CHAIRMAN
Committee on Ways and Means

April 11, 2012

To the Honorable Members of the Massachusetts House of Representatives:

In this document the House Committee on Ways and Means presents its recommendations for the Fiscal Year 2013 General Appropriation Act. While the Commonwealth is making great strides toward economic recovery, there still are difficult decisions to be made. This proposal reflects our commitment to a thoughtful and responsible approach to fulfilling our obligated spending while attempting to achieve savings.

Speaker DeLeo once again renewed his commitment to the citizens of Massachusetts by declaring there will be no new taxes or increased fees in this proposal. With unemployment rates lagging, we must remain cognizant of the fiscal and economic realities without placing a further burden on taxpayers.

Despite the ongoing challenges presented by the uncertain economy, the Committee recommends making significant investments in Local Aid. Members brought forth concerns about the financial needs of their communities which compelled the committee to make a targeted investment in our municipalities. This budget fully funds the Unrestricted General Government Aid (UGGA) that our cities and towns have come to rely on to balance their annual operating budgets. In addition to UGGA, the committee prioritizes education funding by guaranteeing all municipal, vocational and regional school districts an increase over Fiscal Year 2012 Chapter 70 funding for a total increase of \$164M. We assist districts in meeting their special education obligations by funding circuit breaker at \$221.5M and for the first time, we appropriate funds to offset the expense of the federal mandate (McKinney-Vento) requiring communities to incur the costs of transporting their homeless student population. Furthermore, we were able to prioritize regional school transportation, funding it at \$45.4M.

By way of reform, this budget includes a proposal to place the Commonwealth's community colleges in the best position possible to respond to the changing needs of Massachusetts and its residents, particularly in workforce development and continued higher education. The House proposal includes increased coordination among the 15 separate community colleges and the Board of Higher Education in order to provide flexibility to adapt to new opportunities for the Commonwealth. This is accomplished while still retaining the local involvement in the administration of the schools that has been a critical part of the success of the community colleges.

The proposal before you also acknowledges our commitment to serve elders and the disabled. Programs such as elder nutrition, enhanced home care services and elder protective services were preserved. Recognizing the high cost of out of home services, we increase in-home supports for families of the developmentally disabled and made investments in the areas of transportation and Turning 22. These significant investments ensure there will be a continuum of services to these populations.

Finally, the Committee proposes efficiencies and re-procurements in many areas of state government such as, Mass Health and the Department of Corrections in order to achieve savings and maximize our investments. In addition, we provide the tools needed to seek out fraud, waste and abuse in state funded programs.

I would like to thank the members of the House Committee on Ways and Means for their input and assistance during the development of this budget proposal. I would like to give special thanks to the Vice-Chair of the Committee, Representative Steven Kulik of Worthington, and Assistant Vice-Chair, Representative Martha Walz of Boston for their friendship and efforts during this budget process. I am also grateful to the membership for sharing their budget concerns and ideas with the Committee.

In closing, I look forward to working with each of you during the upcoming debate of the Fiscal Year 2013 budget. I am certain that together we will produce a budget that is a balanced, responsible and addresses the Commonwealth's needs.

Sincerely,

EXECUTIVE SUMMARY

Financial Overview

The House Committee on Ways and Means recommends for the Commonwealth's fiscal year 2013 operating budget direct appropriations totaling \$32.295B. These expenditures are based on a tax revenue estimate of \$21.950B for Fiscal Year 2013, representing growth of \$940M above projected current year collections. In addition to tax revenue, the Committee's budget recommendation makes use of \$13.03B of departmental revenues, federal reimbursements and operating transfers. The Commonwealth continues to emerge from the 2009 recession slowly but ahead of many other states across the country, and the Committee is proud to present this balanced financial plan for the next fiscal year. Thanks to our diligence as a national leader in state finance management this operating budget recommendation is able to protect the vital programs and services that the people of Massachusetts rely on every day, even in the face of today's limited economic resources.

	FY11 Tax Collections	FY 12 Estimated Collections	FY13 Consensus Revenue
Total Tax Estimate	\$20,516	\$21,010	\$21,950
Dedicated Tax Revenue*	\$2,864	\$2,941	\$3,058
Total Taxes Available	\$17,653	\$18,069	\$19,046

*Transfers to the MBTA, SMART, and PRIT Funds

This budget proposal is both an acknowledgement of the importance of maintaining critical, yet sometimes expensive programs, and the fiscal discipline required to stay within our means. The Committee budget proposal does not propose any new taxes or fees on the people living, working, and doing business in Massachusetts, and makes responsible use of one time revenue sources such as the Stabilization fund.

The funding allocated to programs in this budget addresses areas of mandatory growth, provides services for the Commonwealth's most vulnerable citizens through various health and human services programs, supports education, public safety, economic development, and provides funding to address the pressing homelessness situation that families across Massachusetts are struggling to deal with every day. The budget proposal contained in this document provides a path for the Commonwealth to grow sustainably while pushing to more effectively use finite resources to provide residents of Massachusetts with core government services.

Local Aid

The House Ways and Means Committee values the critical role that local government plays in the lives of the citizens of the Commonwealth. Local aid funding is vital to municipalities' operations and their ability to provide basic services to their residents. This year the committee is proud to prioritize this responsibility to our local governments by fully funding our capacity for Unrestricted General Government Aid to support municipalities and signal our commitment to helping them plan budgets with dependable revenues.

This budget also provides a \$163M increase to Chapter 70 funding by committing \$4.15B to local, regional, and vocational school districts. This increase provides enough funding to help all districts meet foundation aid and to also realize an increase in funds over state fiscal year 2012.

In addition to Unrestricted General Government Aid and Chapter 70 education funding, this budget proposal makes other significant investments in local aid. The committee recommends an \$8.4M increase in Special Education Circuit Breaker funding, a \$2M increase in Regional School Transportation

reimbursements, and for the first time confronts the unfunded McKinney-Vento federal mandate for the transportation of school districts' homeless student population with an \$11.3M appropriation.

In the current economic climate skills training at the post-secondary level is more important than ever. Public higher education ensures that quality options are available and affordable for citizens of the commonwealth.

The Ways and Means Committee budget makes an investment in workforce development by adding funds to Performance Management Set Aside, a competitive grant program for State Colleges and Universities to develop programs to connect students with post graduate employment. The Committee believes in a strong and effective lottery, and has produced a budget that allows the lottery to expand its operations while continuing to provide the highest payout ratio in the country. By providing the Lottery with the resources to strengthen and expand its operations the State expects to see a stronger, more profitable outcome in fiscal year 2013.

Knowing that these decisions affect all citizens of the Commonwealth, this budget provides Mass DOT with the resources necessary to adequately maintain the quality of the State's transportation infrastructure. EOHHS services include transitional assistance for needy families, support for veterans, care for vulnerable populations, protection for youth, health services for the poor and services for the elderly. The committee's budget recommendations aim to balance sustainable budgeting while preserving the values reflected in the services provided by EOHHS.

MassHealth

Massachusetts is outpacing the nation in our ability to continue providing healthcare to every resident without access to employer sponsored insurance in anticipation of the Affordable Care Act becoming effective in 2014. Despite growth in healthcare costs rates that are sustainable over the long term, the committee's budget continues our commitment to health services for 1.3M MassHealth enrollees and 208K Commonwealth Care members. The Committee budget focuses on investing money into programs that are proven to work including the Residential Assistance for Families in Transition and Massachusetts Rental Voucher Program.

The Committee has dedicated a new line item to the hotel/motel costs in this budget proposal to increase transparency in the shelter system, making the emergency assistance line item responsible for funding only emergency assistance in shelters. Together these agencies provide a wide array of services to the Commonwealth, including but not limited to, management of the Massachusetts' National Guard and the Department of State Police, coordination of statewide victim service initiatives, and maintenance of all correctional facilities. SECTION 3 LOCAL AID DISTRIBUTIONS.

SECTION 3. Notwithstanding any general or special law to the contrary, for the fiscal year ending June 30, 2013 the distribution to cities and towns of the balance of the State Lottery Fund, as paid from the General Fund in accordance with clause (c) of the second paragraph of section 35 of chapter 10 of the General Laws, and additional funds from the General Fund shall be \$898,980,293 and shall be apportioned to the cities and towns in accordance with this section.

Notwithstanding section 2 of chapter 70 of the General Laws or any other general or special law to the contrary, except for section 12B of chapter 76 and section 89 of chapter 71 of the General Laws, for fiscal year 2013 the total amounts to be distributed and paid to each city and town from item 7061-0008 of section 2 shall be as set forth in the following lists. The specified amounts to be distributed from said item 7061-0008 of said section 2 shall be in full satisfaction of the amounts due under chapter 70 of the General Laws.

For fiscal year 2013, the foundation budget categories for each district shall be calculated in the same manner as in fiscal year 2012. The target local share shall be calculated using the same methodology used in fiscal year 2012. Preliminary local contribution shall be the municipality's fiscal year 2012 minimum required local contribution, increased or decreased by the municipal revenue growth factor; provided, that if a municipality's preliminary contribution as a percentage of its foundation budget is more than 5 percentage points lower than the target local share, the preliminary contribution shall be recalculated using the municipality's revenue growth factor plus 1 percentage point; and if a municipality's preliminary contribution as a percentage of its foundation budget is more than 10 percentage points lower than the target local share, the preliminary contribution shall be recalculated using the municipality's revenue growth factor plus 2 percentage points. Minimum required local contribution for fiscal year 2013 shall be, for any municipality with a fiscal year 2013 preliminary contribution greater than its fiscal year 2013 target contribution, the preliminary local contribution reduced by 15 per cent of the gap between the preliminary local contribution and the target local contribution; provided, that no minimum required local contribution shall be greater than the district's foundation budget amount. Required local contribution shall be allocated among the districts to which a municipality belongs in direct proportion to the foundation budgets for the municipality's pupils at each of those districts. No non-operating district shall receive chapter 70 aid in an amount greater than the district's foundation budget.

If there is a conflict between the language of this section and the distribution listed below, the distribution below shall control.

The department of elementary and secondary education shall not consider health care costs for retired teachers to be part of net school spending for any district in which such costs were not considered part of net school spending in fiscal year 1994.

No payments to cities, towns or counties maintaining an agricultural school pursuant to this section shall be made after November 30 of the fiscal year until the commissioner of revenue certifies acceptance of the prior fiscal year's annual financial reports submitted pursuant to section 43 of chapter 44 of the General Laws. Advance payments shall be made for some or all of periodic local reimbursement or assistance programs to any city, town, regional school district or independent agricultural and technical school that demonstrates an emergency cash shortfall, as certified by the commissioner of revenue and approved by the secretary of the executive office for administration and finance, pursuant to guidelines established by the secretary.
