

## Chapter 90 Road Resurfacing Schedule

Jim and I met and have the following recommendations for improvements in FY14:

Pleasant St. Phase II (where last phase of sidewalk project left off) \$270,000  
Irving St. \$75,000 (in conjunction with water main project)  
Grove St. \$133,000  
Crack Seal \$43,000

Other streets considered but not recommended for this year:

Exchange St. (from Union St. to Island Rd.) \$250,000  
Curve St. from Exchange St. to Ridge St. \$76,000

The funds available are \$240,000 currently left from last year's Ch. 90 allocation and an expected allocation of \$280,110 for FY14 which is level funded. If the HWM committee reports the added funding out favorably before town meeting then we could get another \$133,835. In that case I would recommend doing Curve St. and one of the following:

Dean St. \$40,000  
Dyer St. \$23,258  
Oakview St. \$32,000  
King Philip \$33,000  
Causeway (1550 feet from Medway town line to Smith's house) \$35,000
