under control with Criterion 4 scheduled to be approved by *The Board of Selectmen* on 25 January 2011 and the *School Committee* soon thereafter.

Criterion 3 (energy-use baseline inventory) will be finalized by 1 March with the help of Rick Bedard who has stepped up to help, and Criterion 5 (requiring all new commercial & industrial real-estate to be energy-efficient) is being managed by Bob Blackman. The regional Construction Stretch Code Conference is scheduled for 27 January in Sutton.
