ITEM FOUR – ATTENDEES

- Jim Clifford of 92 South Main St. was present as he has a request for an abatement to his sewer bill before the Commission this evening for their consideration. Members reviewed the matter. Lisa Allain made a motion to approve the abatement; Gary Nelson seconded; a unanimous vote of approval was obtained.
- Jason Greenspan of Stellar Industries, 50 Howe Ave. was present to discuss the situation regarding the company's past Non-Compliance Order and to explain their present status. He explained that 50% of the water usage associated with their operations is evaporated, however they are charged for 100%, and said they are currently in compliance with the previous Order. Discussion ensued. Rob McNeil explained that at the time (2012) Stellar requested a sewer abatement from the Commission, the site was visited and the company was found noncompliant with the UBWPAD sewer & pretreatment regulations, and given an Administrative Compliance Order. Through recent correspondence from UBWPAD, Rob has learned that Stellar complied with the Order by installing a pretreatment system, UBWPAD tested the system and Stellar has remained compliant to date. Rob suggested something in writing from the company regarding the change out of the subtraction device meter and said he'd like to check with Aquarion Water Co. for a suggested (industry standard) frequency schedule. Rob stated the importance of staying in compliance with a treatment standard in order to protect our collection system. Jason concurred. He will have the company submit something in writing accordingly.
- Regarding the Rt. 146 Bridge Project, Rob reported the non-participating amount for expanding the sewer to residents of Faron Circle is \$200,000 +/- . He said previously the Commission's judgement was not to undertake this because it was very costly. Gary Nelson stated he'd now like to get a consensus from the residents whether they would be interested or not in connecting to Town sewer.

ITEM FIVE – OPERATIONS

• **Abatement Requests**
