M. Jervis, Southern Berkshire Homes, Rosen residence, informal discussion, Lake Garfield

Mickey discussed the project. A repair and renovation on Point Road in the Buffer Zone of L. Garfield. Her engineer will design the foundation repair. We discussed that all their work will be in the 100' Buffer Zone and as such they should file an R.D.A. that should include a fully protective silt fence. Excavated earth would need to be stockpiled outside of the Buffer Zone and protected from erosion or removed from the site. She indicated machines would be used for the normal construction methods. The project hopes to include a 2nd floor expansion.

Jean discussed the project. She was before the ConCom as part of her building permit application. The project was in the Buffer Zone of L. Garfield. We provided her with the Form 1 R.D.A. and suggested she file this for the next meeting. The project was expansion of a bedroom and foundation.
