Niagara Fire House Records Preservation Project (submitted by Millis Historical Commission):

The Committee reviewed the application presented by Mr. Nathan Maltinsky, Chair of the Millis Historical Commission. Mr. Maltinsky stated that the Historical Commission received records of the Niagara Fire Engine House from Chief Barrett. The log books date back to 1857 through 1933. There are two books in need of preservation, he said. One book details the department from 1857-1865 and the second book logs activity from 1926-1933. Both books are in need of deacidification and paper stabilization, new bindings, and encapsulation for future preservation, Mr. Maltinsky stated. The originals will be preserved and a copy provided.

Mr. Maltinsky presented an estimate from W.R. Dyer Bookbinding. This is the same company that performed the preservation on the Town Clerk Records Project in 2010.

At the regularly scheduled meeting of the Community Preservation Committee on September 14, 2017, on a motion made by Mr. John Northgraves, seconded by Ms. Anne Rich, it was unanimously voted (5-0) in favor of appropriating **\$7,000.00** for the preservation of Niagara Fire Engine House Records/log books from the **Community Preservation Historic Resources Reserve account**.
