Sutton Billing signed by Gary and Happy for \$31,053.94

**Minutes none**

**Outside Meter Deducts**

Rob stated all the forms and letters are different from what is on the website to what we have in the office. Still have question on keeping deduct meters. If Town decides to stop using them, it will affect about 216 outside meters and about 54 wells. Rob stated that the Sewer Rules and Regulations do not address residence on wells. But that other towns use the title 5 rate which would be 200% increase on their bills. If at any point the town changed it billing rules, the town should look into an elderly rate.

The town still would like to have the billing done by an outside company, but at this time there are still issues with account numbers so the town needs to get a handle on the accounts before it is turn over to an outside company.

If and when we decide to change the billing or anything to do with the billing we should have a note placed on the sewer bill or in with the bill stating that we are going to be having changes and keep eyes posted for a public hearing.

Further discussion needs to be held at further meetings
