Meeting Minutes;

The minutes for the May 12 meeting were read and accepted as read. Motion by Tom to accept and second by Kent. All members voted unanimously.

Downtown Infrastructure:

Mike attended the Board of Selectman meeting, per request of Mr. McNeil, on a proposed accessible crosswalk from the Post Office to Mat's Barber Shop and Handicap Parking further down Elm St. near A&D Pizza across to the other side of the street. This is an experimental project, that if it works out well, that this will be a blueprint for the other beautification work that will be done in the future downtown. Mike endorsed this project enthusiastically at the meeting. There was no objection from the Board.

Asa Waters Bandstand Project:

The Commission received the final decision from the AAB that has to do with the ramp and walkway at Asa Waters Bandstand. This letter listed some of the important notes from the initial complete history of the complaint, right up to the hearing that Mike attended in Boston.

The funds of \$50,000.00 were approved at Town Meeting and would be available as of July 1, 2016.

This project should be completed no later than September 2, 2016.
