

Minutes  
Energy Advisory Committee  
Date: 6 April 2011

Present: Sharon Anderson, Bob Blackman, Laurie Connors, Jim Dunn, Rob McNeil, Brad Turner

Absent: Rick Bedard

Call to Order: 9:05 AM

Acceptance of Past Minutes:

Brad motioned to accept the minutes of the 11 March meeting. Bob seconded. Four yeas; Laurie and Rob abstained.

Report:

- In order to prepare for the PowerPoint presentation to the Selectmen next Tuesday 12 April, there is still work to be done and data to be entered into the draft so that we can reach the 20% energy reduction target needed in order to become a Green Community in the next five years.
- Laurie pointed out that 5% of this can be behavioral-education based which was welcomed news.
- It was felt that it would be a good idea to find out from Kelly Brown how much grant money was available in this year's appropriation before next Tuesday's presentation as this would provide a greater impetus for our getting the townspeople's approval.
- A discussion of the best way to provide payment to the consulting firm *Weston & Sampson* ensued.

Adjournment: Bob motioned to adjourn at 9:40 AM. Brad seconded. Unanimous vote.

Next Meeting: Monday 11 April @ 8:30 AM.

Respectfully submitted,

Sharon Anderson
