

14 APR 24 AM 10:41

MILBURY MASS

MINUTES
BOARD OF HEALTH

Date: April 17, 2014

PRESENT: Jim Morin, Armand White, Ron Marlborough
Bob Spain, Town Manager
Jim Malley, Title V Engineer
Derek Brindisi, Director Worcester DPH

ABSENT:

GUESTS:

Office up-dates: No office up dates

Vouchers to be signed: No vouchers signed

Health Agent Report: No health agent report

Old Business: Wheelabrator

Jim Malley opened discussion stating he spoke with Sam Chapin, engineer with Brown and Caldwell for Wheelabrator and Maria L'Annunziata from DEP. The initial questions refer back to the Site Assignment and where Wheelabrator is getting their water. They are also using groundwater for the ash and possibly for the tower. Following a diesel fuel spill in 1994, a groundwater interceptor trench was constructed and completed in 2007.

The Board also discussed DEP reporting the contamination of Cadmium in the groundwater which is tested bi-monthly and tested over the limit of .051.

Brown and Caldwell was scheduled to have a representative present at the April 23, 2014 board meeting to request written approval from the Board for the use of groundwater. The Board decided to postpone that request until they can schedule a meeting with all parties involved. The Board will arrange to have a meeting with a representative from Wheelabrator, a representative

from Brown and Caldwell and a representative from DEP. When date and time is set all will be sent proper notice.

A motion to adjourn was made by Ron Marlborough at 11:10 A.M. Seconded by Armand White. Vote unanimous.

James M. Morin:
