Hi Jim, I spoke with Sam about the PC's. We do NOT need Adobe on the machines.

In regards to software we should upgrade the existing licenses if moving to Windows 7 machines. Here are some budgetary numbers:

PLC - Rockwell/AB

- RSLogics 500 (#1012193487, #1012193488) \$550.00

Reporting - SyTech

- XLReporter (#20748) \$517.00

Alarming - Specter Instruments

- Win911 (#W0708080800405) \$408.00

HMI - GE iFix

- Unl Developer (#100339355) \$6,859.00
- IGS (#100339355) \$805.00
- Unl Runtime (#100339356) \$4,959.00
- IGS (100339356) \$805.00

Sum \$13,428.00

Total all software \$14,903.00

Note the above HMI software can be purchased using other plans (10/3 or 20/2). Basically the 10/3 plan covers a 10% fee to upgrade plus 3yrs of GlobalCare; upfront payment is required. The 20/2 plan includes a 20% fee to upgrade and 2 yrs of GlobalCare, again payment is due upfront. The 10/3 plan would cost \$10,913.00; the 10/2 plan would cost \$9,831.00.

Regards,

Remember SCADA SERV offers 24/7 EMERGENCY support services. Just call 866-MY-SCADA and your call will be answered promptly.
